A. A. WILL ELECT OFFICERS AT MEETING ON TUESDAY

The second regular meeting of the M. I. T. A. was held last Tuesday afternoon in the library of Waterman. Professor J. P. Officer '91, who presided at the meeting, announced that the election of officers for the coming year would be held at the next meeting. The time of the meeting was changed to Tuesday afternoon at 4 o'clock in the same room. This action had to be taken because of the time required to accommodate the other meeting did not permit the transaction of such business.

Field Day Manager Appointed

The minutes of the last meeting were read and approved. The sub-committee of having two crew cars on Field Day was discontinued and tabled. Following this action, a motion was taken on the nomination offered by the M. A. Waterman '92 for the joint meeting of the Visiting Council on athletes on Oct.-Nov. to choose for the Alumni and undergraduate, both, the chairmen of the committee on information concerning the candidates and also the programs of the various societies for the coming season. It was voted to accept the nomination of Mr. Waterman, to be held by the M. I. T. A., to be put under the supervision of the athletic association for this purpose.

M. I. T. Waterman '92, was called upon for a report of Field Day preparations. Strenuous efforts were made on the advisability of erecting a run to take full charge of the Field Day program and other arrangements who would give up his entire attendance to this activity. T. N. Taylor '22, was allowed to make a motion. In conclusion, all the work to be had by the M. I. T. A. was taken up at the first Field Day competition at a table d'hote dinner at the Hotel, 10:30 a.m., on the following morning.

Mrs. Fox was bragging one day about the large number of her cubs.

"How many cubs do you bring into the world at one time?" she asked the LIONESS.

"Only ONE," replied the Lioness—"but it's a LION!"

MURADS COST 20 CENTS FOR A BOX! BUT THEY'RE MURADS!

MURADS would be lower priced if we left out all or part of the 100% Turkish tobacco of the purest and best varieties grown—or if we substituted inferior grades of Turkish tobacco. But they wouldn't be MURADS—they'd only be Foxes!

"Judge for yourself—!"

Special attention is called to MURAD'S Tin Boxes

To meet this situation the T. A. C. has year undertaken to stabilize the price rents, and at the same time offer an inducement to the average Technology student to become a member of the club. Thus, in reality, the T. A. C. is making a direct payment of each student profit as large as possible. It was made last year, twenty-three cents of the current year, and, to be available without further cost to members of the organization. This arrangement also helps to keep the expenses of the various contests held under the auspices of the M. I. T. A. A., or in other words, all athletics held on the campus except the New England Intercollegiate Track Meet, and Field Day. By a special arrangement, however, one thousand feet for Field Day have been secured by the Club, and will be free to its members. This is five-sixths the capacity of the stand, and the campaign for membership has been limited to this week and no later will be sold after the last game Saturday.

ROOMS FOR TECH STUDENTS

Steam heat, electric lights, continuous hot water, $1.00 weekly. Apply 263 Masson Street, Corner Charles Gate West, Back Bay or phone Back Bay 61023.
