SPAU LDING-MOSS CO.
42 Franklin Street, Boston, Mass.

Just a Step from Washington Street
Branch Store, during opening of Tech. 60 Massachusetts Avenue, Cambridge Mass.

A Ball of Water.

Mr. W. C. Cripps, the naval architect, has built a vessel of 35-ton displacement, the most perfect of its kind. It is a small, perfectly streamlined craft, which can be steered by a single man. The hull is made of mahogany, and the propeller is a small, perfectly balanced one. The vessel is capable of making 15 knots, and has a range of 150 miles on a single charge of fuel.

THE TECH

William Clapp, the founder of the American Seamen's Society, died at his home on Thursday as a result of his long suffering. He had served as president of the society for many years.

Mr. Clapp was born in 1842, and had been connected with the sea for most of his life. He was a man of great ability, and had a deep interest in the welfare of seamen.

The society, which he founded, was one of the earliest in the country, and has done much to improve the lot of the sailor. Mr. Clapp was a man of great energy, and had a deep interest in the welfare of seamen.
