

## CORPORATION ELECTS ANOTHER TREASURER

### Degrees Conferred in Civil Engineering Department

REGISTRATION IS 3535

At the regular quarterly meeting of the Technology corporation held Wednesday, Everett Morss resigned from the executive committee of the corporation and was elected treasurer of the Institute. Francis R. Hart, who has served as treasurer for twelve years, resigned from that position and was elected to the executive committee.

W. F. Wyeth resigned as assistant treasurer, and Henry C. Morss was elected to fill his place.

The report of registration given to the corporation showed a total of 3535 students enrolled at the Institute this year.

The following degrees were awarded to students in the department of civil engineering: Master of Science, X. H. Price of Boston; Bachelor of Science, C. F. Baish '21 of Boston, B. W. Bartlett '21 of Castine, Me., G. A. Counts '21 of Gilbert, Ariz., J. P. Dean '21 of Worcester, S. W. Gould '21 of Canton, Ohio, R. H. Green '21 of Wolfe City, Tex., L. B. Griffith '21 of Cambridge, J. R. Hardin '21 of Boston, L. H. Hewitt '21 of Boston, R. A. Hill '21 of New Orleans, L. G. Horowitz '21 of Passaic, N. J., I. C. Lawrence '21 of Los Angeles, H. B. Loper '21 of Oxford, Neb., F. W. Marlow '21 of Denver, K. M. Moore '21 of Boston, J. B. Newman, Jr., '21 of Washington, D. C., H. H. Pohl '21 of Alexandria, Va., Lemeul Pope '21 of Medford, W. J. Regan '21 of Gloucester, L. F. Rhodes '21 of Centralia, Wash., D. G. Shingler '21 of Boston, P. W. Smith '21 of Dorchester, T. D. Stamps '21 of Seguin, Tex., P. H. Timothy '21 of Boston, G. B. Troland '21 of Boston, L. D. Worsham '21 of Washington, D. C., and J. M. Young '21 of Stapleton, N. Y.

## ARTILLERY UNIT HOLDS SMOKER

### Men Who Attended Camp Will Tell Experiences

The Coast Artillery Unit of the Institute will hold an interesting and instructive smoker in the Faculty and Alumni room of Walker Memorial, Tuesday, October 25, at 7:30 o'clock. The speakers of the evening include C. E. Brokaw '22, P. D. Appel '22 and A. J. Browning '22, will give short talks on work and play at camp. It is also planned to have a prominent officer of the Coast Artillery Corp address those present on the status of the men in the Officers Reserve Corp.

**Student Body Invited**  
The smoker will be free and all students interested in this branch of the service are invited to attend. The committee in charge desires to place the camp proposition before the student body. Juniors are especially urged to come as the subject to be discussed is of great importance to those who plan to take further instruction in this field. The committee in charge are C. E. Brokaw '22, J. E. Salloway '22, T. H. Gill '22, A. J. Browning '22, and James Nesmith '22. Besides having cigarettes, doughnuts, crackers, and cheese, there will be the famous "Coast Artillery Cider" on tap. Refreshments will be served by a bevy of charming young ladies from neighboring colleges.

## COMOS APPOINT COMMITTEE

The officers of the Cosmopolitan Club met last Monday night at 5 o'clock and appointed an entertainment committee for the coming season. Countries from all parts of the world are represented on the committee. H. A. Miner, graduate student, was chosen as chairman. The following men make up the committee:

J. C. Bertino '23, Argentina; George Calingaert, Belgium; Guimaraes Atahnaika '22, Brazil; Howard Green '23, Canada; Pedro de Yurrita '23, Central America; L. F. Buch '24, Chile; Z. Z. Li '22, China; M. F. Ameza '24, Cuba; T. N. Berlage '22, England; W. P. Allis '23, France; G. J. Tzougros '23, Greece; H. H. A. Razack '23, India; Kohay Shoda '22, Japan; Arturo Ponce '22, Mexico; Finn Kuhnle '23, Norway; E. B. Ledesma '23, Philippines; L. A. Ferre '24, Porto Rico; Leo Shedlovsky '22, Russia; T. A. Subirana '22, Spain; T. B. Drew '23, United States; L. A. Artola '22, Uruguay.

