

JUNIOR WEEK DATE CHANGED TO APRIL

Two Separate Spring Vacations Planned—Third Term Examinations Will Start Tuesday, May 31—Last Ten Days

THIRD TERM ENDS MAY 28

The faculty of the Institute have decided on a change in the date of Junior week next year. Instead of coming in the period between the second and third terms it is planned to institute a recess, coming the first three days of the week when April 19 comes on a Thursday, Friday, or Saturday, and the last three days of the week when April 19 falls on any other day.

It has also been decided to begin the annual examination period, consisting of 10 full days, two days later than at present but end on the same day as now. The faculty meeting to recommend degrees will come on a Thursday and Commencement will fall on the Monday following. It has been suggested that the Senior Week events be followed as follows: Class Day, Saturday; Baccalaureate Sermon, Sunday; Commencement, Monday.

This year the last exercise of the third term will come on Saturday May 28, and the examination period will be advanced one day to May 31.

RACQUET WELDERS SCORE 4-3 VICTORY

Take Contest From Williams In A Hard Duel on Indoor Courts—Score Tied at Start of Last Match

CAULDWELL PLAYS WELL

Technology's tennis team defeated Williams 4-3 on the indoor courts at Longwood Saturday evening. On account of a misunderstanding the matches had to be played several hours later than was expected, but the Williams fellows showed their sportsmanship by breaking all engagements for the evening and playing it out.

Bill Cauldwell played a fine game, and took his match with R. E. Rowse easily. In the doubles, he played with Scott against Captain Hugh Bullock, and C. D. Fraker in the deciding match of the evening, winning not without some difficulty. Bill's service was a little weak in the first set of this, but improved in the second and third. Dick Carver had very little trouble with Fraker in the singles, although losing one set. Herm Brockman met his match in A. H. Chapin, Jr., New Intercollegiate champion, but with Carver easily downed the Chapin and Rowse in the doubles.

The summary:

Singles
A. H. Chapin, Jr. (W) defeated H. Brockman (T) 6-1, 6-2.
W. A. Cauldwell (T) defeated R. E. Rowse (W) 8-2, 6-1.
H. S. Prescott (W) defeated W. R. B. Scott (T) 8-6, 6-4.
R. D. Carver (T) defeated C. D. Fraker (W) 6-1, 3-6, 6-2.
H. Bullock (W) defeated West (T) 6-1, 6-3.

Doubles
H. Brockman and R. D. Carver (T) defeated A. H. Chapin, Jr. and R. E. Rowse (W) 6-4, 6-1.
W. A. Cauldwell and W. R. B. Scott (T) defeated H. Bullock and C. D. Fraker (W) 4-6, 6-1, 6-3.

CREATES DEPARTMENT

THE TECH is creating a publicity unit in its circulation department. Competition begins at once and lasts until June when elections will be held. Men who can make good looking posters and are interested in this work are asked to leave their names and schedule cards in Room 310, Walker, today.

MAY OBTAIN TECHNIQUES

Men desiring copies of Technique 1922 and also men who have lost their paid-in-full signups will be accommodated at the Technique office any day this week after 5 o'clock.

FACULTY CLUB WILL ELECT OFFICERS FOR COMING YEAR

The annual election of officers of the Faculty Club will take place at a meeting and dinner which will be held next Tuesday in the faculty dining room of Walker Memorial. Several speakers will also address the meeting.

Mr. Eugene C. Hultman '91, has accepted an invitation to be present and will deliver a short address on the fuel situation, following which he will answer any of the questions that the club members may wish to ask. Mr. Hultman is the chairman of the Massachusetts State Commission on the Necessaries of Life.

As a further continuation of the subject of fuel, Mr. John L. Batchelder '90, will be present and will state his ideas from the viewpoint of the retail coal dealer.

TRIMSTONE SCHOOL

Frosh Run Away With Race While Varsity Beats "J. V's"

Yesterday afternoon the freshman eight took a mile race from Stone School by three lengths. At no time was the result undecided, as the freshmen got the jump on the other crew from the start. The lineup was as follows: Bow, Davis; 2, Rosenau; 3, Ames; 4, Greatwood; 5, Eath; 6, Grant, substituting for Thomas; 7, Prouty; Stroke, Dunleavy; Capt., Cox Reid. The same afternoon the varsity rowed the junior varsity winning by a length and a half over the mile course. The junior varsity got the lead at the start, but were unable to hold it. The lineups for Saturday's race at Worcester have been decided on. Three crews, first and second varsity and first freshman, will be entered. Friday, the first freshman four will row Noble and Greenough on the Charles.

