

CAPT. BUTTLER GOES PACIFIC COAST SATURDAY

HOLD STEDMAN-HOAR TRACK CLASSIC FOR PURSE TODAY

Bill Stedman will challenge Mike Hoar for his laurels in the 50 yard dash this afternoon at 5 o'clock on the cinder track, in a scratch race. Coach Boutelier is putting up a purse of \$5.00 and Billy MacMahon will hold the pistol.

Mike's opinion on the contest is as follows: "I am not aiming to lick the world, but if Stedman wins that race he is a wonder." No admission will be charged.

DRIVE FOR UNIFORMS

Walker Committee Gives Tea Dance For Track

A tea dance, to raise funds for the purchase of uniforms for the track team will be given by the Walker Memorial Committee in the Walker on the afternoon of Saturday April 9, from three to six o'clock.

Elaborate plans have been made to make the benefit dance for the track team a success. It is expected and hoped that 180 couples will be present so that the affair may be financially as well as socially complete. Bert Loew and his eight syncopating musicians will be here to attend to the jazz of the affair while Mrs. Bigelow of the Students' Hospitality Committee who will be assisted by six other ladies will serve the tea.

The tickets for the dance, which are \$1.50 per couple are on sale at the Walker cigar stand or may be obtained from members of the dance committee.

As a large sum is needed to outfit the team, and as the success and interest shown in this dance will be a criterion for other similar attempts, a large turnout is looked for.

The committee in charge of the dance is composed of W. G. Loesch '22, H. J. Horn '22 and T. H. Gill '22.

WRESTLING CAPTAIN ENTERS NATIONAL CHAMPIONSHIPS

Buttler to Represent New England at Los Angeles

The management of the N. E. A. A. U. championships, has decided to send George Buttler '22, winner of the 145 lb. wrestling event, to the national contests in Los Angeles. Buttler captained the Technology wrestlers this year and was a big factor in putting the Institute on top. A member of the American Olympic team, Johnson, will also go west. The nationals will be run off on April 8 and 9.

This is the third year of leadership for Buttler, since he carried off the 145 lb. New England belt last winter and the winter before. In winning this year the Engineer's captain conquered an old rival, Skilton, who put Buttler's shoulders down eight or nine years ago. Buttler started the season with an enviable reputation and suffered but one defeat, in the Brown meet, the first in three years. George wrestled very little before coming to Technology and developed wonderfully under Bridson Greene and Cyclone Burns. His performance in the Harvard meet was especially remarkable. In an overtime period his opponent clamped on a scissors from which he escaped and won the bout.

Before Buttler and Johnson can represent New England at Los Angeles, money must be raised for their train fare. William Bainbridge, manager of wrestling, is in charge of all contributions.

T. C. A. OFFICERS FOR NEXT YEAR ELECTED

(Continued from page 1)

team, the Glee Club and Quartette. During his Sophomore year at the Institute he played on the class football and basketball teams, and was on the second Varsity Crew. He was also a member of the Institute Committee, Glee Club, Technique Electoral Committee, Assistant Director of Freshman Advisors, and was a delegate to the Student Volunteer Conference at Des Moines, Iowa. During Johnson's Junior year at the Institute he was on the Junior Prom and Hoover Dinner Committees captain of the

ABBOTT L. JOHNSON '22

golf team, and treasurer of the Interfraternity Conference. He was also made Director of Freshman Advisors. He is a member of Beta Theta Pi.

Potter is the Director of Room Registry of the T. C. A., was a member of the Technique Junior Board during his first two years at the Institute, and associate business manager of Technique, 1922.

Shumacker is Chairman of the Industrial Service Dept. of the T. C. A. and was a member of the Electoral Committee of Technique 1922.

There were 500 votes cast in the election which includes the vote of Rogers building.

CHIPPIE GAW WILL COACH CRIMSON BASEBALL TEAM

Harvard has secured the services of Chippie Gaw as coach of the second baseball team. He has started work already although he has not had much chance as yet to get the team whipped into shape. That he will whip them into class A form, ready to give the varsity a good scrap, will be right in line with Gaw's past work. Coaching the Beaver skaters this winter he put out a creditable hockey team, and last year he coached the Pomfret School team through a victorious season.