## VOO DOO ON SALE TODAY

The first issue of Voo Doo will appear today. Copies will be on sale in the main lobby and at various other points in the building. The issue will be dedicated to the newly entered class of 1925, and men who have seen the copy say that it is well gotten up, full of original and clever material, and in every respect up to standard.

A drive for subscriptions is also being launched. Subscriptions will be for the eight issues of the year, and may be sent to any address in the United States or foreign countries at the regular price. No subscriptions will be taken from students to be sent to themselves or to their Boston or nearby residences. In addition to the present mailing list, subscriptions which are taken today and tomorrow will be promptly sent out, beginning with today's issue.

## REPRESENTATIVES OF '25 MEET

### Discuss Field Day Activities and Preparations

Section leaders of the freshman class met for the first time Tuesday to discuss the affairs of their class. C. C. Taylor, president of '23, is ex-officio head of the class and chairman of the committee which consists of twenty-five members, one elected by each freshman section. Sections 3, 19, 23 and 25 have not yet chosen their representatives. Taylor urges that they do so as soon as possible.

The first business, that of the T. C. A. campaign for funds and members, was brought up by C. A. Brantingham '23. He spoke of the things the T. C. A. does for the students, printing the "Technology Handbook," helping the new men find rooms, and carrying on the book exchange. There are no dues, and all money will be solicited in voluntary gifts. To become a member it is only required

(Continued on Page 4.)

## RADIO SOCIETY HOLD SMOKER

The M. I. T. Radio Society will hold a smoker in the Faculty dining room of the Walker Memorial on the night of Thursday, Oct. 27, at 8 o'clock. Refreshments, smokes, and speeches compose the program. All electrical engineering students are invited to attend.

The speaker of the occasion is to be Professor Vannevar Bush of the Electrical Engineering department. He is to discuss and demonstrate the new filamentless rectifier-tubes known as "S-tubes."

The radio station will be in operating condition within a week according to F. D. Webster '22. Communication will be carried on almost exclusively by C. W. this year, although a ten watt 'phone set is among the equipment. The plate current for the big transmitter will be taken directly from the power lines instead of from a small generator as formerly. This will increase the power of the station considerably.

The Radio Society is planning to conduct code classes for the benefit of its new members in order to enable them to obtain operators' licenses from the U. S. Government. A licensed operator will be on watch at the station every night.

## CORPORATION XV HAS MOVIE PROGRAM LAID OUT FOR YEAR

One of the features in the plans drawn up by the Board of Directors of Corporation XV for this year's activities is the showing of motion pictures of large industrial establishments. The first set of films will be shown this afternoon at 3 o'clock in room 5-330. They will cover the manufacture of cotton at the Amoskeag Mfg. Co., which is one of the largest textile mills in the country.

Announcement of further plans of the Corporation will be made at the meeting. For the convenience of any Course XV men who have not yet joined the Corporation this year, dues may be paid in room 1-180 from 12 o'clock to 2 o'clock today or at the door before the movies.

## HARVARD MEETS TECHNOLOGY

The Harvard and Technology cross-country teams will run at Belmont today. The start of the course is on Pleasant street at the public library. The freshmen will start at 4 o'clock and the Varsity at 4:10 o'clock. Men should report to the new high school instead of the old.

## CORRECTION

The tickets for Tech Night will go on sale next Friday, one week from today, and not this morning, as was previously announced.

## MEMBERSHIP DRIVE PROVES SUCCESSFUL

### Combined Professional Societies Now Have 1500 Members

CANVASSING TO CONTINUE

The reports of the Combined Professional Societies drive which ended yesterday indicate a substantial membership for the clubs for the coming year, according to R. W. Haskell '22, chairman of the drive committee.

Tabulation of the results of the combined drive while not yet all in seem to indicate that about a thousand men have joined a professional club while many more are expected to sign up later.

The Mechanicals, Chemicals and Civils have each obtained 200 members while the Electricals follow closely with about 175. Corporation XV has 150, the Mining 50 and Naval Archs 10.