PROF. EMERSON ADVISES IN BUILDING OF SCHOOLS

Professor William Emerson, head of the Department of Architecture, has been asked by the city of Fitchburg to act as professional advisor in the erection of a new school building. Professor Emerson is also acting in the same capacity for Quincy, which is also contemplating the construction of a new school building.

ELECTORAL COMMITTEE MEETS FOR LAST TIME AT BANQUET

The 1923 Electoral Committee will hold their last gathering today at the Riverbank when they will celebrate the completion of their work by a banquet. The affair will begin at 6.30 o'clock.

SIXTY ASPIRE TO HELP FRENCH RECONSTRUCTION

Pick Technology Representatives Out of this Number

The Technology group of the American Student Reconstruction Unit, which is to work in portions of devastated France held a meeting Friday afternoon in the Rogers Building, when 40 men formally signified their wish to go to France this summer. The regular application blanks from the Unit headquarters in New York were delayed in reaching here in time for this meeting, but each man left the information desired for these blanks, which will be filled out as soon as they arrive. In addition to those who were at the meeting there are about twenty more who wish to take part, which brings the total number of Technology aspirants up to 60. The men who will represent Technology in the American Unit are to be picked from among this number.

SCENARIOS FOR 1922 SHOW DUE BY MAY 28

Professor Rogers Outlines Type of Plot at Meeting

Scenarios for next year's Tech Show are to be handed in on or before May 28. This was definitely announced in a meeting of all prospective play-wrights last Friday afternoon in room 10-275. These scenarios are to be submitted, enclosed in envelopes with the name of the author, and a number, written on the outside. On the manuscript the man's name is not to appear, but only the number on the outside of the envelope.

Professor Rogers addressed the group of men Friday and explained that scenarios with more than two changes of scenery would not be considered, although there may be three acts to the farce, two of them to have the same scenery. He stated that scenarios were best written by scenes.

The scenarios handed in are to be judged mainly from the standpoint of plot and situations developed throughout the story. The successful authors will be notified during the middle of June, and given the rest of the summer to write their plots up in book form. The best story with its author, will be announced soon after the opening of school next fall.

MAY ISSUE T. E. N. APPEARS TOMORROW

Feature Prize Colored Cover and Article On Training Of Reserve Officers In Summer Camps

NEW ELECTIONS TO BOARD

The May issue of the Tech Engineering News, which makes its appearance tomorrow, promises a number of novel features which should be of interest to its readers, according to the managing board. The cover, which won the competition, will appear in India and Brown, and the design is said to be an attractive one. The feature article is on the Training of Reserve Officers. It is written by men who are experienced in the work—two Institute Seniors who have attended two of the summer camps for the training of the Reserve Officers. Another of the articles which should attract the attention deals with a more technical subject, but in a clear cut manner: Aerography and Aeronautics.

Other selections are concerned with various subjects. An outline is given of the Employee's Co-operative

Professors Experiment With Lions and Leopards

(By E. I. N. A.)

Determined to settle once for all the noted question as to whether music "hath charms to sooth the savage breast," several Columbia Professors, accompanied by zoologists from the Museum of Natural History and the Bronx Zoo, invaded the animal houses in Central Park, armed with a complete repertoire of musical numbers, varying from "I'm a Jazz Baby" to "Lead, Kindly Light."

The experiment began with a serenade to the hippopotamus, who promptly dove into the tank. The lions roared the band down, but the leopard showed a strange apathy to the strains of "The Vamp." "Sweet and Low" left him equally unmoved, but the first notes of "Lead, Kindly Light" evoked terrific assaults on the iron bars of his cage.

DANDROW TAKES FIRST IN 56-POUND WEIGHT AT PENN

Many Records Broken In Spite Of Poor Condition Of Track—Immense Crowds Pack Grandstands On Both Days Of Meet

WESTERN STARS SHINE IN ALL EVENTS

SPECIAL TO THE TECH

Philadelphia.—The twenty-seventh annual relay carnival held under the auspices of the University of Pennsylvania Friday and yesterday was one of the finest that was ever staged. Records were broken right and left. Before the spectators knew that the meet had started on Friday, Gus Desch of Notre Dame had broken by 2-5 of a second the world's record for the quarter mile hurdle race. Technology, not to be excluded from the record breakers, was represented by George Dandrow heaving the 56 pound weight to victory and the establishment of Collegiate and Relay Carnival records. His distance was 32 feet 3 1-3 inches.

