The Tech Engineering News, Vol. 2
Page Four

T. E. N. NEEDS SOLICITORS
The Tech Engineering News needs the aid of its advertising staff to solicit the betterment of the magazine. Opportunities for manufacturing concerns of New England states are abundant and generally the opportunities for men in the field of engineering. In this connection, the monthly report at the Tech Engineering News shows that there are 427,488 people between the ages of 18 and 60, and only 10,825 of them are employed in the engineering field. The need for additional engineers is evident, and the magazine is prepared to help in this matter.

T.A.C. ELEOTS SOON

The formation of an International Technical Association (T.A.C.) was proposed at the recent meeting of the Association. The proposal was adopted by a vote of 12 to 1, with 20 members present. The Association will hold its first meeting on May 5th, and will then proceed to elect its officers. The Association will consist of four sections: engineering, physics, chemistry, and mathematics. The election will be held on May 5th, and the officers will hold their first meeting on May 6th.
