Tel. Weymouth 440.

EUROPE'S CONDITION RELATED TO FACULTY

(Continued from Page 1)

quite prosperous. Belgium is better off than France, and mentions Brussels showing no effects of war.

Shipbuilding Key to Industry

Professor Jack, of the department of Naval Architecture, who recently made a trip to Scotland, spoke on the shipbuilding industry in England. He said that shipbuilding, the key industry of Britain is at present at a very low ebb and the labor troubles were none too good for the industry.

"Conditions in Germany are not as bad as they are represented," said Mr. Roberts of the English department, who spent three weeks this summer in touring Germany. He stated that everyone must have his meat and bread cards, but the government does not enforce its regulations rigidly, and while the majority of the working people do not want the old regime back, the intellectuals and the civil service officials of the present government talk of the good old days under the Kaiser. The masses hope for an alliance with Germany and are disgusted with the allies and the Versailles Treaty. The Germans are cordial to Americans and have faith in the League of Nations hoping that the United States will enter it.

Professor Frank Aydelotte, who was granted leave of absence last year to carry out his duties as secretary of the Rhodes Scholarships in this country, gave his impressions of Oxford University and the English people and their present attitude toward the United States and France.

He told that the two big English Universities, Oxford and Cambridge, are financially worse off than our American colleges. As a result of this situation, Parliament is investigating the conditions with a view to government aid and it is possible that the two centers of learning will become national universities.

He was much impressed by England's tolerance of radicals and radical meetings. The labor party goes much further here than in America.

Professor Aydelotte related how eager England is for America to join the League of Nations. England is making her budget sheets balance and is paying up her notes. "Europe is in a mess and the economic weight of the United States, brought about by her entrance into the League will greatly help in clearing it up," he said. "The feeling in England is to drift away from French ideas and away from the high-handed policy of the Versailles Treaty which the French insist on. The English people stop thinking of war and forget the German indemnity. They feel the economic responsibility rests on them and the help of the United States will go far to ensure the peace for the world."

FRATERNITIES ELECT

Interfraternity Conference Officers Picked

At the first meeting of the interfraternity conference held in the East Lounge of Walker Memorial last Thursday evening, the officers for the coming year were elected and the activities of the league set in motion. M. C. Munce '21 was chosen chairman, with W. W. Russell '22 as vice-chairman. T. M. Taylor '22 will be secretary during the coming year, while A. L. Johnson '22 will fulfill the duties of treasurer. R. H. Smithwick '21 and W. W. Young '21 were elected to fill the two vacant positions on the executive board.

The meeting then turned to the discussion of interfraternity athletics. The deciding base-ball game of last year's series will be played between Theta Chi and S A E on Saturday, October 30. It was decided that there would be no football between the various chapters this year, as last year's experiment showed it impracticable. Rushing regulations were next touched upon and thoroughly discussed, and a committee was appointed to take charge of this phase of the activities of the conference. A committee was also appointed to make arrangements for the interfraternity dance, for which, however, no date was set.

DEANS PAY VISIT

Eight Land Grant College Deans Here Friday

Deans of eight of the land grant colleges of America came from Springfield, where they were attending the Land Grant College Convention, to spend Friday at the Institute and were guests of the Faculty Club dinner in the evening.

The annual convention is usually held at Washington, D. C., but this year it was held at Springfield, Mass., because of the semi-centennial anniversary at the Amherst Agricultural College which all the delegates attended. This association is an organization of the national institutions receiving Federal aid as prescribed by the Land Grant Act of 1862.

The association deals in the matters concerning the Federal government and the different institutions, which include military training, home economics, engineering and agriculture. In other states there is a single college for agriculture and mechanical arts, but in Massachusetts the two are separated, Amherst being the agricultural college and Technology the engineering institution.

TECHNOLOGY HARRIERS DOWN HARVARD TEAM

(Continued from Page 1)

Stone seventh and Reycroft of Harvard had pulled up to eighth.

At the finish Flanders of Technology by a wonderful sprint nosed out Bemis of Harvard in the last 50 yards for third place.

Large Field Competes

Since it was the first collegiate run of the season for both teams each started twelve men. The complete order of finish was as follows: MacMahon (T) 34.45; Sanborn (T) 35.24; Flanders (T) 35.27; Bemis (H) 35.27; Bemis (H) 35.27 3.5; Hendri (T) 36.22; Stone (T) 36.34; Reycroft (H) 36.36; Mahon (H) 36.53; Hennessy (T) 36.55; Pratt (H) 37.03; Eaton (H) 37.36; Robbins (T) 38.01; McIntire (T) 38.14; Winchester (H) 38.14; Nally (H); Bennett (H); Freese (T) 38.39; Dexter (H); Rowe (H); Tait (H); Alden (T); Bolster (T); Fox (H); Gill (T).

