COACH RESEATS MEN ON VARSITY EIGHT

Various Combinations of Varsity Oarsmen Tried By Manning—Final Arrangement Is Still Uncertain

HOW HAVE USE OF LAUNCH

Varsity oarsmen are pulling with doubled efforts on their sweeps now that Coach Pat Manning accompanies them daily in a motor boat. They work out on the Charles. The mentor of the Cardinal and Gray crews has been shifting the men about in the first eight, and will continue to do so until he is able to pick the winning combination.

The first shake-up of the season came on Wednesday, when Jakobson and Woodruff were replaced on the first Varsity by Nowell and Valentine. This change necessitated the shifting of most of the other men in the boat in order to get the proper distribution of weight. Nowell went for Woodruff at five. Bryden was moved from his seat at six up to Jakobson's old place at four. This necessitated the shifting of Molinar to six, while he was replaced at his former position of stroke by Don Morse; Valentine filled in the breach thus created next to bow.

The crew as it shipped from the boat house on Wednesday was seated as follows: bow, Richards; two,

ASSOCIATION MEETS

St. Laurent Speaks to Members Of Press Association

At the first meeting of the Technology Press Association, held last Tuesday afternoon in Walker library, R. A. St. Laurent '21 spoke, setting forth the object of the association. He outlined the work of the four branches which are to send out publicity through the channels of magazines and newspapers, and then went on to say that the English department of the Institute was taking a great interest in the new organization, and that the Administrative Committee of the Faculty was strongly in favor of it. He mentioned the fact that several members of the English department were willing to give credit in the regular courses for work done for the Press Association. "Ike" Litchfield, whose assistance in Institute affairs has proved of great value in the past, was to have addressed the meeting. As Mr. Litchfield recommended the Association last fall, his speech would probably have been of great interest, but he was unable to appear.

SPECIAL EDITION TOMORROW

For the Intercollegiate Conference now underway at the Institute, THE TECH will issue a special edition tomorrow morning, this was also done at the time the delegation from Georgia Tech visited the Institute.

ELECTIONS TO T. A. C. OFFICES COME MONDAY

All Members Are Eligible to Vote—Ballots to be Cast in Refrigeration Laboratory Throughout the Day

MEN TAKE OFFICES IN FALL

Approximately 1900 men, members of the T. A. C., are eligible to vote for the next year's officers at the election which will take place Monday from 9 to 5 o'clock in the refrigeration laboratory, room 3-115. The committee on nominations submits these names:

For president: C. E. Brokaw '22, E. E. G. C. Clifford '22, L. B. Davis '22.

For vice-president: Broderick Haskell Jr. '22, D. R. Linsley '22, E. J. Thimme '22, J. C. Willson '22.

For secretary: F. D. Clement '23, M. S. McGhie '22, A. E. Meling '22, W. W. Quarles '22.

The present officers will remain active for the remainder of the year; however, the voting is done at this time according to the usual custom. The T. A. C. has been of great service to the team managers by way of scheduling and financing the various meets, and it is felt that next year's activities will be even greater than the present have been. The president upon his election becomes a member, ex-officio, of the M.I.T.A.A.

COSMOPOLITAN CLUB WILL NOMINATE NEW OFFICERS

Independent Nominations May Be Made By Any Ten Members.

A meeting of the entertainment committee of the Cosmopolitan Club is called for next Saturday afternoon at 1.45 o'clock. The meeting will be held in room 2-190, instead of Walker. All members of the entertainment committee are urged to be present. The meeting is called to nominate the officers of the club for next year. Ballots will be sent out to members about May 1. The Hare system of balloting will be used.

The big Cosmopolitan Club supper is to take place on Saturday, April 23, at 6 o'clock in Walker. All foreign students are cordially invited. Mr. Ralph Smith, from the School of Fine Arts and Decorative Design, will draw a number of interesting cartoons and sketches. Mr. T. H. Chin, who played at the Dorm smoker, will entertain on the Chinese flute. The committee also hopes to obtain the services of Mr. G. A. Barbari and his cornet.

Women, Women Everywhere And Not A One'll Dance

Oooo!—

The Conference didn't want em, but they almost got here anyhow. Next year they say they're coming committee or no committee!

You see, the committee felt that the presence of a fair contingent at the Conference might put a stiff collar on some of the discussions, and hence some points which should be brought out might be left in the same hazy condition that they might have been before the Conference. Therefore the Conference didn't send invitations to Smith, Vassar or Wellesley.

