A. A. ANNOUNCES AWARDS FOR THE PAST YEAR

(Continued from Page 1)

Tuttle, F. S. Lamoreux, L. R. Comfort, and Malcolm Graham Jr.

Acting on account of a recommendation of the executive committee to the effect that there was some incentive necessary for men to try for second terms, the A. A. appointed a committee to investigate insignia awards for men not making points in any meet but who compete as a member of an institute team and special awards for freshman doing exceptional work. This committee will report at the next meeting of the association.

Settle Congestion on Tech Field

Due to a request of H. P. Kurzman '23, captain of this year's soccer team, the executive committee will appoint a committee to investigate the use of Tech Field by both soccer and football teams. The report of this committee is to be rendered at the next meeting.

It was suggested that there be a banquet given near the end of every year for all men interested in Institute athletics. At this banquet all the awards for the year would be given out and the officers for the following year would take charge of their respective organizations. This action was explained by the fact that the awards are at present mailed to the men and this is in no wise as complimentary as if they were given to the men in person.

W. W. Bainbridge '22 and J. C. Willson '23 recommended that W. S. Humphrey '21 be given an additional "T" for his performance in Institute athletics. He already has been recommended for one on account of his services. The action for the one on services is tabled until the end of the year.

Nominations of officers for the next year in the A. A. will be made at the next meeting which will be held April 4. Mr. Rice, an amateur of Newton has been obtained to coach the tennis team this year. He will receive no remuneration for his services and will maintain his amateur standing. The next meeting of the Advisory Council will be April 13.

VARSAITY CREW MAKES SEASON'S DEBUT MONDAY

CREW TAKES WATER

Will Ship from B. A. A. Boat House Next Monday

Howard B. Keppel Jr., last year's stroke of the Annapolis eight which carried off first honors in the Olympics, will act as first assistant coach of Technology's crews, which, owing to a delay in the completion of arrangements, will not take their first spin on the Charles until Monday.

It was not until shortly before Tuesday's crew meeting that Manager Larry Davis found that, due to some trouble over the use of a boat house, the oarsmen would have to delay making their debut upon the river. However, from present indications, the watermen are assured of being able to ship from the B. A. A. boat house, starting Monday next.

The crews will be under the tutelage of Coach Pat Manning and Assistant Coach Howard Keppel. The latter, who stroked the victorious Annapolis combination last year, ranks among the best college rowers in the country. He is at present a student at the Institute, but he will be unable to participate in crew work as an oarsman this year.

First Cut Made

Of the 175 men who signed up for crew when training began, but 125 will continue on the squad, the remainder having been dropped in the first cut which was based upon the way in which the men kept training. The final cut will probably reduce this number to 65, including freshmen. A list of the names of the men retained thus far, and the times at which they are to report at the boat house will be posted tomorrow. A small number of men, who up to this time have been engaged in other activities, have been working out on the rowing machines this week and will start out on the river with the rest of the squad.

Arrangements for starting practice for the interfraternity regatta are well under way. Manager Davis stated that all entries for the event, which is open to all the fraternities at the Institute, must be in by next Tuesday. The regatta will be held on April 30 on the Charles River Basin.

STUDENT COMPLETELY RECOVERS FROM BURNS

J. B. McCue '23 who was badly burned about the face and eyes by an acid explosion several weeks ago, has completely recovered and is now able to attend classes. The doctors who attended him while he was in the hospital say that, while they hoped for the best, they did not expect him to completely recover inasmuch as the burns were of a very serious nature. McCue, however, will suffer no injury to his sight from the accident.

WILL OPEN COMPETITION FOR WALKER COMMITTEE

Sophomores and Freshmen Enter Two Week Campaign

The Walker Memorial Committee opened a competition for membership on the committee last Monday. The contest is open to all members of the classes of 1923 and 1924 who desire to compete. These men are asked to report in the Walker library this afternoon and the rules of the competition will be explained to them. This is the only way that men may obtain positions on this activity. The competition will last two weeks.

