

TIME TRIALS FOR TRACK WILL BE HELD TOMORROW

Time trials for the track team will be held tomorrow to determine what men will be sent to the annual Penn games which are to be held April 29 and 30. It is practically decided that Technology will be represented by a two-mile relay team and a medley relay team. In addition, Billy McMahon will compete in the International two-mile race and Dandrow will probably enter the hammer throw and the shot put. The showing put up by the team last Saturday in the handicap meet was very good and the interclass meet should show some fast races. Judging by the progress the Beavers have shown so far this season, it looks as though they would make a big mark in the track world this year.

Luke Walton is showing up very well in the pole vault and should be in fine shape for the first meet on April 23. Maurice Sheldon, who is Walton's biggest worry has had one of his fingers crushed and will be set back for several weeks.

COACH RESEATS MEN ON VARSITY EIGHT
(Continued from page 1)

Valentine; three. Driscoll; four. Bryden; five. Nowell; six. Molinar; seven. McCurdy; stroke. Morse, and coxswain. Davidson. Due to the fact that this arrangement put too much weight in the shell, Coach Manning sent the men out yesterday in a heavier boat.

Both arrangements of the crew, namely that which Manning tried out for the first time this week, and the order in which the men rowed last year were tried on both days.

The shifting of Valentine and Nowell to the Varsity eight, made it necessary to seat the J. V's as follows: bow. Lee; two. Borroughs; three. Evans; four. Sayre; five. Blood; six. Sherbrook; seven. Timme; stroke. Brill and cox., Miller.

Valentine and Nowell who rowed on the 1923 Field Day crew, both come from this district, the former hailing from Newton, and Jo Nowell being a New Bedford lad. E. J. Timme, who is at present rowing at number seven, is now considered as promising material for this is his first year at pulling on the sweeps.

BASEBALL BEGINS

Season Opens Tomorrow With Dean Academy

Simultaneously with the big leagues Technology opens its baseball season this week. Tomorrow the freshmen journey out to Franklin, where they will engage with Dean Academy. The final line-up of the team will be posted on the bulletin board today. Fourteen players, Manager Phelps and Coach Sherman, will make the trip.

Having practiced fully as much as the Technology men, Dean Academy will not make an easy opponent. After the game the frosh will elect their captain.

The Technology squad has been practising faithfully all this term, and it is by this game that the results may be judged. There is no dearth of pitchers. Lane, Kennet, and Canfield are all first string men, and four members of no mean ability are reporting daily. Sharkey is fast in his work in batting and covering second. Bates has the third bag clinched, as he is one of the mainstays of the team. Ferguson and Robertson are both excellent fielders. Unless something happens to Seddon, the team can count on him as catcher.

If Ayles recovers from his sore neck he will play shortstop, otherwise Robinson will fill that position. Chapin will cover first base, and Leon will right field.

The weak point is the batting. With few exceptions, the team is composed of poor hitters. The development of the defence has been given more attention than that of the offense, but by concentrating in the last couple of days, great strides are being made to remedy this fault.

George Dandrow has been consistently heaving the 16-pound hammer a matter of 155 feet. This is the distance he reached last spring and is remarkable throwing for so early in the season.

One hundred and eighty-one men are working out under Frank Kanaly this spring, a Technology record. Of this number 100 are varsity material, another 50 attest to the popularity of track with the freshman, while the remainder are out to benefit their health. Track makes a specialty of offering men outdoor exercise and not requiring competition from them in exchange.

Al Sullivan, Boston College's New England sprint champ, was raced to within a few inches of the tape last week by one of his team-mates, Clarence Flahive, another B. C. athlete, has been clearing 5 feet, 10 1/4 inches in the high jump, which slightly shades Technology's work in the event at present.

R. J. Possell pounded out the first freshman home-run the other day on a comedy of errors. The wallop was fairly healthy to begin with, a slip in left field saw Poss passing second, and he ambled home after a misplay at short, sliding under Ban Seddon.

The Cub riflemen have taken the war path and although no one has yet equalled W. C. Blaisdell's perfect record of a week ago, their work has been improving since the opening of the season.

Fritz Clement '23, of the Golf Team, took on Captain Wade of Boston University last week on the Albermarle course, and came in with a score of 79. This is very low for the course, and may be a favorable omen of work to come.

When the results of the State Championship matches of last Wednesday night are published, they may show some interesting side-lights on the Beaver Team. Our money is with the Institute, after the showings of the past three weeks.

BETA NINE BEATS PHI KAPS

After Sherwood Eddy's talks on Wednesday, the baseball teams of Phi Kappa Sigma and Beta Theta Pi fraternity engaged on the Tech Field diamond, to play off the week-old tie. In a five inning game the Betas won, 4-3. Ferguson, of the visitors, sloughed out a homer. "Bill" Loesch and "Phil" Hatch were the winning battery, and Dennet and Barker were pitcher and catcher for the Phi Kaps.

SPORTS CALENDAR

Saturday, April 16
3:00—Freshman baseball vs. Dean, at Franklin, Mass.
Wednesday, April 20
Tennis vs. Brown, at Longwood courts, Brookline.
Saturday, April 23
3:00—Inter-class track meet, Tech Field.
3:30—Freshman crew vs. Huntingtor High, on Charles.

