COMMUNICATIONS

To our readers-
Comment has been heard around the campus that we are trying to "put something over" in charging admission for the tea the evening of Nov. 16. We believe that this has given rise to a misunderstanding, and we wish to remove any such adverse reaction. The charge is established to defray expenses and at no time will the amount charged be such as to make the tea a means of making a profit. All expenses will be defrayed by the charge.

FEDERAL BOARD TO DINE

The executive men at the Institute who are members of the Federal Board are to dine on Tuesday, Nov. 23, at 7 o'clock. It is to be a cocktail dinner given the matter of the recent attack upon the M. I. A. The dinner will be a matter of serious importance and the persons invited are as follows:

Prof. W. B. Macaulay, President
Prof. J. W. Howard, Secretary
Prof. A. M. Shaw, Under Secretary
Prof. T. C. S. Brown, Treasurer
Prof. T. A. M. Bell, Corresponding Secretary

The dinner will be in honor of President Macaulay and will be held in room 411 at 8 o'clock next Tuesday. All those present will be guests of the Federal Board.

AN EXPLANATION REQUIRED

HAVING given the matter of the recent attack upon the M. I. A. a careful consideration, we feel that the M. I. A. A. Association should explain the action of their officers in the selection of the Field Day Manager two men who were not qualified to do so. We also know that the scheme of the Institute teaches the necessity of taking the name of a crew manager who was in reality only a candidate. Since that time no man other than the one named on the schedule has been elected.

In view of these known facts we demand that a satisfactory explanation be forthcoming from the M. I. A. A. In the THE TECH of November 19, appeared communications relative to the subject, which throw absolutely no light upon the question, but merely evaded the issue. The principle theme of these letters denies the statements in the communication of Nov. 16, when we think he had to write but didn't care enough to stand up for his own ideas. Any expression of opinion backed by a name subject to allow the publication of his name, not merely so the author can feel better about himself.

HEAR REPORTS OF COMMITTEE, CHAIRMEN AT T. C. A.

With the selection of the Committee Chairman, the T. C. A. has completed most of its organization. Several new features of association have been embodied in the organization, and the T. C. A. is more student centered than the Institute. This consists of supplying the needs of those who are forced to forgo in various ways to visit and travel and that is the reason we believe that it is a unification of the campus and students in the same capacity by it's various in the interest of this country. The T. C. A. has had a series of discussions and will also become affiliated with the Federal Board.

ACADEMIA TO MEET FRIDAY

A meeting of the Academia will be held on Friday, Nov. 27, at 11 o'clock. This will be the first time that the meeting will be open to the public. The first issue will be the selection of the committee chairman, and the second will be a discussion of the problem of the future of the Academy.

INTERESTING SPEAKER WILL SPEAK ON LABOR UNREST

Dr. John W. Howard, President of the Federal Board, will speak on Labor unrest. Dr. Howard is a member of the Executive Board of the Federal Board, and has had extensive experience in labor relations.