DIRECTOR OF FOREIGN AND DOMESTIC COMMERCE SPEAKS

"Foreign Trade and Ocean Ports and Terminals" will be the subject of an illustrated lecture to be delivered by Roy S. MacElwee, Ph. D., before a joint meeting of the Civil Engineering Society and Corporation XV on Tuesday, March 29. The meeting will be held in room 10-250 at 5 o'clock.

Mr. MacElwee is Director of Foreign and Domestic Commerce at Washington, D. C. He formerly represented the Eastman Kodak Company, the Otis Elevator Company and the International Harvester Company in Europe, and was educated in both Continental and American Colleges. He is the author of many books on Foreign Trade and Ocean ports and has specialized on the subject of ports and terminals. He is also a member of the faculty of Georgetown University, and is a very able speaker. At the Boston Export Roundtable's Convention which is being held this week end, he is a guest of honor and speaker.

LEAVE FOR EXETER

Picked Team of Gymnasts to Give Exhibition There

The manager of the Gym Team, J. C. Willson '23, has received a request to carry a team up to Exeter Academy, Exeter, N. H., tomorrow. He has accepted and the men are leaving this afternoon. The body will be composed of picked members of the Technology and Harvard gym teams.

H. E. McKinstry '20, a member of last year's gym team, and an intercollegiate champion for several years, will perform on the parallels. Art Pew will do his usual snaky feats with the Indian clubs, while Nesmith Thompson will hang gracefully from the rings. M. H. Bailey, a member of the Harvard gym team this year, will perform on the horizontals, horse, and rings; K. Campbell, captain of the Harvard gym team, was asked to accompany the athletes going to Exeter, but declined. Ralph Wood will probably do his flip flops on the mat. And the old reliable Watts Humphrey will place on the rings and the parallels.

The team is a selected one and in no wise represents the Institute. The request was made to Willson personally and he has charge of the trip.

CLOSE LIST OF TRACK CANDIDATES APRIL 2

All candidates who are thinking of coming out for the track team had better do so before April 2 or else they will not be considered, according to Coach Frank Kanaly. This is a new departure in track circles, but it is thought that by so closing the entry list those men who are sincere about coming out will do so in time to get as much training as possible. In the past, men who were counted on as entries in events did not show up at all thereby leaving the team in the lurch.

With the advent of favorable weather the track team is starting training for the outdoor season, particularly the Penn Relays which are to be held in Philadelphia on April 29 and 30. A two mile relay team will be entered along with the three best individual performers on the team. Time trials for the relay will be held on Saturday April 16, only one trial to be made.

On Saturday April 23, the annual spring interclass track meet will be run off on Tech Field. Entries for this will be received about two weeks before the scheduled date. The usual cups and medals are to be awarded the winners.

T. A. C. COMMITTEE WILL GIVE DANCE FOR BENEFIT OF TRACK

The Technology Athletic Club has recently decided to raise more funds to be used for Institute athletics. The money is to be given to all athletics, but more especially, at this time, it will be used to outfit the track team. In past years the men on this team have been compelled to purchase all of their supplies such as jerseys, running pants, shoes, etc. The money raised by this committee will be expended for the purchase of such supplies for the men, thus relieving them, in part, of this task.

The committee is planning to run several dances throughout the present term. The first of these will be a tea dance, Saturday, April 2. Further announcements will be made concerning these dances from time to time as the plans of the committee materialize.

MANY HEAR MUSICALE GIVEN BY NEW T. C. A. SOCIAL DEPT.

Musicians Congratulated on Their Presentation

Close to 400 Faculty and students of the Institute with friends were entertained at the recital given by Mr. C. E. Griffith, Dartmouth '09 and Mrs. Wallace M. Ross of Brookline in room 10-250 yesterday afternoon at 4 o'clock. A conservative estimate placed the attendance at 375 but a more liberal one stated that 400 were present. The program lasted till about 5:30 o'clock, when congratulations were showered upon Mr. Griffith and Mrs. Ross, on the manner in which they had presented their varied program.