TENNIS TEAM GOES INTO ACTION AGAINST BROWN

The tennis team will get into action next Wednesday afternoon against Brown University. The match will be played on the Longwood courts, Brookline, and in case of rain will be run off on the indoor courts. Although it has been impossible to choose the Varsity team as yet on a permanent basis, a provisional team will be picked to play in this meet. The elimination tournaments for both varsity and the freshman teams are being played off at various courts, even though the Institute courts are not yet in condition. As soon as these are played, it will be possible to line up a squad, and start the regular practice, under coach Rice.

DISQUALIFY RUNNERS

Dandrow, Bawden, Greenough and Hendrie Eliminated

Track prospects are being considerably blighted by the decisions that the medical department are handing down in regard to some of the Institute's heroes on the cinders. George Dandrow, the weight star, Mich Bawden, the quarter miler, Bob Hendrie, the second man in the two mile event, and Greenough, the high jumper, have been declared incapable of sustaining varsity competition without serious danger.

Besides these stars four other men of ability have fared hard at the hands of the medical department. They are Hamburger sprinter, Laird hurdler, Plaisted sprinter, and MacIntyre distance.

Any of the men rejected may continue to engage in the sport provided their parents accept by letter the full responsibility of their doing so. Bawden, MacIntyre, and Plaisted will be reexamined, and have a chance of passing.

FROSH BREAKS ARM IN GYM

Charles S. Stodter '24 suffered a broken arm late yesterday afternoon in the Walker Gym. He had attended the freshman physical training class, and not being satisfied with the exercise he received there remained in the gym to try some stunts on the horizontal bars. While on the bars he made a slip, falling to the floor and breaking his arm. He was immediately taken to the Medical Department in Building 3, and chloroform was administered by Doctor Morse in order that he could set the arm. Doctor Morse reported the break to be a "compound fracture," and to make sure that the break was set in the proper manner he has taken Stodter to Doctor Whelean's office so that an X-ray can be taken.

MAY CUT WALKER COMMITTEE

Chairman H. M. Shirey of the Walker Memorial Committee has been considering a further cut in the number of freshman members. Mrs. King says that no such cut can be expected, to the best of her knowledge.

RECONSTRUCTION UNIT WILL SEND MEN TO FRENCH RUINS

A Technology unit of the American Students' Reconstruction Association is being formed. The purpose of the association is to aid in the rebuilding of certain areas in France. American students of architecture and civil engineering are sent over to Europe each summer to cooperate with the French architects.

To send a number of Institute men this year, a formal dance under the patronage of Mrs. Cunningham, Mrs. Emerson, Mrs. Bigelow and Mrs. Pearson, will be held in Walker, Thursday, April 25. By special permission of Dean Burton the affair will see the wee small hours, 2 o'clock being the time for taps to sound.

The committee in charge consists of J. W. D. Archibald '22, H. L. Shirey '22, M. F. Farren '21, H. J. Horn '22, C. C. Carven '21, W. M. Thomson '22, W. T. Ferguson '22, and W. R. Amon '22. These men will be supplied with tickets which may be procured in the main lobby after April 20.

CLINIC EXPLAINS RULE ABOUT PHYSICAL EXAMS

Very Few Disqualified by Doctors in Tests

There is a rule of the Medical Department of the Institute that all men going out for competitive sport must be examined before being eligible. Although 240 men have been examined so far under this rule, and very few of them been disqualified, some misunderstanding in regard to it has been aroused among the student body. The Medical Department has sent the following letter to THE TECH for publication and believes that it will clear up all questions in regard to the rule:

April 14, 1921.

"THE TECH,"
M. I. T.
There seems to be some misunderstanding concerning the eligibility of men for competitive sports as a result of their examination in the Medical Department.

According to the rules, all men training for or entering competitive sports have a physical examination. About 240 men have been examined in the Medical Department, and nearly all of them have been found in good condition. Of the 240, three men have been found to have conditions which would become serious if they continued in the sports. These men have been told of their condition, their parents have been told of it, and they have not been given permission to enter the sports. About thirty men have had their certificates temporarily held up, on account of minor defects which the doctors desired to re-examine. Of these thirty men it is probable that every one will be allowed to enter the sports as soon as further tests are completed.

In all cases where defects are found, if the man is anxious to enter the sports, and if his parents write a letter to the Medical Department stating that they know of these defects and if, in spite of this, they still want their sons to enter competitive sports, they are given certificates allowing them to do so. This is done in order to place the responsibility on the man and his parents, and not on the Institute and the Medical Department.

As a result of the examination of 240 men, only three have been definitely disqualified.

As the rule for compulsory examination has been made by the Administrative Committee, every man desiring to enter competitive sports must report as soon as possible to the Medical Department.

(Signed) G. W. MORSE, M. D.

JUNIOR FROSH SMOKER POSTPONED

The Junior Freshmen Smoker which was planned for April 12 in the main hall of Walker Memorial has been replaced by a banquet to be held on April 20 at 6.30 o'clock in the Faculty dining-room. Plans are being made for from 60 to 70 according to information on hand.
