

Junior Managers for Tech Show 1922

W. D. SCOFIELD '23
Business Manager Tech Show 1922

W. D. Scofield '23, the new business manager, served in the navy during the war as an officer. He was a member of the class tug-o-war team for two years, during which he also served as assistant business manager of Tech Show.

R. E. SHERBROOK '23
Treasurer Tech Show 1922

A member of Course II, R. E. Sherbrook '23, the treasurer for next year, has served on Tech Show for two seasons. His freshman year he was in the chorus, and at the time of the last performances he was serving in the business department. Sherbrook is a member of Beaver.

W. L. SEARLES '23
Publicity Manager Tech Show 1922

W. L. Searles '23, who now assumes control of the publicity, has been serving in that department for two years. He is a member of Chiops. Last fall he played with the '23 football team. During the war he was gassed in service overseas.

H. I. BEADLE '23
Stage Manager Tech Show 1922

The stage next year will be under the direction of H. I. Beadle '23, who has been serving in the stage department for two years. He resigned shortly after his election to the Technique 1923 Electoral Committee on account of being overpointed. He is a member of Beaver. All four men are members of Masque.

DESIGN CITY WATERWORKS

A high pressure water system for the city of Providence is being designed for thesis work by N. G. Abbott '21, W. M. Freeman '21, and T. O. M. Davidson '21. Other Seniors, F. M. Coldwell '21, J. D. Crowley '21, and W. K. Avery '21, are designing for their thesis work a boosting set for Fall River pumping station.

TEA DANCE IN WALKER BY T. A. C. SATURDAY AFTERNOON

A tea dance was held last Saturday afternoon from 3 to 6 o'clock, in the main hall of Walker Memorial, for the benefit of crew. Bert Lowe's orchestra furnished the music which was enjoyed by the 175 couples that were present.

Mrs. R. P. Bigelow received and poured tea, assisted by Mrs. S. S. Wood, Mrs. H. W. Hayward, Mrs. P. H. Ottosen and Mrs. F. J. Robinson, all of the Hospitality Committee. Refreshments were served in the grill room and consisted of tea, cakes and chocolates.

COSMO CLUB ENDS YEAR WITH PLAY AND DANCE

The last Cosmopolitan Club dance of the year was held Friday evening in the north hall of Walker Memorial. Given in conjunction with several short plays presented by the Chinese students, the affair went off with great success.

Starting at 8 o'clock two short Chinese plays were presented: "Two in One" and "Beating the Village God". Following this light refreshments were served to those present, and then the dancers took possession of the floor until 12 o'clock, swaying to the melodious strains of Walter Johnson's eight piece orchestra.

CLOSE YEAR WITH BANQUET

The Menorah Society is planning to wind up the year with a final smoker on May 13 in the Faculty dining room in Walker Memorial. The society has succeeded in getting Dr. H. H. Rubinovitz of New York, well known as a speaker to the Menorah societies in the country, to speak on "Jewish Culture in America."

NEW USE FOR MOVIES

An idea that is likely to be copied by other colleges has been put forth at Yale. They propose to preserve by means of movies, the distinguishing characteristics and peculiarities of each class for historical and amusement purposes at class reunions. The Junior class at Yale expects to vote on the idea next week, and if adopted will probably become an established tradition.

JOHNSON HEADS COUNCIL

A. L. Johnson '22, president of the T.C.A. was elected president of the Intercollegiate Council of the New England Officers' Training Conference which was held recently at Brown University. Of the 60 delegates from New England, 11 officers and department heads of the T.C.A. represented Technology. The possibility of having the Conference meet here next year was enhanced by the invitation extended by the officers of the T. C. A.

FACULTY CLUB DINES

Dean Burton and Prof. Porter to Be Guests at Dinner

Dean Burton and Professor Porter, who retire from service on the Institute staff this spring, are to be the guests of the Faculty Club at its last meeting this year to be held in the faculty dining room this evening. Each of the retiring members will probably address the gathering.

Other speakers of the evening are E. C. Hultman '96, and J. L. Batchelder '90. Each will talk on the coal situation in New England, and as Mr. Hultman is chairman of the State Commission on the Necessaries of Life, and Mr. Batchelder is a leading coal merchant, both are able to speak with authority on all phases of this important question.

The events of the evening will be the election of officers at 6 o'clock, dinner at 6:30 o'clock, and speeches at 8 o'clock.

INSTITUTE GRADUATE IS AWARDED SCHOLARSHIP

At a meeting of the Boston Society of Architecture held Tuesday evening, May 3rd, Mr. Frank Carson '17, was awarded the Rotch Traveling Fellowship.

Mr. Carson graduated from Technology in 1917 and is at present residing in Boston. This fellowship entitles him to two years study in Europe and carries with it the sum of three thousand dollars.