CORPORATION ELECTS ERNEST FOX NICHOLS

(Continued from page 1)

The sensitiveness of this radiometer may be judged from the fact that it is able to detect the heat of a candle at a distance of 16 miles.

Was Former President of Dartmouth
 He married Katherine Williams West of Hamilton, N. Y., June 16, 1894. They have one daughter who recently graduated from Smith College.

He has served in the following positions in various colleges of the country: He was professor of physics at Colgate University, 1892-1898, at Dartmouth College 1898-1903. He was professor of experimental physics at Columbia, 1903-1909. He was president of Dartmouth College 1909-1916, professor of physics at Yale, 1916-1920, and was Research Associate Carnegie Institution at Washington, D. C. 1907-1909. As stated above, he was with the Bureau of Ordnance of the Navy Department from 1917-1919.

Innumerable Honorary Degrees

Dr. Nichols was born at Leavenworth, Kansas, June 1, 1869. He is the son of S. Alonzo Curtis Nichols and Sophronia (Fox) Nichols. He received a bachelor of science from the Kansas Agricultural College in 1888, a master of science from Cornell in 1893, and a doctor of science from Cornell in 1897. Further graduate work which he took was as a graduate student in physics at Cornell, 1889-1892, at the University of Berlin, 1894-1895, and at Cambridge University, 1904-1905. His honorary degrees are a doctor of science from Dartmouth in 1903, and doctor of laws from Colgate, Clark, and Wesleyan in 1909; from the Universities of Vermont and Pittsburg in 1912; from Denison in 1914; and from Dartmouth in 1916.

Is Active In Scientific Societies

Dr. Nichols received the Rumford medal of the American Academy of Arts and Sciences in 1905. He is a member of the following societies: The National Academy of Sciences, the American Philosophic Society, the American Physical Society, the American Astronomical Society, and the Washington Academy of Science. He is a fellow of the American Academy of Arts and Sciences. He was vice-president of the American Astronomical Society in 1905.

Has Written Scientific Literature

Besides being a worker in science, he has contributed much to scientific literature. He collaborates with the Astrophysical Journal. He has contributed many papers to American scientific journals and also to foreign publications on radiation and the other subjects on which he has been active.

FOUR SCORE MEN NOW DON ROWING UNIFORMS DAILY

Two Eights on River Every Day—Make Cut Soon

Over 80 candidates have been working out daily on the Charles thus far this week. The completion of the raft, which has been torn up and littered with lumber, makes it easier to get the shells out, and the use of the third eight, which will be put on the river this afternoon for the first time this year will still further facilitate the handling of the men at the boat house.

The fact that some of the men have not reported at the times to which they have been assigned, has made it impossible to send the crews out according to schedule. However, with the reduction in the number of men which will be brought about by the cut to be made at the end of the week, the assistant managers hope to be able to get the men out at the time decided upon.

The cold weather experienced the last few days has retarded the conditioning of the men; in fact the oarsmen feel that pulling on a sweep is hardly a pleasure when it is so cold that the slip is coated with ice. The launch which is to be used by Pat Manning and his assistant has already been shipped and is expected to be ready for use the first part of next week.

COLD FORCES SUSPENSION OF FROSH BASEBALL WORK

Because of the intense cold snap of the last few days the freshman baseball team was unable to get in any practice. A short session was held Monday, but not much was accomplished.

Very easy training rules are being given the men, according to Coach Sherman, as he believes that a man can play best if he has been leading a normal life. Not even smoking is taboo. The only request that he has made of the players is that they do not read anything unless in connection with their studies, as baseball requires a keen eye. A cut will be made Monday and with suitable weather, training in earnest should soon start.

APRIL T. E. N. INCLUDES ACCOUNT OF DR. NICHOLS

Publication Out Wednesday Also Discusses Co-eds

The biography of Ernest Fox Nichols, newly elected president of the Institute will be the feature article of the Tech Engineering News for April, which will be on sale in the main lobby next Wednesday morning. The election of Dr. Nichols as the president of the Institute led the management of the publication to change their plans at the last moment and to include the account of Dr. Nichols.

An article which is concerned with the evolutionary theory is entitled "Man's Upward Climb". An editorial on our Co-eds will possibly arouse considerable interest. Another of a series of papers deals with the "Manufacture of Wrought Iron Pipe". "Co-operative Engineering" and "Construction of Concrete Highways" finishes the list.
