

REDEEM SENIOR WEEK BLANKET SIGNUPS

Single Tickets to Individual Events Go on Sale in Main Lobby Tomorrow for Last Time

TABLE RESERVATIONS AT POPS

In view of the large number of men who were disappointed in the sale of blanket ticket signups the Executive Committee of the Senior Week committee has decided to sell blanket tickets tomorrow for \$8.50 to take care of those on the waiting list and others who wish to get them. The tickets will be on sale tomorrow from 10 o'clock to 5 o'clock in the main lobby. At the same time the blanket signups sold last week will be redeemed for \$5.50.

Single tickets for all events of Senior Week except the Senior Prom and tea dance go on sale also for the first and only time. The prices of the various tickets are: Senior Dinner, \$1.00; Class Picnic at Pemberton, \$1.50; Tech Night at the Pops, \$1.15 per person. Table reservations at the Pops may be made for four, five, or six persons. This will be the last time that tickets for these affairs will be on sale; tickets for the tea dance only will be available at a later date.

AWARDS TONIGHT

M.I.T.A.A. Institutes New Custom at Dinner

At the M. I. T. A. A. meeting and dinner tonight numerals, letters, and other insignia will be awarded. This is the first of its kind at the Institute will be attended not only by members of the teams, and the managers, but also by all those interested in athletics. The big object of the getting together of all the forces of Technology's sports is to boost athletics and to get the cooperation that is needed to run the teams most efficiently.

Prominent alumni and athletes will speak, outlining next year's prospects on various lines, and also talking on the general aspects of the teams. The following men will receive numerals:

- Track—R. W. Ambach, G. Bawden, O. Baudes, T. W. Bossert, R. P. Boland, J. R. Carter, C. Y. Chittick, W. Corralle, C. G. Dandrow, H. W. Mer, Jr., C. D. Dippel, J. F. Downey, H. Ellms, W. B. Greenough, E. J. Kap, R. E. Hendrie, H. L. Houghton, A. Howlett, J. N. Johnstone, J. W. Mac, A. E. King, W. K. MacMahon, C. MacIntyre, E. A. Merrill, J. O. Nier, A. Mills, C. A. Newton, Tyson, F. H. Osborne, W. D. Pinkham, H. Plaisted, P. S. Rice, E. E. Sanborn, M. E. Sheldon, P. M. Stearns, C. Stone, L. S. Vadner, F. W. Walton, N. Webster, H. L. Spitz, S. Country—H. J. Burt, R. W. Denig, G. F. Holt, D. W. Howe, T. H. C. G. Reinhardt, R. E. Robertson, Spurdle, Sperry—G. F. Eaton, E. Hoshach, J. Kuehn, C. Kuhn, A. Lindsey, W. E. Moll, R. S. Smith, Basketball—T. F. Bundy, S. Cook, E. Davidson, D. R. Kennedy, R. E. Lewis, W. H. Levi, D. W. Murdock, J. Spaulding, Soccer—D. M. Ayles, F. A. Barrett, R. E. F. Fletch, C. R. Meyers, W. C. Scott, R. M. Simmons, F. Sperry, C. H. Wardwell, Swimming—W. E. Buerger, V. K. C. L. Dunn, D. Evans, J. H. Hendrick, A. J. Kemp, T. T. Oxnard, E. Philor, C. N. Thomas, Tennis—N. C. Blaisdell, P. S. Blamplid, Bueger, H. G. Campbell, G. P. Hall, W. Lund, R. S. Seddon, R. H. Starke, Stewart, C. S. Stodter.

