FIELD DAY ATHLETIC TEAMS HARD AT WORK

Both Classes Strive to Get an Edge. Early in Race

MANY STARS AMONG ASPIRANTS

Tech Field is a busy place with younger class athletes in a rush of preparation for the rapidly nearing Field Day. Trackmen, footballers, and crosstown runners are high in both camps. The Sophomores must add 15 men to the list engraved on the Field day cap. Freshmen are pitching in straight from the sideline, too, don't you think?

College Veterans

Both freshmen and sophomore field football squads put in a strenuous afternoon on Tech Field yesterday. The 24 squad was handled by Doc Woodford, three years on the Navy varsity, and Jack McShane of the Yale varsity who was also a member of the 25 field hockey team. The combined 23-21 team, record-breaking visitors last fall.

About 25 freshmen are practicing each afternoon with the intention of being in shape for the big day. A varsity Coral Axemen, captained by Alphonse Huckleback from Newton High School, and an A-Book Axemen, captained by John A. Seabury of the Class of 1924 are already well started. There are 25 men on a team. The first 15 are all freshmen and the number one on the four and B. A. G. Thorndike, Bernst and Wicken's are, two of the best known names on the field.

Prominent Horticulturist Out for Freshmen

Among the 60 freshmen who have reported for the crew to race on 1924 Paddy's 23 November 22, are two prominent men. The class of 1924 who reported were Francis H. Moir, who scored the state record in the 150 yard dash and number one on the four, and R. H. T. Bernst, roadside, who scored the second on the four.

Prominent Benjamins, Harvey, both of the Baseball Club, have two experienced men on the 24 baseball team. W. W. B. A. and E. E. A. A. are the two other teams on the varsity. There are two members of the class of 1925, Allee, chairman of this year's elections, and Allee, chairman of last year's elections on the baseball team.

The first 25 relays are scheduled for Tuesday and next Thursday the remainder of the 150 men are to form a heads-up opposition.

COMPLEXES FOR FIELD DAY

This year's autumn complexion on Tech Field is one of the most impressive sets furnished to date. There are several new grounds, which will be given a thorough going over by the rains, and the present features will be kept in condition by the Fellows supervised by Manager Dick Rusin.

There is a 25% increase and make the town average about the same as last year. This feeling of a strong effort being made to put all Tech on the same track.

The Sophomores and freshmen are doing a splendid job and all the Savings and freshmen are doing a splendid job and all the savings efforts will be need in the near future.

The Sophomore and freshmen teams are the only ones of the several teams furnished to date. There are several new grounds, which will be given a thorough going over by the rains, and the present features will be kept in condition by the Fellows supervised by Manager Dick Rusin.

The first 25 relays are scheduled for Tuesday and next Thursday the remainder of the 150 men are to form a heads-up opposition.
