The 1921 Benchmark is dedicated to Professor Arthur Graham Robbins, professor of Topographical Engineering at the Institute. Professor Robbins has shown unusual energy in working for the good of the Camp and it was felt by the men at the Camp that it was largely due to his guidance and much as had been so successful.

Fool’s Names and Fool’s Faces—Are Often Seen In the Public Places

Once more Technology is open for business. The Institute has graduated from the Course in Civil Engineering at the Massachusetts Institute of Technology—in 1886. Professor Robbins was graduated from the Course in Civil Engineering at the Massachusetts Institute of Technology.

The Flavor Lasts!

WELCOME ‘22, ‘23 and ‘24 and Greetings to 1925

It’s going to be a great year, here at the STUTE, and we are planning to do our part over in Walker by giving you better service than ever—better food you ever ate and plenty of it at moderate prices.

STOKE CAFERIA

We are all looking at the Institute as a place of opportunity—intellectual, moral, and spiritual opportunity. No one of those things we can afford to miss. Without regard to age we find ourselves constantly preparing for something, and the most incisive purpose of our preparation is for fuller, freer, and more inclusive purpose. This is due in a great measure to the fact that the Institute offers a comprehensive educational program and thus may well serve us as a useful supplement.

GREETING TO NEW STUDENTS

I am also going to take this opportunity which the compilers of this little book have generously given me to protest the denouncing technolog-

ey as a science. Restime myself a newcomer to ‘Tech.’ I am in a happy position to know how I feel. I very much hope that this book will prove as useful to you as it surely will to me and that you may find that Association which seems so friendly and congenial as I have.

I have looked through last year’s copy of the Technology Hand-

book and have been unable to find any propaganda or anything in it. It is just what it appears to be, a book compiled by unknown friends of ours to help you and me to an understanding appreciation of what the Institute has to offer us.

MUSICAL CLUBS PLAN

WILLIAM M. JENKINS

NEW CHORAL SOCIETY

Announce Fresman Competition for Business Departments

At the Institute after an extended trip through the middle west, R. C. Bannerdt, ’22, gen-
neral manager of the Combined Musical clubs, reports favorable progress on the piano for the Winter trip, which will be through northern New York States western, terminating at Chi-

cago. The approval of the general manager’s plans by the Advisory Council for the Musical Clubs clears the road for the completion of ar-

dancements. The schedule of the win-

ter tour will be announced in the near

future.

THE HOTTENTOT

Ture Dudley St. car, get off at Huntington Av.
