TECHNOLOGY BRANCH

GREETING TO NEW STUDENTS

I am glad to take this opportunity which the compilers of this little book have generously given us to greet the incoming Technology men. Being myself a newcomer to Tech, I am in a happy position to know how you feel. I very much hope this little book will prove as useful to you as it surely will be to me and that you may find the Association which issues it as friendly and congenial as I have found it.

I have looked through last year's copy of the Technology Handbook and have been unable to find any propaganda or ax grinding in it. It is just what it appears to be, a book compiled by unknown friends to help you and me in our understanding appreciation of what the Institute has to offer us.

We are all looking at the Institute as a place of cooperation—intellectual, moral, and spiritual opportunity. No one of these can we afford to miss. Without regard to age we find ourselves constantly preparing for something, and the most inclusive purpose of our prayers is for further, framer, and more inclusive purposes.

This book lists many chances not stressed in the Institute's propaganda or ax grinding. I hope this little book will give you an idea of the diversity of opportunities which is found here. For a copy of the Technology Handbook, write to the Annual Secretary, 1327 Memorial.

(As written for T. C. A. Handbook.)

PRATT MEMORIAL SCHOOL

The building contains 55 rooms of a power house, a fireproof laboratory, leading and ventilating room, machinery room, a large boiler and room and an instrument room. The museum and library of Naval Architecture and a large entrance hall are the important rooms on the first floor. The museum is in back of the main entrance, and the library with the book rooms surrounds the hall. On the second floor is a long room, used as a large room. The building is designed for rooms of various sizes.