AERO SOCIETY MEMBERS RECEIVE FREE FLIGHTS

Four members of the Aeronautical Engineering Society received free hops in a Curtiss flying boat at the Eastern Aircraft Company on last Saturday. After the hops the members were taken through the plant of the company and saw several Curtiss and Lawson machines in the process of construction. Not as many members of the society went on the trip as was expected, but those who did go say that it was one of the best trips the society has ever held.

FORMER TECHNOLOGY MAN DIRECTS CHINESE IN AIR

Information has just been received to the effect that Charles Dolan of Dorchester, a former student at Technology has been appointed as assistant director of the Chinese air service. He leaves this week for Peking to take up his duties. Dolan left the Institute when the war broke out to go to fly for France, and the experience he got in his war flying gained him this position.

FRESHMAN CHESS TEAM BOWS BEFORE BOSTON LATIN HIGH

The freshman chess team met defeat at the hands of the players of Boston Latin High school on Friday night. The match was held in the east lounge of Walker, our home territory, but it didn't do the freshmen any good, for the score was 5 1/2 to 2 1/2. The freshman score was made up of two victories and one draw out of eight games.

HUNDRED NEW BOOKS IF MISSING ONES RETURN

Poor Memories Cause of Walker Library Defections

Many and frequent of late have been the reports of the Walker Committee that some of our student body have become so attached to certain books from the Walker reading room that all pleas for release have been futile.

Three detective stories, and a delightful work of Anatole France are among the missing. If these volumes are returned, a perfect report can be sent to Professor Robinson who has just promised the Library 100 new books.

CALIFORNIANS PLAN DANCE FOR RECONSTRUCTION UNIT

The California Club is again active and plans to hold a tea dance in the main hall of Walker Memorial for the benefit of the Students' Reconstruction Unit of Technology.

It is the first time that the California Club has undertaken to furnish this manner of amusement, but according to Don H. McCreery '21, the club plans to make this the best and most successful event of the sort to be held this year. All those who know the club, or have been so fortunate as to attend any of the affairs it has held, will hardly doubt the club's capability to make it a great success.

The dance will be held Saturday, May 21, from 3 to 6 o'clock and Bert Lowe himself will furnish the music. Tickets may be obtained from Don McCreery '21, Jack Nichols '22, Dale Spoor '22, and Arthur Kemp '24.

DR. A. E. KENNELLY CHOSEN AS EXCHANGE PROFESSOR

(Continued from Page 1)

with France in such a joint exchange of professors on a plan definitely outlined. Their replies were favorable and a committee was appointed with one member from each of the seven institutions, Columbia, Cornell, Harvard, Johns Hopkins, Technology, Pennsylvania and Yale, to devise methods of carrying the plan into effect. The present president of the committee is Director Russell H. Chittenden of Yale, and its secretary Dean J. B. Whitehead of Johns Hopkins.

Since the Institute of International Education in New York concerns itself with the interchange of college students and professors from all parts of the world, the committee requested the Institute's director, Dr. Stephen P. Duggan, to undertake the negotiations between the committee and the French University Administration. This met with a cordial response from France.

The French have selected for their first representative, Prof. J. Cavalier, rector of the University of Toulouse, and a well known authority on metallurgical chemistry, to come to America this fall and to divide his time during the ensuing academic year among the seven cooperating institutions.

It is hoped that the plan will work not only in a steady annual exchange of a professor, but also in the interchange of advanced students in en-

gineering and applied science between France and America.

Was Active as Engineer

Dr. Kennelly was born in Bombay, where his father was a professor in the university, in 1861 and received his education in the private schools of England and Scotland, with an honorary degree of Sc. D. from the University of Pittsburgh in 1895, and an A.M. from Harvard in 1906. His work in electricity was begun at the bottom, for he was a telegraph operator in England in 1876. Then he was assistant electrician at Malta in 1878 and in 1881 was chief electrician on a cable repairing steamer. He became senior ship's electrician for the Eastern Telegraph Cable Company in 1883. From 1887 to 1894 he was the principal electrical assistant to Thomas A. Edison. Then with Edwin J. Houston he formed a partnership as consulting electrical engineers at Philadelphia, which continued until 1901. The next year he went to Harvard as professor of electrical engineering and in 1914, under an agreement of cooperation with Harvard, he came to the Institute to devote part of his time to the same department. He is also director of research in the electrical engineering department. During the two years from 1917 to 1919 he was chairman of the Institute faculty.

Professor Kennelly was the engineer in charge of laying the Vera Cruz-Frontera-Campeche cables for the Mexican government and was president of the American Institute of Electrical Engineers from 1898 to 1900. He was awarded the Howard N. Potts gold medal by the Franklin Institute of Philadelphia for his invention of