The affair was the first to be given by the new Social Department of the Technology Christian Association. Through co-operation with a Boston Piano firm, a Steinert piano was brought to the Institute for the occasion. The attendance was about evenly divided, there being about 200 members of the Faculty with friends, and about 200 students.

TRACK OUTLOOK BRIGHT

150 Men Sign Up for Varsity and Freshman Teams

The track team, with 150 men including many veterans, started outdoor training with a rush this week. The men expressed whole-hearted enthusiasm when Coach Kanaly met them to lay down training rules and outline the plans of the season. The track itself is in excellent condition for this time of the year, and the outlook for a successful season is probably the brightest that it has been since Coach Kanaly took over the reins.

Season Opens April 23

The season opens Saturday, April 23, with the Annual Inter-class Meet. The two-mile relay team and McMahon in the two-mile will be Technology's entries in the Penn Track Carnival on April 29 and 30. The following Saturday, there is a dual meet with Harvard and, on May 14, Dartmouth comes to Tech Field. The date set for the New England Intercollegiate is May 21 and the Intercollegiate at the Harvard Stadium are slated for May 27 and 28.

Chances Good For Two-Mile

McMahon, who will run in the international two-mile run at the Penn games, has a strong field against him but should make a good account of himself. DeVys, the crack Frenchman, Gordon Nightingale, winner of the three-mile feature race last year, and Walter Higgins, who won the Baxter mile in New York in 4m 21s indoors, are already entered for this race. Earlier in the season, Coach Kanaly had practically decided not to send his crack distance man to Penn, thinking that the meet was too early in the season. McMahon was eager to go, however, and it was decided that, with careful training, he would be in the pink of condition for the test. The two-mile is more to the Tech runner's liking so that he will give his field a stiff race at any rate.

Many Veterans in Line-Up

However, McMahon is not the only veteran out in togs. In the 100 and the 220, Ted Bossert, Frank Howlett, Ted Spitz, John Poole, and James Downey will be available. The middle distance squad, with Oliver Bards, Yardley Chittick, Ted Spitz, and A. D. Smith, is the most promising of the lot. Carol Stone, W. B. Gurney, Garvin Bawden, John Hennessey, and Charles Snow should show up well in the half mile. E. E. Sonborn, whose injured leg handicapped him during the cross-country season, looks for points in the mile and has T. H. Gill and R. P. Bolster to help him out. McMahon, of course, is the best man in the two-mile but there is promising material in R. E. Hendrie and A. L. Flanders. George Dandrow, of last year's Olympic team, is the outstanding man in the field events. He will throw the 56-pound weight and put the shot, where he will be helped by Dexter and Blather. E. A. Merrill, W. D. Tinkham, and W. B. Greenough are doing well in the high jump. With such a large number of veterans and a wealth of new material, Technology should turn out an unusually successful team this spring.

ANNOUNCE PLANS FOR SENIOR WEEK

(Continued from page 1)

may call the members of the class together soon for a meeting at which the personal touch can be given in making the men acquainted with Senior Week and how it will be carried out. The success or failure of the affair depends in large measure on the attendance at the different events and Smithwick feels that if the class marshalls tell the men who elected them to their positions about Senior Week at a class meeting interest will be awakened in the thing immediately.

Class Day Meeting this Afternoon

All members of the class day committee have been asked to come to this afternoon's meeting prepared to unload some ideas on the heads of the men who are chosen committee chairmen, ideas that will be for the various chairmen and their committees to work out. It is hoped that an informative discussion will result at the meeting when the suggestions are offered. Although great care was taken in the selection by the nominating committee of the various sub-committees, they well realize that a man chosen for the class day committee, for example, might have some very good ideas for the picnic and he will be given a chance to rid himself of these this afternoon to the edification of the men who run the picnic.