### Open Headquarters Soon

According to the leaders, the unofficial canvassing for members will by no means cease. At an early meeting of the Executive Committee of the Combined Professional Societies an attempt will be made to establish an open headquarters in room 3-312. Here it is hoped, a member of some society will always be on hand to welcome any visitors or seekers after information. Through this it is expected that many men will be drawn to the headquarters and become interested in the work and sign up. About fifteen hundred men is the number set for the final goal of the Combined Professional Societies.

## R. O. T. C. UNIT GIVES SMOKER

The Engineering Unit of the R. O. T. C. will hold a smoker in the north hall of Walker Memorial, Wednesday, October 26, at 7:30 o'clock. Major Lanagan and Colonel Willing, who is Corps Engineer in charge of river and harbor fortification work in this area, will be the speakers of the evening. Besides the speeches and smokes there will be refreshments served.

## MUSICAL CLUBS WILL GIVE "TRIP CONCERT"

### Funds to be Used for Defraying Trip Expenses

ONE BIG CONCERT EACH TERM

Along with the arrangements for local concerts comes the announcement from the management of the Combined Musical Clubs that the "Trip Concert," given on a par with the Winter and the Spring Concerts, will come Friday, December 2, at the Hotel Somerset. The concert will be given to raise funds to meet the preliminary expenses of the prospective Christmas trip to Detroit and Chicago, and hence will be called the "Trip Concert." It establishes a new policy of giving a large concert for the Institute each term, as the Winter and the Spring Concerts will come at their usual times in January and during Junior week.

Under the coaching of Mr. G. L. Lansing of Boston, who has coached the Institute's Banjo and Mandolin Clubs at various times since the formation of the clubs, the candidates for these two clubs are receiving more training than in the past two years. The Glee Club is also fortunate in having as its coach, Mr. W. E. Weston of Boston. The Jazz Band practices regularly and the clubs will receive the training of a series of local concerts before the Trip Concert at the Somerset.

Although no definite plans have been completed, the music for the dancing will probably be by Bert Lowe with Sanborn and Jacobs and others of his best men. The party will last from 8 to 2 o'clock.

## T. E. N. TO START NEW POLICY

Starting with its next issue the T. E. N. will inaugurate a new policy in reporting all events pertaining to engineering professions outside the Institute which are likely to be of interest to either undergraduates or alumni. The first will be an account of the meeting of the National Safety Council which was held the last week in September. This council conducted the "Don't-Get-Hurt" week which just recently took place in New England.

There is still room for a few more candidates on the T. E. N. in practically every department, especially the publicity department. Those desiring to try out for the different positions are asked to meet the manager in the T. E. N. office on the ground floor of Walker Memorial, on Monday, October 24, at 5 o'clock.

## TECH SHOW COMPETITION BEGINS

William Searles '23, Publicity Manager of the Tech Show, says that open competition is now under way for positions on the executive department of the show. A meeting of the orchestra held Tuesday at 5 o'clock showed plenty of room for new men in the tryouts.

Definite assignments are being made to men already out. A merit system determines the selection of candidates to permanent executive positions on the board. The day for the Tech Show smoker, at which the author of the successful book will be announced, has not yet been set as the judges are still undecided. The field has been narrowed, however, to a number of excellent books any number of which can be staged with certain success.

## HOOVER PLEASSED WITH WORK ON CONFERENCE

The Unemployment Conference held in Washington under the auspices of Secretary Hoover of the Department of Commerce has adjourned after the appointment of a standing committee to carry on the work. According to a letter received by Professor Doten of the Engineering Administration Department, Mr. Hoover was pleased with the way in which the problems were approached, and the success which attended the efforts of the members. Reports of the conference are being published, and will be distributed by the Department of Commerce as soon as they are received.

## T. C. A. DRIVE ENDS SATURDAY

The different collectors in the T. C. A. campaign are asked to see all the men in their various sections by Saturday noon and turn in the money collected at that time. So far eighteen men have turned in \$425, there have been three gifts, one of \$50 and two of \$25. One collector brought in \$72.

