## JUNIORS LEAD SCHOOL IN SPRING INTERCLASS MEET

1922 Rolls Up 62 Points For Interclass Championship—Wet Track Prevents Fast Times—Pinkham High Point Winner

### DANDROW BEATS LOCAL RECORD

The Juniors proved their superiority on the cinders last Saturday when they chalked up a total of 62 points and romped to an easy victory in the Interclass Meet. They took six firsts while 1921 captured five events. As a result of the wet weather, the times were considerably slower than might otherwise have been expected, but considering the difficulties under which the meet was run, the men did exceptionally well. Bill Pinkham, with a tie for first in the high jump, one second, and two thirds, proved to be the high point winner of the meet, giving the Juniors 11 points. Dandrow '21 and W. L. Smith '23 followed closely, with two firsts each.

#### Hammer Throw Record Beaten

Dandrow beat his own record for the hammer throw when he heaved the weight for a distance of 156 feet 2 inches. The old Tech Field record that he established in 1920 was more than two feet less than this new mark. Dexter '23 and Osborne '22 placed second and third. Dandrow also captured another first place when he put the shot a distance of 38 feet. Kellar, Pinkham, and Nimick were the other men to place in this event in the order named. Dippel '22 showed his ability in the running broad jump but beat out his nearest competitor, Heap '23, by a distance of only 6 inches. Pinkham '22 and Houghton '24 trailed these men by less than a foot. Pinkham again broke into the scoring column when he tied for first place in the running high jump with J. O. Merrill '21. They would undoubtedly have bettered their jumps if the field was not so slippery. Greenough '23 and Correale '24 took the other two places in this event. Kellar added 5 points to the Juniors' score by tossing the discus a distance of 113 feet. Pinkham '22, Nimick '24, and Ellms '21, respectively took the other places. Except for the distance that Dandrow got in the hammer throw, the marks made in

### PROF. ROBINSON TO ADDRESS E. E. SMOKER

Professor A. T. Robinson of the English Department will address the Electrical Engineering society on "Selling Your Services," at their smoker tonight in Walker Memorial. His talk will be somewhat in the nature of how you can get a job which will pay you the most money. The subject chosen is one that is of interest to all men in the Institute, since at some time in the near future they contemplate getting a position and they surely want the most advantageous one they can obtain.

### MR. COPITHORNE WILL GIVE TWO ADDITIONAL READINGS

A statement in THE TECH of last Friday in regard to the readings of Mr. M. R. Copithorne in the Walker library on Thursday evenings was an error. Mr. Copithorne announces that there will be two more readings in continuation of the series in memory of William B. Eastman '19.

The program of the one next Thursday night will be composed of Thomas Bailey Aldrich's "Majorie Daw" and George W. Cable's "Tite Poulette." This reading will be, as usual, in the Walker library at 6.45.

### 1924 SECT. LEADERS MEET

An important meeting of 1924 Section Leaders will be held this afternoon in room 10-267. Freshmen please see that your leader attends.

### CHANCE TO VOTE!

The Corporation XV banquet which is to be held in the Faculty Room of Walker tonight will be over by 7.30, and at that time, elections for next year's officers will be held. Members of the Corporation who do not attend the banquet will be welcome at this time for the business meeting, and a large vote for next year's officers is expected.

### CORPORATION XV WILL DINE TONIGHT IN WALKER

Corporation XV men will hold their annual banquet tonight at 6:10 o'clock in Walker Memorial. Mr. Dennison, general manager of the Dennison Manufacturing Company, will speak to the men on "Scientific Methods of Selling". Mr. Dennison is an expert in his line and it is expected that all the members of the society will be present.

Following the banquet there will be a short business meeting when the officers for the coming year will be nominated and the new by-laws voted upon. The price of the tickets is \$2.00 and may be obtained from the present officers of the Corporation and also from the directors who have just been nominated.