By mistake the invitation to Indiana University was delivered to the Women's Self-Government Association. Of course they replied saying that they should love to come, which caused "Bob" Barker, chairman of the Conference to wish for support from pre-prohibition courses, until he read the end of the letter in which they said that it would be impossible for them to attend, much as they would enjoy it.

So the situation is saved for the present, but "Bob" doesn't know what he'll have to do next year to avoid 'em, for they say that they're coming then, sure-fire.

CONFERENCE REGISTRATION OPENS AT 9 O'CLOCK TODAY

Letters from Colleges Augur Success of Assembly —First General Meeting Will Be Held in Room 10-250 At 1.30 O'clock

FORMAL DANCE IN WALKER TONIGHT

Conference delegates are expected this morning and will be received by the Technology committee at Walker Memorial. After the visitors have registered they will be taken to the fraternity houses for lunch before their first meeting. Those arriving early will be taken care of by the committee until registration hour. W. R. Barker, chairman of the committee, states that all arrangements have been made to insure every possible convenience for the men. An attempt has been made, as far as possible, to locate the men in the houses of their own fraternity.

Leonard Metcalf, President of the Alumni Council of the Institute, wrote to the heads of many of the colleges and received many encouraging replies in favor of the conference. The Dean of Pennsylvania State College wrote that he had long wished for such a gathering of the scattered institutions for the exchange of ideas and feels that the

ACTIVITIES RECORDED

Prepared for Reference for Intercollegiate Conference.

A complete record of all Technology activities has been prepared by a class in English 33. This record is to be used as a reference book during the Intercollegiate Conference so that any question concerning Technology activities which may arise can be answered without delay. After the conference the record will be turned over to the Institute Committee which will under all probability have the record reviewed by the Activity Committee, after which it will be placed on file in the library of Walker for general reference.

The class preparing the record was under the supervision of Prof. Pearson and Mr. Prescott, both of the English department. J. C. Patty '22, acted as chairman of the class. The others of the class were divided into four committees: Student Government, D. D. Spoor '22, chairman; Athletics, L. B. Laird '22, chairman; Publications, M. M. Bauer, '21 chairman; Dramatics, W. C. Gray, '23 chairman.

(Continued on Page 4)

CONFERENCE CALENDAR

- FRIDAY, APRIL 15
- 9.00-12.00—Registration main lobby, Walker
 - 1.30—Meeting of all delegates in 10-250, welcome address and program outlined.
 - 2.00-5.00—Conferences in Walker
 - 8.30—Formal dance main hall, Walker
- SATURDAY, APRIL 16
- 9.00-12.30—Conferences in Walker
 - 12.30-1.30—Publications Lunch, Faculty and Alumni room
 - 12.30-1.30—Lunch
 - 1.30-4.00—Conferences in Walker
 - 4.00—General meeting for summarized report
 - 7.30—Formal banquet, main hall Walker

Conference should be an annual affair. This probably will be one of the topics for discussion at the meeting. The Dean of the students at Yale, Burton P. Twitchell, intends accompanying the delegates from that university. The Acting President of Amherst wrote in commendation of the plan and expressed his satisfaction that Amherst was sending delegates.

Few Colleges Omitted

Some of the colleges that happened to be omitted from the list of invitations have written to the committee

(Continued on page 3)

PSYCHOLOGICAL TESTS REMEDY FOR FLUNKS

Should psychological tests be given students who are on probation? This is a question students in the College of Pharmacy at the University of Michigan are debating now.

Professor P. O. Badger of New York University where the action at Michigan is being agitated, gives the following opinion.

"It seems to me that if a man fails his examination for one reason or another and feels that he could have passed it under other conditions—if he has the opportunity to take a psychological test and passes it—well, then, his excuse was justified; if on the other hand, he fails the mental test, ten to one he would have failed his specific examination in any case."

On the other hand, other professors have been just as emphatic in the opinion that "Psychological tests are all foolishness."

In view of 8400 F's at \$5.00 each, this method might prove of benefit at the Institute.

WHO'S WHO at Technology

- The Junior Class officers for 1921-1922 are:
- President: Chester C. Taylor, 844 Beacon St., Suite 23, Boston, Tel. B. B. 51419.
 - Vice-President: Robert P. Shaw, 355 Mass. Ave., Suite 1, Cambridge.
 - Secretary: James H. Evans, 844 Beacon St., Suite 23, Boston, Tel. B. B. 51419.
 - Treasurer: George H. Rowen, 44 Rockview St., Jamaica Plain, Tel. Jam. 2376-M.
- Institute Committee: Daniel C. Sayre, 532 Beacon St., Boston, Tel. B. B. 54057; Arthur J. Westcott, 122 St. Botolph St., Boston, Tel. Copley 1242-W.
- Executive Committee: Harold J. Flanagan, 122 St. Botolph St., Boston, Tel. Copley 1242-W; Palmer C. Putnam, 428 Charles River Road, Cambridge, Tel. Cam. 5667.

