

GOLF TEAM STARTS COMPETITIVE PRACTICE

The Technology Golf Team has obtained permission to practice weekdays at the Woodland Country Club in West Newton. All candidates must see the manager before reporting for practice. Matches for qualifications are to be held at the Commonwealth Country Club. The squad will consist of twelve men, six being on the team. Rank in the team will be determined as a result of competitive matches. If, in one of these matches, a player succeeds in beating one with a higher standing twice in three tries the rank of the two players will be exchanged. The team at the present time is promising to be very good. J. Dunne in a recent try did especially well, making the Commonwealth Course in 79 where 85 is considered a good score.

All candidates for the team are requested to leave their names with their preference for date of practicing with the stenographer in the A.A. office.

'24 PLANS COMEBACK

Frosh Eight Races Stone On Charles Tomorrow

Technology's yearling oarsmen will go into action again tomorrow when they will oppose Stone School with their first eight. The encounter which is scheduled for 3.30 o'clock will be run off over a course of one and a half miles, which will extend approximately from the Cottage Farm Bridge to Walker Memorial. The direction of the race will be dependent upon weather conditions.

Due to the naming of a first freshman four, which will probably remain intact during the remainder of the season, a slight shake-up in the first eight was necessitated. Though Pat Manning has intimated that the final selection for the first frosh crews have been made, any marked improvement in the course of the season on the part of those pulling in the second boats will no doubt warrant advancement.

Coach Still Shifting Men

The coach of the Cardinal and Gray crews is still shifting the men in the Varsity shell about at such a rate, that the aspirants themselves have no idea from day to day as to the men who will be seated in the boat for the practice spins. The first race for the Varsity oarsmen is still a week distant, so that ample opportunity to make a selection from the material at hand still exists.

The yearlings have been improving steadily since their first contest of the season which took place on Monday against the Brown and Nichols combinations, which ranks among the best school boy fours on the river.

COSMOS DANCE FRIDAY

Walker will be the scene of the Cosmopolitan Club dance next Friday. Co-operating with the Chinese Society, the members of the club are working hard to make this the biggest social event that they have staged this year. The orchestra has not been decided upon at this early date but will probably be either Bert Lowe's or Leo Reisman's. Admission to the dance may be obtained by all Technology men, the affair not being confined to the members of the club. Tickets may be obtained from members of the entertainment committee and officers of the club.

T. E. N. UNDER NEW MANAGING BOARD

(Continued from Page 1)

Camp Hancock and in September '18 he was commissioned Second Lieutenant. Following the War Thoron received the appointment as assistant to the Minister, the American Legion, at the Hague Conference. His entrance at Technology was in October of '19.

While attending Harvard, Thoron was Treasurer and then President of the Harvard Advocate for 1917-18. He was also a member of the Spee Club and Signet. Here at the Institute he has been Editor-in-Chief of the Benchmark, Volume I, and a member of the Editorial Board of THE TECH.

Hall Active at Institute

Reginald S. Hall '22, is the next Treasurer. Hall comes to Technology from the Montclair High School, Montclair, N. J. He is a member of Stylus, and Pi Delta Epsilon. His Professional Societies are Corporation XV and the Chemical Society. In the activities of the Institute, Hall has taken an active part. During his freshman year he was on the staff of THE TECH, and he became Managing Editor of the T. E. N. his Sophomore year. His third year he was first Assistant Editor and then Editor-in-Chief of T. E. N. He is also a member of the M. I. T. Press Association, and Director of the Magazine and Trade Journal Group.

FROSH SIGNUPS READY

Banquet Tickets For May 11 Now on Sale

Sign-ups for the coming freshman banquet in Walker Memorial have gone on sale through the section leaders of the class. Each cardboard is selling for a \$1 apiece, and will be redeemable up to May 9 for the regular banquet ticket by the payment of the remaining \$1.50.

In a section leaders' meeting Tuesday afternoon the sign-up cards were given out, and the date of May 11 definitely settled on as the day for the banquet. The committee in charge of the affair has been busy and has arranged a number of interesting and live features for the evening. Among them is a four-piece orchestra.

The speakers have not been officially chosen as yet but it is rumored that they will be live enough to keep even a freshman awake. This is the first gathering of the Class of 1924 for a purely social function during its career. All men associated with the banquet urge the class as a whole to turn out and give their hearty and strong backing to the affair.

