THE OUR

OUR DEAN LEAVES US

The news that Dean Burton has resigned and will leave us in June has struck a pang in the heart of every man at Technology. It is very hard to part with a man who has made such an impression on the students as has the Dean. When the news of his resignation was given out, many of us learned for the first time of his extraordinary accomplishments in scientific lines, in fact, one was given the impression that we were losing an essentially and solely an eminent man of science. But we are really losing much more; a man of possessing personality, who inspires the confidence of every student and whose amiable nature and sympathetic understanding of the men has won for him such a place in their affections that no other man can expect to win.

We bid Dean Burton Godspeed and we may be so pleased and as full of happiness as possible.

NOTICES

For Undergraduates

There will be a meeting of the American Students’ Recreation Association lobby at 2 o’clock, Rogers Building, room 12. It is necessary that all interested attend.

The sixth meeting of the Harvard Technology Chemical Club will be held on Tuesday at 8 o’clock at the American Academy of Arts and Sciences, 25 Newbury St., Boston.

The electors of the club for the Minor Swimming Society for the year 1921-22 will be in Room 404-B, Monday from 9 to 5 o’clock.

What Ho! Ye Private Dorn Dance Is Tonight

Tonight is the night of the private dorm dance. The affair will start at 8 o'clock on Tuesday night, April 29, 1921, in the Liberty Hall dormitory. The dancing is to continue until 12. L. S. Valmer ’22, in charge of the affair, announced that the dance will be the best dance of the year. It is the first time such an affair has been given out, many of us learned for the first time of his extraordinary accomplishments in scientific lines, in fact, one was given the impression that we were losing an essentially and solely an eminent man of science.

Meet Mr. Charles A. Mitke

On Wednesday at 8 o'clock at the room of the MIT, Mr. Charles A. Mitke, who was the founder of the Technical Education Society, will deliver a lecture on "The History of Engineering Education and the Development of the Engineering Profession." The lecture will cover the origins of engineering education, the role of the MIT in the development of the profession, and the impact of technological advancements on the field.

The lecture is open to all interested students and faculty members, and will be followed by a Q&A session. Refreshments will be provided after the lecture.