Frosh a Pleasant Surprise

The showing of the freshman team which had never run together before, was a welcomed surprise. Robertson lost first place only through the fact that Shaeffer, the Harvard captain, ran on the sidewalk so that Robertson, believing himself the leader, took it easy until it was too late. The showing of Holt who finished fourth was especially noticeable since he had barely made a place on the squad. Spurdle, Technology, also ran extremely well and finished within fifty yards of the leaders. The order of finish of the freshman race was as follows: Shaeffer (H) 17.29; Robertson (T) 17.29 1.5; Spurdle (T) 17.40; Holt (T) 17.43; Myers (T) 18.15 1.5; Howe (T) 18.16; Gilbert (H) 18.29; Coburn (H) 18.30; Dennis (T) 18.32; Keck (T) 18.36; Campbell (H) 18.42; Wells (H) 19.03; Gartland (H) 19.04; Delafield (H) 19.14; Hutchinson (H) 19.32; Burt (T) 19.32 1.5; Reinhardt (T) 19.43; McHenry (T) 19.44; Purnam (H) 19.55; Nimmick (T) 20.52; Riegal (T) 23.56.

Coach Pleased With Showing

Coach Kanaly after the runs stated that he was well pleased with the showing the men made and that they ran to the form he had expected of them. He said that he regretted Henry Walker was unable to run since he had expected him to place among the first. Walker was captain of last year's freshman cross-country team.

G. E. MAN SPEAKS TO COSMOPOLITAN CLUB

The Cosmopolitan Club held its first meeting of the year in the main hall of Walker Memorial last Friday evening. President Rodriguez welcomed the new members and introduced Professor Talbot, Dean Burton and Mr. R. F. Coggeshall of the General Electric Company of Schenectady, N. Y., as the speakers of the evening.

Mr. Coggeshall traced the rise of the General Electric Company, illustrating by slides the different plants and types of machines which this company has developed. Later in the evening the following films were shown, "The Revelations of the X-Ray," "Cuba, the Island of Sugar" and "The Electric Giant."

Mrs. Fox was bragging one day about the large number of her cubs.

"How many cubs do you bring into the world at one time?" she asked the LIONESSE.

"Only ONE," replied the Lioness—"but it's a LION."

MURADS COST 20 CENTS for a BOX of 10—BUT THEY'RE MURADS!

MURADS would be lower priced if we left out all or part of the 100% Turkish tobaccos of the purest and best varieties grown—or if we substituted inferior grades of Turkish tobacco.

But they wouldn't be MURADS—they'd only be Foxes!

"Judge for yourself—!"

Special attention is called to Murad 20s in Tin Boxes

Anargyros Makers of the Highest Grade Turkish and Egyptian Cigarettes in the World

HOW PONZI DID IT

(Continued from Page 1)

the case immediately before the courts, it is undoubtedly an exceedingly delicate subject for one even to lecture upon, unless he is fully assured of his ground.

Stockholders in the Course XV Corporation, under whose direction the Ponzi Smoker is to be held, are congratulating themselves upon having secured two very competent speakers

to present this delicate subject to them tonight at Walker Memorial. Mr. Leavitt Parsons, already well known to many Course XV men, is to consider the matter from the point of view of the Broker and Financier, bringing out many points of interest regarding the relation to the Stock Exchange and to the present tightness in the money market.

THE PURPLE DRAGON IS TECH SHOW 1921

(Continued from Page 1)

also imparted of the future writers for the Show.

Stuart Nixon, general manager also gave a short talk on co-operation between the music and lyric writers.

Malc Johnson has had former experience in writing plays and, according to those who have read the complete book, Tech Show 1921 promises to be one of the best shows turned out in years.

As a novel arrangement, the management has decided to give the music and lyrics writers, who have their songs published in the score, a trip to Northampton with the rest of the Show. It is expected that this new plan will interest a great many of the men and help to increase the number of contestants.

CATHOLIC CLUB HOLDS ITS REGULAR MONTHLY MEETING

The Technology Catholic Club will hold its regular monthly meeting and supper on Wednesday evening at five thirty in the Walker Memorial. Edward F. McSweeney of the U. S. Department of commerce will speak on "The Americanization of American Ideas".

Mayor Quinn of Cambridge, Dean Burton, and several of the faculty will attend the meeting.

A short business meeting will follow the talks.

ROOMS

FOR TECH STUDENTS

Steam heat, electric lights, continuous hot water, \$7.00 weekly. Apply 583 Beacon Street, Corner Charles Gate West, Back Bay or phone Back Bay 6392-J.