The following men will receive letters:
O. L. Baudes, C. Y. Chittick, W. Downey, J. F. Downey, A. G. Hayes, J. R. Carter, W. S. Humphrey, J. MacNeil, R. E. Ferdinand, M. H. Haddell, C. D. Greene, O. H. Houghton, A. D. Addicks, C. F. Davis, F. T. Hazeltine, T. Richards, G. Butler, Jr., W. S. Humphrey, W. W. Bainbridge, W. W. Russell, Briggs, DuVernet, D. MacNeil, W. A. Taylor, E. F. Delaney, H. Nickle, A. Taylor, E. W. Vilett, J. Y. Ballard, C. A. Chase, G. E. J. J. Gray, S. Hall, M. C. Hawes.

(Continued on Page 4)

PHOSPHORUS TO MAKE LAST APPEARANCE NEXT MONDAY

Phosphorus will appear next Monday for the last time before curling up for an all-summer nap. A new plan is set for next year in that the first copy will appear the first week of the term. To prepare for this the material for this issue is being taken in until the close of this term.

DINNER AND SMOKER FOR THE TECH STAFF

All Departments Have a Get-Together in Faculty Dining Room Fool the Hoo Doo of Friday the 13th

FOUR SPEAKERS ARE HEARD

Discrediting once and for all that bewhiskered hoodoo of Friday the 13th THE TECH'S dinner and smoker on that date went off with never a hint of a mishap.

Realizing that the mind is always in the most receptive mood when the appeal of the inner man is satisfied, the dinner was the first event on the program. It was a good dinner, too, and the 60 men present, comprising the total staff of THE TECH, did full justice to it.

Ingram Lee Toastmaster

The dishes cleared away and the smokes passed around, each man pushed back his chair and prepared to listen. Then Ingram Lee '24, as toastmaster of the occasion, introduced the first speaker, General Manager Browning.

Browning, in his talk, emphasized the fact that THE TECH is an activity in which a man gets the position he deserves.

The next speaker, Prof. Rogers, refused to be present at the freshman banquet until assured that he would not be given an explosive cigar, but he later neglected this precaution on Friday, or else there was treachery in the committee.

"Disregard Truth"—Rogers

Prof. Rogers spoke on his experience in newspaper work with the Brooklyn "Eagle" and of his discovery that a news hound's chief asset is a total disregard for the truth.

The third speaker, "Hap" Peck '13, newly elected member of the Advisory Council on Student Publications, expressed his surprise at seeing such a large number of men interested in one activity.

Prof. Franklin was the last speaker of the evening and his subject as announced by Toastmaster Lee was, "The Magnifying Power of Alcohol." In the course of his talk, however, he took time to tell of the great value of co-operation quoting THE TECH as an example.

At the conclusion of the affair, a rising vote of thanks was tendered to the committee in charge: Ingram Lee '24, W. F. McMeans '23, G. I. Carpner '23, H. F. Cotter '23, W. A. Thomas '23, and E. W. Brugmann '24

FRESHMEN PARADE

Band Concert To Precede Closing Review of Year

The Institute authorities have excused freshmen from the last class Monday. The Fort Warren Coast Artillery band has been secured, and all details are arranged for the final review.

The exercises will start shortly after 4 o'clock with an inspection of companies. The men will not be held responsible for the condition of their rifles, but uniforms and shoes must be clean and all buttons buttoned. A parade is to follow the inspection.

About a half hour before the review there will be a band concert on Walker steps. There may be some other type of exhibition work if any time remains before the departure of the band at 5 o'clock.

This will be the last drill of the season, and all uniforms may be turned in after this time.

STUDENT SHOT IN FIGHT WITH BURGLAR IN ROOM

J. B. King Grapples and Nearly Downs Night Intruder, but is Wounded Seriously When Thug Pulls Gun

NO CLUE TO CRIMINAL

Shot severely in the shoulder and leg, J. B. King, of Washington, D. C., a graduate student at Technology is in a rather serious condition at the Cambridge Hospital. King was awakened early yesterday morning in his room at 48 Boylston street, Cambridge, where he lives with his brother, by hearing the footsteps of a man. He could make out the outline of the intruder, and jumped up and grappled with him. He was getting the best of the fight, when the burglar pulled a gun, and shot King, who fell to the floor in great pain. The burglar escaped through the window. King's brother was not at home at the time, but several students from the next room heard the shot and ran in. No trace of the burglar was found. King is a graduate of Princeton, and his brother is at Harvard.

