To Discuss Moral Phases of College Problems at Silver Bay Conference

The value and importance to the individual of the summer college is attested to by the fact that he can seek to face the moral and spiritual problems that confront the college man today, on the campus, in the community, and throughout the world. Recreation has not been precluded from the program of the Conference. Apple time will be given to sail games, aquatics, tennis and mountain climbing. The services of a competent physician will be available at all times. Excursion rates have been pro-cured, which means that the return trip will be at half rate. Already seven or eight have decided to attend and any other interested should communicate with members of the committee or with Wallace N. Ross at the T. C. A. office.
