PROF. SEDGWICK ALWAYS FRIEND OF YOUNG MEN (Continued from page 1)

of Public Health of Harvard University, and one of the first to study Technology. His masterly judgment on fundamental problems of public health, his sound and always a source of inspiration to the students for whose benefit he labored long and hard. His enthusiasm was contagious and the admittance of his early years never known.

I count myself fortunate to have been a student of Prof. Sedgwick in the Wheeler Memorial last winter in both of his capacities, that of his old professor, Professor C. C. A. Winslow of Yale, on the one hand, and as a member of the Executive Committee of the St. Louis Medical College, on the other, and I have been present at the dinner given in his honor.

A. W. B.

PROF. SEDGWICK'S INTERESTS SUDDENLY (Continued from Page 2)

Hopkins, and Professor Martin then forward counselled him to abandon his work in the public health laboratory and to enter a more direct line of research. He became assistant in biology at the Johns Hopkins University, and when that institution was organized, he was elected professor of zoology.

He was a pioneer in the study of experimental embryology, and with his own hands he discovered and successfully bred the first new strain of the American potato. His work in this field was of great importance to agriculture, and the breed of potatoes which he originated is still grown in many parts of the world.

He was also a member of the executive committee of the American Association for the Advancement of Science, and a member of the executive committee of the American Public Health Association, and the Rockefeller Foundation.

Mrs. Fox was bragging one day number of the large number of her cub's.

"How many cubs do you bring into the world at one time?" she asked the LIONESS.

"Only ONE," replied the Lioness—"but it's a LION."

MURAD COST 20 CENTS for a BOX of 10—but they're MURADS!

MURAD was lower priced if we left out all or part of the 100% Turkish tobaccos of the purest and best varieties grown—or if we substituted inferior grades of Turkish tobacco.

But they wouldn't be MURADS—they'd only be Foxes!

"Judge for yourself!—"