CALIFORNIA CLUB DANCE WILL MARK END OF SEASON

It has been left to the California Club to give the last tea dance of the year. This will come May 21st. The dance is for the benefit of the French Reconstruction project and will probably be well supported.

This is the first dance under the new administration and they promise to make it just as interesting as the preceding ones have been. The usual features which accompany these dances are being planned. Tickets are \$1.50, dancing from three to six o'clock in main hall, Walker, and Bert Lowe's orchestra will furnish the music.

FIFTEEN MEMBERS RECEIVED INTO NEW SCARAB CHAPTER

Technology's newest professional fraternity began its career Thursday evening when a chapter of Scarab was formally installed in the department of Architecture. The installation was marked by an initiation and banquet at the Hotel Lenox, at which time fifteen architectural students became active members of the fraternity, and two members of the faculty were received into honorary membership.

Architecture has developed only recently as a field for fraternal activity. Scarab, founded in 1909, being the oldest of such organizations, and having chapters at the leading schools of the profession. The movement for a chapter of Scarab at Technology began over a year ago with the organization of a local fraternity, Cheops, formed for the purpose of eventually petitioning for membership. The petition was formally heard and granted at the convention of Scarab held in St. Louis in April.

Freshmen: Leave That Steam Shovel Alone

Truly it has been said that the real Builder, the real Worker is he who looks ever to the future, never resting on his laurels. It is the spirit of Technology. Who is there who did not when a child, scan the architects drawings of noble piles rising majestic and stately from green gardens, of vine covered dormitories and picturesque towers. But where are all these beauties? Gone? No! In the chaos of campus, in the destruction of the diamond, we see the wide vision of our Engineers. For every time we get our greenwards laid out, some brother steps to the fore and starts the improvements. So Don't give up hope, as you take the Water Jump low hurdle on the Walker Trail, and don't despise the skeleton-like structure of the Pratt Memorial. Look at the architects plans, and rejoice.

TECHNOLOGY BARELY TOPS DARTMOUTH IN CLOSE MEET

Institute Runners Spill Dope by Defeating Strong Green Team in Exciting Meet—220 Yard Dash Is Deciding Event

BEAVERS SHOW POWER IN TRACK EVENTS

One lone point was enough for the Technology track team to send the powerful Dartmouth combination down in defeat Saturday. The Institute runners upset all the dope by an unexpected show of speed, particularly in the sprints. Shelburne, the Green's star sprinter, was unable to keep up with the whirlwind finish of Ted Spitz and Ted Bossert and had to be contented with a third in what turned out to be the deciding event of the meet, the 220 yard dash.

PROMINENT SPEAKERS AT E. E. BANQUET TONIGHT

Officers for Next Year Will Be Announced at Gathering

Tonight, the Institute branch of the American Institute of Electrical Engineers holds its annual banquet in the north hall of Walker. The affair starts at 6 o'clock. About 125 are expected to attend. Speakers for the evening are Dr. Elihu Thompson of the General Electric Company and Mr. C. L. Edgar, president of the Boston Edison Company. Dr. Thomson spoke before the society last year and was very favorably received. He is an authority in the field of electrical engineering and well known to most of those who are acquainted with the industry. Mr. Edgar is another well known man in the electrical industry. He is equally well known around the Institute.

At the dinner, the officers of next year will be announced. These men were selected in the recent elections of the society.

Another attraction that should please is the fact that Frank D. Gage '22, will be there with his jazz orchestra. Tickets for the affair may be obtained at \$1.25 apiece in the main lobby or at the professional societies' office.