## C. E. SOCIETY HOLDS SMOKER

The Civil Engineering Society held its first smoker of the year on last Tuesday evening in the north hall of Walker Memorial. About 150 members were present which also included a large representation from the class of '24.

Major Ottosen gave the principal talk of the evening on the subject of hydrographic survey work. In 1914 he was ordered to the Philippines to direct the surveying of Manila Bay and he told of the many interesting experiences which he had in this work, particularly in the laying of mines and the taking of soundings. In closing he urged the men to get a good command of English as he had found it to be of tremendous value in the engineering profession.

Professor Spofford spoke on the necessity of getting acquainted with people and also outlined the program of the society for the coming year. Professor gave an account of Camp Technology and the way in which the Institute's summer surveying camp is run.

## BOXING CANDIDATES MEET

All freshmen who desire to come out for the freshman boxing team will meet at the boxing room, Walker Memorial, tonight at 5 o'clock. Coach Bouteller will be present tonight and Tuesday to meet all candidates.

Per Coach Bouteller.

## CORPORATION STAND IN R. R. STRIKE IS MET WITH APPROVAL

### Institute Committee Votes to Stand Behind Any Meas- ures Which May Be Taken

WILL SEND MEN TO CONFERENCE

The Institute Committee in behalf of the student body, declared its hearty approval of the measures adopted by the corporation regarding the threatening railroad strike at the meeting yesterday afternoon. The Committee promised to give its support to any activities which the corporation might see fit to offer to the railroads in case a strike was declared.

At the time of the Boston telephone operators strike Technology men showed themselves in readiness to help maintain communications and were also of great assistance at the time the policemen struck. The members of the corporation think that men could be trained in a short time to operate the various railroad equipment.

The Committee also decided to send representatives to a miniature edition of the disarmament conference which is to be held at Princeton. The object of this conference is to acquaint college men with the aims of the disarmament conference and to stimulate interest in international affairs. W. B. Purinton '22 and D. F. Carpenter '22 will represent the Institute.

The T. E. N. was given permission to have a representative at the Institute Committee meetings. The T. E. N. also moved that the time limit which an activity must be in operation before gaining admission to the committee should be set at one and one half years and that the number of men out for competition should be changed from 100 to 50. A committee was also appointed to help in the Red Cross drive in November.

## INSTITUTE WARRIORS FACE STRONG TEAMS

### Field Day Elevens Stage Double- Header on Tech Field

The football double-header tomorrow afternoon at 2 o'clock on Tech Field promises a tough test for both freshmen and Sophomore elevens. Brown's second team is always strong and with several ineligible men of Varsity calibre on the squad will certainly make the crippled '24 outfit hustle. Tufts' freshmen team tied Groton last Saturday, 13-13, and tackles Technology '25 tomorrow.

Doc Woodruff's Sophomores put up a wonderful fight last week trimming Providence College Varsity, 6-0. An even harder tussle is looked for with Brown since '24 will be handicapped by the temporary loss of Shipley, Lehan and Ferguson. Captain Shipley can't be here and Benny Lehan is out of the game with a cracked shoulder. Harry Ferguson hasn't practiced all week due to the rough treatment Providence accorded his leg.

The scrappy '24 squad faces what is reported to be almost a varsity organization. Brown defeated Dean Academy 30-7 a week ago. Charles Phelps '24, manager, feels that his team isn't the only one facing a hard

(Continued on Page 3.)

## CALENDAR

Friday, October 21

4:00—Technology-Harvard Varsity and freshmen Cross-Country run, Old High School, Belmont  
5:00—Meeting of fraternity house managers in Room 10-200  
8:00—Dorm Dance, main hall, Walker

Saturday, October 22

2:00—1924 vs. Brown 2nd, Tech Field.  
1925 vs. Tufts '25, Tech Field  
7:30—Cosmopolitan Club Smoker, north hall, Walker  
Tuesday, October 25  
5:00—M. I. T. A. Meeting, faculty and alumni room, Walker  
Thursday, Oct. 27  
7:30—Radio Society Smoker, faculty dining room, Walker  
Friday, October 28  
8:00—Musical Clubs Dance, main hall, Walker
