Edwin S. Webster '38 has recently been appointed by Governor Comstock of Montana as a member of commission to study State administrative work and save money. The commission was recently approved by the legislature and was receiving suggestions for the reorganization of many of the State institutions. Webster was born at Stockbridge, Vt., on Nov. 30, 1906, and was graduated from Brown University in 1930 and from Harvard Law School in 1932. He is the son of Dr. and Mrs. J. L. Webster of Stockbridge, Vt.

Complete Airplane Study

Royal E. Wales '00, Dean of Engineering at the Rhode Island State College, recently returned to Providence from New York where he had been studying the problems of civil aviation. While in New York he met with the United States Bureau of Standards for the purpose of seeing the airplane for which he was giving a prize of $500. He is the author of many articles on the subject of aviation, and his book, "Principles of Airplane Engineering," has been highly acclaimed. He is the first American to make a successful transcontinental flight in a single-person airplane.

Aero Society Plans Trip

The Aeronautical Engineering Society has just announced its plans for the next two weeks, including a trip to the World's Fair and a visit to the Rockwell Aeronautical Laboratory.