ANNOUNCE ELECTIONS AT CHEMICAL SOCIETY BANQUET

The Chemical Society finished its season with a banquet at the Riverbank Court Thursday evening. About 70 men were present and heard talks by Professor Talbot, Professor Lewis and Colonel Bradley Dewey, who was director of one of the Gas Defense divisions. Dr. Whitney sent a telegram saying that he had a severe cold and was unable to leave Schenectady. The results of the recent elections were announced at the dinner.

Compares 40 Years Ago and Today

Professor Talbot dwelt on the vast changes that had occurred since he attended the Institute. He compared the spirit of the men, and the equipment of the Institute when he first came here 40 years ago, and the similar conditions as they exist now. He contrasted the old Rogers and Walker Buildings with the new Institute structures and the opportunities that went with them.

Professor Talbot also laid stress upon the importance of the American Chemical Society, and the advantages that the graduates would secure by membership in it.

Col. Bradley discussed salesmanship as applied to chemists. He also emphasized the importance of paying attention to minor details that would be of benefit to the men. Dr. Lewis' topic was that of the spirit of the chemist. He stated his belief, that even though the chemists were called to varied and diversified fields there was great need of unity among them. He said that the chemists had just cause to be proud of their profession. He further elaborated on the changes in the Institute during the 20 years

(Continued on Page 4)

Those two places that Technology's crack sprinters won by a thrilling finish gave the Beavers the eight points they needed to turn an apparent defeat into a 59-58 victory. When the two Teds toed the mark at the start of the 220, they both knew that the meet depended on their performance in this last dash and they came through in wonderful style.

Spitz First in 100

In the trial heats of the century, Technology placed four men to two for the Green. Ted Spitz did his first heat in 10 and 1-5 seconds, which was remarkable time on a track that had been soaked by almost two days' rain. In the finals, Spitz and Ted Bossert fought it out all the way with Shelburne of Dartmouth but the dusky star could not follow Spitz' final sprint to the tape. He was high point winner for the Institute with two firsts to his credit. Bossert added another point to the total with a third.

Clean Sweep in 440

The quarter proved to be one of the most thrilling events of the afternoon. Ollie Baudes and Mich Bawden were satisfied to trail for most of the race. They both cut loose with strong final bursts of speed when they were almost in sight of the tape. In the last few yards, they broke away from the rest of the field and crossed the line practically abreast of each other. The judges gave Ollie Baudes the decision. A. D. Smith added another point to the Beaver's score by taking third.

The half was just as much of a clean-up for Technology as the 440 was. Mich Bawden used the same tactics in this run as he did in the quarter. It was not until after he rounded the last curve and started out on the final stretch to the tape

WHO'S WHO At Technology

The Rifle Club officers are:
President, G. E. Dean '22, Technology Dorms, Cambridge, Tel. Camb. 57077.
Vice President, L. J. Powers, Jr., 22, Fritz-Carlton Hotel, Boston, Tel. B. B. 2673.
Secretary, V. E. Whitman '22, 907 Mass. Ave., Cambridge.
Treasurer, S. I. Berger '23, 161 Bay State Road, Boston, Tel. B. B. 55549.
Manager, Sydney Hall '22, Technology Dorms, Cambridge, Tel. Camb. 57077.

CALENDAR

- Tuesday, May 17
5.00—Class Day Committee meeting, east lounge, Walker.
5.00—Varsity Club, faculty and alumni room, Walker.
6.00—M.I.T.A.A. banquet, Walker main hall.
6.00—Electrical Engineering Society banquet, north hall, Walker.
7.30—Chaunty Hall Club meeting, faculty dining room, Walker.
Wednesday, May 18
6.15—M.I.T. Employers' Benefit Association dinner, north hall, Walker.
Thursday, May 19
6.40—Cosmopolitan Club dinner, north hall, Walker.
7.30—Paolo Society meeting, grill room, Walker.
8.00—Menorah Society faculty dining room, Walker.

FINAL SALE OF SENIOR WEEK TICKETS WILL BE TOMORROW
