A request that all men connected with rowing be able to swim was taken up at once and the consensus of opinion was that in view of the real danger, both to the rowers and to the Institute, all men should be required to pass a test or give evidence that they could take care of themselves in the water. This was voted, and it was suggested that if it was financially possible the swimming requirement be extended soon to cover all men in the Institute.

"Stupe" Clark was selected to captain the heavy hitters of Runkle. And Larcom Randall was elected to captain the heavy hitters of Runkle. Holman has not shown her usual amount of activity and selected a captain for her team.

The schedule as tentatively arranged has games scheduled for every Tuesday and Thursday between April 21 and May 17. It is made up as follows:

Practice Game Pleases Coach—Play
First Game Saturday

The freshman baseball nine met competition for the first time Saturday, when they played the Harvard Dental School in a practice game. The score stood 2-2 at the last half of the ninth, when Jupiter Pluvius intervened with an April shower. Coach Sherman was quite pleased with the showing the men made. He is consequently optimistic about the season, which opens Saturday.

MYSTERIES OF PARIS AIR RAIDS DISCLOSED

(Continued from Page 1)

ference in the Peace and which are now in force.

"The Bombardment of Paris," a lecture by Capt. Nester of the U. S. Air Service, will be well illustrated by slides of a spectacular nature. In it, Capt. Nester will describe how the German bombers glided noiselessly over Paris, dropped their bombs, and took their chance in getting through the heavy barrage and the chain entanglements held high in the air by the "Blimps," as well as how the lighter planes came over Paris and dropped grenades. The bombardment of Paris by the long range gun known as "Big Bertha" will also be described by the speaker. Capt. Nester will also describe and show slides of the damage done by some of the bombs and disclose some previously undisclosed facts concerning the fortification of Paris and the conduct of some of the German drives.

TEA DANCE BENEFITED RUNNERS

The success of the tea dance Saturday, given for the benefit of the track team, has convinced the members of the T. A. C. dance committee that they should continue to raise funds for athletics by giving dances. More than 200 couples attended the affair. The music furnished by Lowe's orchestra was excellent.

Mrs. Joseph Lipka, Mrs. E. F. Langley, Mrs. Allen Abrams, Mrs. C. S. Venable, and Mrs. R. P. Bigelow, ladies of the hospitality committee, poured tea and received, alternating, some receiving while others poured. The refreshments were served in the grill room from 3:30 until 5:30 o'clock.

The dance committee has not made any definite plans for the future dances which they will run, but will decide on this as the opportunity presents itself. Dates for the coming dances will be announced as soon as possible.

NEARLY 100 SIGN UP FOR MILITARY EXAMINATIONS

A military career evidently appeals to Technology men. Nearly 100 men have sent in applications for the officers' examinations given at the Military Science Department. A very large proportion of these indicated a preference for the Ordnance and Chemical Warfare Service Departments.

SCHOLARSHIPS ARE LIMITED

It has been decided by the Faculty Committee that scholarships are hereafter to be given only to those who have satisfactorily completed a year's work at the Institute. This has previously been the policy but no definite ruling had been made. At the present time Registrar Humphreys states that all the money available for scholarships is in use and there doesn't seem to be much more in prospect.