### PONCE HAS SURPRISES

#### Latin-American Club to Give Semi-Formal Dance

Arrangements for the Latin-American Club Dance on April 29 have been completed and everything is in readiness to start at 8.30 that evening. Bert Lowe's orchestra will be there to furnish the necessary music. There will be special decorations and several special features are planned. These will be in the nature of a surprise though, so they cannot be announced.

Mr. Ponce, committee chairman, whose name is pronounced the same as that of our famous Boston financier, now spending a prolonged vacation at Plymouth, promises some surprises. Somehow this word Ponzi associates itself with versatility and the dance promises some novelties.

Mrs. Langley, Mrs. Passano and Mrs. Bigelow will act as patronesses for the affair. The dance will be informal and tickets are \$2.50 per couple and can be secured at the Coop or in Walker. They will be put on sale in the lobby later in the week at which time dance orders will be distributed.

### CHURCH SUPPER WILL BE GIVEN FOR INSTITUTE MEN

The third and last supper to be given by the ladies of the Prospect Street-Congregational Church will be held Thursday, April 28, at 6.30 o'clock, at 50c per plate. The church is on Prospect Street, two blocks north of Central Square.

The eats are good and the company is good. If possible leave word at the T. C. A. office by 1 o'clock Wednesday, so that the ladies may know how many men will be present. C. A. Brantingham '23, A. N. Crawford '24, H. J. Payne, '24, E. M. Barnes '23, and C. A. Chase '22, comprise the committee in charge of the affair.

## SET THE DATE FOR THE INAUGURATION

President-Elect Nichols Will Take Office June 8 During Senior Week—Requests Very Simple Ceremonies

### PLANS SHAPING RAPIDLY

The date for the inauguration of President-elect E. F. Nichols has been set for June 8, which will be during Senior Week. The plans for the inauguration ceremonies are rapidly taking shape but the President-elect has requested that they be of the simplest character.

There will be several committees present representing the Faculty, Alumni, and Corporation. The committee representing the Faculty will be composed of Professors Wilson, Miller, and Talbot. The other committees have not yet been named. It has not yet been decided whether a student parade will be held.

## TECHNOLOGY TO AID IN RECONSTRUCTION

Students to Institute Drive for \$10,000 to Participate in Intercollegiate Movement for France

### PREMIER BRIAND WIRES THANKS

Technology men will be among those who will be sent to France by the new organization to be known as the American Students' Reconstruction Association, which is being organized for the purpose of sending to France this coming summer fifty or more college students of architecture, landscape architecture, and engineering. The students will work in the devastated regions of France under the supervision of the French Ministry of the Liberated Regions. The plan is an enlargement of the idea of the Harvard unit, in which Technol-

## Spring, Gentle Spring How Wondrous Thou Art

Spring—that gently calling mistress of youths' fancies—has indeed come again. With the souging of the last March wind she stepped in to woo young men from their studies and their classes out into the open to breathe the dream-impelling, balmy air. How insidious and entrancing are her advances! And how hard to resist!

Her call—the call of the wild, open woodlands—penetrated to 10-250, sometimes called Eastman Hall, during one of Professor Shugrue's mercenary lectures in the realms of political economy. Hardly had he started until the first daring ten had led the way for the more studious of the lot. Then, the pathway broken, they flooded was started. Not even the embalming influence of the Spring issue of Voo Doo could halt the stampede. They went by tens, then by twenties, they swarmed over the seats, they forgot their hats, in their mad endeavor to reach the door. Only one cared enough for the old skypiece to come sneaking back to get it.

But their exodus was nothing compared to what it was when the lights went out in preparation for the illustrated part of the lecture. Then, with a roar, not figurative, but literal, they arose and left as one man. A few faithful ones—active members of Brown Bag, Inc.—stayed, until Professor Shugrue dismissed them twenty minutes before the end of the hour.

How truly remarkable are the taking ways of the fair goddess!

