FIELD DAY BILLED FOR HEIGHTS IN SPORTDOM

Boston Sporting Critic Thinks Institute's Big Fall Athletic Event Will Assume Proportions

COMPARABLE TO DARTMOUTH CARNIVAL

BY A. J. ROONEY
The Boston Traveler

Some day Tech Field Day will be such an attraction that graduates from all sections of the country will enjoy it. They will come from far and near and once more see the Sophomores and Freshmen in the rope pull, football game and other sports.

O No, O No, You Mustn't Miss This

O no! O no! You are hereby solemnly enjoined to be present at this year's Tech Field Day, which is on the way. It will be a day of fun, excitement and sport.

Without this day each year the underworld would not have the scope for athletics. There would be nothing to interest them in the fall season will ha.

In my mind there is no doubt but this year's will grow every year. It will eventually gain the prominence that the Dartmouth College Carnival has, and also may result in Tech having a three or four day affair.

As far as I am aware, the priesthood are to be present this year in the athletic field, as they were last year, and no doubt there will be a big score made by the Freshmen.

During the game, the cheers and jeers of the crowd will be as loud as a tornado.

In my mind there is no doubt but this year's will be a great success, and the people will have a grand time.

Tech Football is Feature

Although the rope pull is a bit of fun and creates as much enthusiasm as the football, the football game is the feature of the day.

The Techs are expected to defeat the visiting teams, and the game will be a hard-fought and fair contest, with the victor and vanquished proving themselves "good sports."