CALENDAR

- Friday, April 15
- 5:00—Bible Discussion Group, Room 2-282.
 - 6:30—Federal Board Club, Faculty Dining Room.
- Saturday, April 16
- Intercollegiate Conference.
- Monday, April 18
- 6:00—Faculty Club Dinner, north hall, Walker.
 - 8:00—Faculty Club Dance, main hall, Walker.
- Wednesday, April 20
- 5:00—Pi Delta Epsilon, Faculty and Alumni room, Walker.
 - 6:30—Junior Freshman Class Banquet, Faculty dining room.
 - 7:30—Electrical Engineering Society smoker, north hall, Walker.
 - 7:30—Mining Engineering Society smoker, north hall, Walker.
- Thursday, April 21
- 7:00—Mechanical Engineering Society smoker, main hall, Walker.
- Friday, April 22
- 8:00—Dorm Dance, main hall, Walker.
- Saturday, April 23
- 6:00—Cosmopolitan Club dinner, north hall, Walker.
 - 6:00—1914 Class banquet, faculty dining room.

STUDENTS CROWD TO HEAR EDDY'S THREE MESSAGES

PROF. LIPKA OBTAINS LEAVE TO STUDY MATH

Sails June 7 for Europe—To Conduct Research with Tullio Levi-Civita at University of Rome

WILL WORK WITH EINSTEIN

Professor Joseph Lipka of the department of mathematics has obtained a leave of absence for the scholastic year of 1921-1922. He, accompanied by Mrs. Lipka, will spend time in Europe studying mathematics and mathematical physics. Mr. Lipka plans to study Italian civilization and art.

They will sail from New York June 7, bound for Havre, France. From there they will journey to Zurich, Switzerland. The professor will pursue a course of study there, at the Zurich Polytechnic Institute, spending the months of June and July August and September Mr. and Mrs. Lipka will spend in France and Holland.

Dr. Einstein has been in communication with Professor Lipka and has written him that he will be glad to get into touch with the professor while he is in Europe. As the doctor has accepted the chair of science at the University of Leyden and will give a six weeks' course of lectures at the university yearly, Professor Lipka intends to take this course under him. Also he will probably study with the doctor for some time during his stay in Holland.

From September until May, Professor and Mrs. Lipka will remain at Rome. She will pursue her studies in Italy and he will work with Professor Tullio Levi-Civita of the University of Rome. Professor Civita is one of the most prominent of Italian mathematicians and mathematical physicists and Professor Lipka's association with him will be in the nature of conducting research in the field of mathematics and mathematical physics.

They will return to the U. S. in June for the professor to resume his duties at the Institute for the fall term of 1922.

Speaks On Industrial Situation Of World, Campus Problems, And Solution of Them By Applied Religion

FORMS GROUP TO STUDY LABOR

For three afternoons, Sherwood Eddy addressed large gatherings of students in the main hall of Walker. He delivered a series of lectures on the problems facing the students of today, the industrial situation, the moral situation, and the spiritual solution of these two problems. The crowds were nothing short of an ovation for his great talks. The students seemed to realize the opportunity and did not neglect to take advantage of it. He covered the ground in his talks thoroughly, and not in any wise in the spectacular Billy Sunday style, so common to speakers in his class. He has left a lasting impression and message with those who heard him.

The first of his addresses was devoted to the industrial problem now facing the world and a discussion of how it is to be met. "We are entering a crisis," says Mr. Eddy, "in the affairs of the world, and a vast concentration of wealth in the hands of a few." "We have political democracy side by side with industrial autocracy," he continues. Mr. Eddy sees no hope of paper solution of these difficulties.

In closing his talk, Mr. Eddy outlined six principles that to his mind would solve the problem, personality, brotherhood, liberty, justice, responsibility, and love. Mr. Eddy was introduced at this first meeting by Dean Burton, who emphasized his belief that the men of Technology need such talks to set them thinking and develop that side of their nature that does not come in text books.

Deals With Morality

Mr. Eddy's second address, delivered on Wednesday afternoon before even a larger gathering than the day before, dealt with the moral problems of the student in college. These he took up in detail, showing how chickens of wrong doing always come home to roost. Gambling, drink, and other vices, according to Mr. Eddy, even if indulged in on a small scale always hurt the character of the man indulging in them and therefore should be left entirely
