CITY OF CAMBRIDGE VS. THE PEOPLE'S WISH

Once again we find it necessary to call attention to the dangers which are now more than ever to be feared in Cambridge. Anyone who is acquainted with the thoroughfare on which the Batten Kill Square is located will know that this square is a danger to many persons. There has never been any one who has lived there or who has been within the square that is not familiar with the dangers which are present. There is a rapidly increasing number of persons who are passing through the square without any thought of the dangers which are present. It is important that all persons who are passing through this square should be informed of the dangers which are present.

These inconveniences, however, are slight as compared with the consequences. The city of Cambridge offers for the deplorable state of affairs that exist there. We wonder if the city would refuse to put a fire, or send a fireman who would be in charge of a fireman's crew, and simply because it is not a matter of life and death, it is not a matter of life and death. The city of Cambridge offers for the deplorable state of affairs that exist there. We wonder if the city would put a fire, or send a fireman who would be in charge of a fireman's crew, and simply because it is not a matter of life and death, it is not a matter of life and death. The city of Cambridge offers for the deplorable state of affairs that exist there. We wonder if the city would put a fire, or send a fireman who would be in charge of a fireman's crew, and simply because it is not a matter of life and death, it is not a matter of life and death. The city of Cambridge offers for the deplorable state of affairs that exist there. We wonder if the city would put a fire, or send a fireman who would be in charge of a fireman's crew, and simply because it is not a matter of life and death, it is not a matter of life and death.

The city of Cambridge must act. The people concerned with the dangers which are present, and if the city does not act, regardless of the irrevocable reason, which only a politician's mind is able to form, that the street is not "accepted." Otherwise the next election may show that those responsible are also not "accepted."