## DEAN IS LEAVING INSTITUTE IN JUNE

Wife's Delicate Health Causes School's Beloved Advisor to Give Up Position He Has Held Since 1902 to Go West

### HAS BEEN ACTIVE IN SCIENTIFIC CIRCLES

## SERVICE AT TRINITY OPENS SENIOR WEEK

Bishop William Lawrence Will Deliver Baccalaureate Address to Members of Graduating Class

### STUDENTS MARCH FROM ROGERS

Plans for Senior Week activities are maturing rapidly. The festivities will be ushered in by the Baccalaureate Sermon, Sunday, June 5, at Trinity Church, where Bishop William Lawrence will address the Class of 1921.

Bishop Lawrence is undoubtedly the foremost member of the Protestant Episcopal Church in the United States. He was especially prominent during the war in connection with the Church War Commission, of which he was chairman, in aiding service men in this country. After the war he was in charge of raising a church pension fund of over eight million dollars in one year. His term as Bishop of Massachusetts has lasted since 1893.

Preparatory to the service, members of the Senior Class will assemble at Rogers building on Boylston street and march thence to the church in Copley square, carrying class and Institute banners. Seats, closed off by cardinal and gray, will be reserved for the men in the front of the church. Room for friends and relatives will be available directly behind the class. If enough members of the Faculty show an interest, a special section will be reserved for their use.

Dr. Mann, Rector of Trinity Church, is co-operating with the chairman of the Baccalaureate committee, G. E. Fargo, and L. W. Conant, first marshal, to make the affair a success. The Trinity Choir, reputed to be the best in New England, will assist in the service which will be simple and non-sectarian.

### WILL BENEFIT CREW

The T. A. C. will give another dance in the Walker in the interests of sports at Technology on Saturday, May 7, when Bert Lowe's orchestra crashes out in the interests of crew.

Tickets will go on sale tomorrow in the main hall of Walker and may be secured from members of the committee which consists of H. J. Horn '22, C. G. Rudderham '22, R. E. Spaulding '22, H. M. Shirley '22, A. L. Johnson '22, T. H. Gill '22 and D. R. Linsley '22. The tickets are priced at \$1.50.

Mrs. R. P. Biglow is in charge of the hospitality committee arranging for the patronesses.

### A. S. R. A. DANCE WILL BE HELD ON THURSDAY

The formal dance to be held in Walker on Thursday evening, April 28, is part of Technology's plan to raise its quota for the American Students' Reconstruction Association. With decorations designed by students in Course IV, and the best music that could be secured, nothing will be lacking to make it enjoyable for all who have the luck to attend.

The resignation of Dean Alfred E. Burton has been announced and will take effect with the end of the present school year. Dean Burton has been in this position since the office was created in 1902, and his work has made him an enviable position in the esteem of the graduates of the Institute. The cause of his resignation is concern for the health of his wife, who is in California where Dean Burton will go when relieved of his duties at Technology.

Professor Burton was born in Portland, Me., in 1857 and graduated from the engineering school of Bowdoin College in 1878. While there he was a member of Delta Kappa Epsilon and roomed with Rear Admiral Peary. It was at Admiral Peary's suggestion that in 1896 he organized an expedition to North Greenland, where the pendulum and magnetic observations he took are among the most valuable determinations that have ever been made in the Arctic regions.

Eclipse observations also occupied his attention for he organized an expedition in 1900 to observe a total eclipse of the sun at Washington, Ga. The following year he organized an expedition of Technology men to go to Sumatra to observe a similar phenomenon.

Dean Burton was connected with the United States Coast and Geodetic Survey in 1879 when he was chosen after a difficult competitive examination to be a topographer. In 1880 he volunteered to go to Memphis, Tenn., in connection with the laying out of the sewerage system, a post of difficulty because of the recent yellow fever epidemic. Later under his direction a base line apparatus was developed by Technology students, which proved of value to the survey. In 1894 he was sent to Germany by some citizens of Boston to report on the Alter Basins of Hamburg, Germany. Since 1905 he has been one of the overseers of Bowdoin College.

Dean Burton began his connection with the Institute in 1882, when he accepted the post of instructor of