George Bronder of the University of Pennsylvania set a new carnival record in the Javelin Throw, Saturday when he hurled the spear-shaped instrument 183 1-4 inches. Boston College relay men on the same day established a new record for the Class B one mile relay in the fast time of 3:24 2-5.

SENIOR WEEK TICKETS TO INCLUDE PICNIC

Baseball Game, Watersports, And Track Meet Feature All-Day Trip of Class of 1921 to Pemberton

FREE LUNCH TO BE SERVED

Preparations are now under way for the last big riot of the Class of 1921 before graduation and subsequent departure for realms unknown. In fact, the Senior Picnic to Pemberton, June 6, promises to be one of the biggest events of the week.

The class will assemble at Rowe's Wharf in time to get the boat which leaves at 9.45 for its trip down the harbor. At 10.45 a hotly-contested baseball game between Course I and Course III, the old Summer Camp rivals, will hold the attention of the revellers. At 11 the swimming pool bids fair to be the center of attraction. There the Seniors will indulge in water polo, canoe tilting, log rolling races, and many other drownings. If the time allotted for lunch means anything it certainly ought to be a banquet for from 12 to 1.45 the members of the Class of 1921 are scheduled to satisfy the cravings of the palate.

The Picnic will be a stag affair and everyone is expected to wear the uniform of the day, consisting of white ducks and white hats, the hats to be furnished on board the boat. The Picnic is included in the Blanket tickets for which signups will be sold May 11.

"BOSTON FROM THE AIR" FOR MEMBERS OF AERO SOCIETY

Hop off from South Boston next Saturday

The long promised flight of the Aero Society will take place on Saturday. All interested will meet in the lobby at 1 o'clock, and then proceed to South Boston where they will inspect the plant of the Eastern Aircraft Corporation. Then they will go to the beach, where the men are to take off. There will be four 12-minute hops over Boston in a seaplane, for those who win them in the drawings to be held this week among the new members, and for the ones whose flights were postponed from last fall. In addition to these, it is planned to give as many groups of fifteen men as desire to do so a chance to contribute 50 cents apiece toward a flight and then decide by lot which one of them will go up.

George Dandrow's mark was less than he has been throwing in practice recently, but considering the fact that there was a nasty drizzle falling and he beat his nearest competitor by more than two feet, he did remarkably well.

MacMahon Finishes Fifth

Captain Bill MacMahon finished fifth in the two mile special event, which was won by Raymond Buker of Bates, the same man that beat out Bill for first honors in the New England cross-country last fall.

Bill led the field for the first six of the eight laps but was not in condition to stand the fast pace and was forced to give way about 600 yards from home. Even at that his time for the distance was very creditable since he covered the ground in 9.43, the race being won by Buker in 9.25. Furnas of Purdue the Western Conference cross-country champion was second and Gordon Nightengale, now running with the West Virginia colors, was third.

The relay team was outclassed from the start and finished sixth. Jack Hennessy who ran first was pocketed when the gun was fired but held his own for the first lap. On the second lap however he weakened and was 70 yards behind when he passed the baton to Ollie Bardes. Bardes ran a good race but was unable to better his position. Snow and Mich Bawden held their own, but the pace

(Continued on Page 3)

WHO'S WHO At Technology

The officers of the Army Club are: President, 1st Lieutenant I. C. Lawrence, 562 Newbury St., Boston. Vice-President, 1st Lieutenant H. B. Loper, 562 Newbury St., Boston. Treasurer, 1st Lieutenant F. W. Marlow, 562 Newbury St., Boston.

CALENDAR

- Thursday, May 5
 - 5.00—Institute Committee meeting, faculty room, Walker.
 - 8.00—Engineering Unit R. O. T. C. dance, north hall, Walker.
- Friday, May 6
 - 6.00—Civil engineering society dinner, north hall, Walker.
 - 7.30—Cosmopolitan Club dance, main hall, Walker.
- Saturday, May 7
 - 1.00—Aero Society Trip to Eastern Aircraft Co., South Boston.
 - 3.00—T. A. C. tea dance, main hall, Walker.
 - 6.30—Boston Bacteriological Club dinner, faculty dining room, Walker.
 - 8.00—Catholic Club dance, main hall, Walker.
- Tuesday, May 10
 - 6.00—Faculty Club dinner, faculty dining room, Walker.
- Wednesday, May 11
 - 1.00—Technology Matrons, north hall, Walker.
 - 6.00—Freshman class banquet, main hall, Walker.
- Thursday May 12
 - 6.00—M. I. T. A. A. banquet, main hall, Walker.
 - 6.00—Chemical Society dinner, north hall, Walker.
