teared the belief that there are no real differences between East and
West, and pointed out that, that nat-
ural boundaries should have no way of
affecting the common good. He pointed
his own experiences illustrating the
same. The meeting was well attended,

CATHOLIC CLUB COMMUNES

The Technology Catholic Club held
to an annual dinner last Tuesday night at the church on Sunday morning, with 15
members present.

Dr. Olds, Professor of Chemistry, was
precentor, and Father Hoyt, and a
den of the faculty, was the main speaker.

Professor Lost, of the department
of English, delivered an interesting
royal speech. He spoke on Catholic
ism of the Church, mentioning some of the
east of the Church.

At the business meeting, it was de-

two sections, and the majority of

the members present

agreed to this sectionalizing of the club.