Professional Societies

C. E. SOCIETY NOMINATES

The annual election of officers of the Civil Engineering Society will be held on Wednesday. Officers to be elected from the class of 1922 are the president, vice-president, secretary, treasurer and two members of the executive committee. An assistant secretary, assistant treasurer, and one member for the executive committee will be elected from the class of 1923. The following is a list of the nominees: President, D. H. McCreery, J. L. Vaupel; Vice-president: E. E. Bigelow, W. H. Meuser, E. A. Reinhardt; Secretary: S. G. Thomas, T. S. Wray; Assistant Secretary, R. R. Drissel; Treasurer, V. C. Threlfall, H. Y. Tsui; Assistant Treasurer: E. S. Averell and M. J. Noughton.

For executive committee from the class of 1922, two to be elected, the nominees are J. F. Britain, Sam Cohen, O. H. Horovitz, K. W. Robbins and B. W. Thoron; from the class of '23, one to be elected, G. E. Barnes and J. W. Lowry.

M. E. SOCIETY PLANS LAST TRIP

The M. E. Society is planning the last trip of the year to come some time the last of next week, or the first of the week following. The exact date, and the place they will visit has not been definitely decided as yet, but it is expected that these details will be arranged shortly. The Society has taken several very interesting trips this year and all those who have gone have profited by them. This trip will probably be the best of all, and will merit the attendance of all those interested.

ELECTRICALS GET HINTS ON 'SELLING YOUR SERVICES'

Professor Robinson was the speaker at the Electrical Engineering Society's smoker held in Walker Memorial last Tuesday night. The attendance was good and at the end, the audience enjoyed music and comic movies.

Professor Robinson's topic was "Selling Your Services" and was largely practical suggestions to the student and the young graduate on the conduct of his human relations.

"Nothing can take the place of a sound knowledge of the job and a 100 per cent belief in its importance and interest. But," he said, "a man may have these, and fail, through inability to impress others with the fact that he is a human being like themselves. If we avoid negative thoughts about ourselves, and think hard about the other man, we shall stand a better chance of making ourselves understood and liked."

CHEM SOCIETY HOLDS ELECTION

The Chemical Engineering Society will hold an election for officers of the coming year on May 10. Nominations for officers must be signed by ten members of the society and these nominations must be left at the information office not later than 1 o'clock Thursday, May 5. The following officers are to be elected: president, vice-president, secretary, treasurer and two members of the program committee.

CIVIL ENGINEERING SOCIETY TO HOLD ANNUAL BANQUET

To Install Newly Elected Officers at Good Turkey Banquet

The annual banquet of the Civil Engineering Society will be held in North Hall, Walker, at 6 o'clock Friday, May 6. Tickets went on sale Wednesday noon. The price of the tickets is \$1.25 per plate and can be obtained from officers, class representatives, and at the table in the lobby of building 1. An old fashioned, New England turkey dinner will be served.

Leonard Metcalf of the Alumni Council, Dean Burton, Professor Porter and Professor Spofford will address the assembly. A quartet, orchestra, and special music will furnish some real live entertainment.

This banquet winds up the year's work for the present officers and the election results will be announced at the banquet and the new officers installed. This affair will be the most important meeting of the year, and members of the society cannot afford to miss it.

RECONSTRUCTION DANCE PROVES BEST OF YEAR

Last evening in Walker, one of the largest and most successful dances of the season was held. Mr. Archibald, committee chairman, and his corps of architects, had to have excellent decorations in order to live up to the requirements of their course and they certainly lived up to them.

Wednesday evening, the annual meeting of the Arts and Crafts Club was held in the Rogers Building. At this meeting, each member of the club submitted sketches serious and otherwise, mostly otherwise. All of these sketches that would pass muster were brought over to Walker and used as part of the decorations for the dance. The result was certainly novel, and created an interest that has not been exceeded at any dance this year.

Professor and Mrs. Emerson, Mrs. Cunningham, and Mrs. Bigelow acted as patronesses for the affair. The orchestra was special, some of the members being brought over from New York City for this occasion. The money realized on this dance goes toward the fund which is being raised to send the Reconstruction Unit to France.

PLAN HOUSE FOR TECHNOLOGY MASONS

Members of the Technology Masonic Club met for their annual election of officers and dinner Wednesday evening in the North Dining Hall of Walker. They were addressed by W. L. Terhune, president of the Boston Masonic Club, and by A. E. Wilkins, past Governor of the Boston Masonic Club. Mr. Terhune spoke on the history of the Boston Masonic Club, and discussed the possibility of organizing a Masonic House at the Institute for the coming year.

The officers elected were Russell Hubbard '22, President; J. F. Pierce '22, Vice-President; H. P. McIntyre '22, Secretary; A. L. Johnson '22, Treasurer; Parke D. Appel '22, H. A. Simons '21 and L. D. Warrender '21 members of the Executive Committee.
