## BEAVER HOPES HIGH IN N. E. I. C. A. A. RUN

### Only Nine Colleges Entered in Annual Cross Country Run—Buker of Bates Strong Favorite

INSTITUTE TEAM STRONG

The Institute's chances for success in the N. E. I. C. A. A. Cross Country Run next Saturday loom up as bright as they did last year when the Beavers ran away with first place. As last year, Bates will present strong competition for the Institute harriers. Its squad will be led by Raymond Buker, who won individual honors in the run last year and whose chances for repeating are good.

This year only nine colleges are entered, compared with eleven last year. Besides Technology and Bates, New Hampshire State, Tufts, Williams, Boston College, Holy Cross, Colby and Massachusetts Agricultural College are entered. Tufts has a very well balanced team and should place well.

Her two stars, John and Joseph Doherty, will be contestants for individual honors. Both New Hampshire State and Williams have good teams this year and should finish near the top.

### Institute Enters Strong Team

Although the Institute has lost three of the five men who scored in the run last year, namely Captain MacMahon, Stone and Hennessy, yet in the opinion of Coach Kanaly his squad of harriers should be able to equal or better the performance of last year's team. Beaver entries are as follows: Captain E. E. Sanborn '22, A. L. Flanders '22, R. E. Hendrie '23, R. E. Robertson '24, L. H. Poor '24, W. W. Anderson '22, G. R. Holt '24.

Sanborn was out a major part of the season last year because of an injured leg. He is running in excellent form this year, however, and is expected to give Buker of Bates strong competition for first honors. Flanders and Hendrie both placed well in the run last year and are counted on to help keep the Beaver score low.

The run will start at 10:30 o'clock Saturday morning instead of at 2 o'clock as previously announced. Practically the same team will represent Technology in the I. C. A. A. A. Cross Country Run at Van Cortlandt Park, New York, on the morning of Monday, November 21.

### TO SUBLEASE—REASONABLE RATES

Suite of two rooms and private bath with shower, polished floors, fireplace, steam heat, continuous hot water, and maid service. In Drayton Hall, Harvard's Gold Coast Dormitory, for the remainder of the college year. Present leasee obliged to leave college. Apply to janitor on premises. Drayton Hall, 48 Boylston St., Cambridge. Near Harvard Square on way to Stadium.

**T**HOUSANDS of smokers have proved it—and now give the verdict to you—

Of all the other tobaccos NATURE has produced—none can approach the finest varieties of pure Turkish for cigarettes—None has the delicious FLAVOR of the finest Turkish—None gives the ENJOYMENT of the finest Turkish—None will SATISFY you as will the finest Turkish—

None but the highest grade and personally selected Turkish tobaccos is used in MURAD.

To enjoy 100% pure Turkish at its VERY BEST—to reach the PEAK of Cigarette Quality—you have but to smoke MURAD—

Try MURAD today and

"Judge for yourself—!"

# SIXTY SWIMMERS GREET COACH

## AQUATIC CANDIDATES FLOCK TO "Y" TANK

### Many Veterans Found Among Alec Sutherland's Squad

Nearly sixty would-be swimmers answered the call for candidates last Monday afternoon, and stormed the Boston "Y" tank at 5 o'clock. The practice was very preliminary, the men only swimming two or three lengths at the most, with some practice in starts.

Coach Alec Sutherland was present, very noticeable in his shirt sleeves as he walked up and down the tank correcting the form of the different men. He is a new man to the two younger classes but well known to the Juniors and Seniors whom he coached two years ago.

Many of last year's men were seen in the crowd which lined the walls of the tank. It was a relief to see one man of last season's relay back, E. C. Palmer '23, especially after the rumors that he was out for the season because of a recent illness. Bob Purinton was found at his usual station, around the diving board. He was taking charge of the divers until the coach was finished with the dash men. Jim Stalbird, another of last year's veterans, was showing his big Sophomore rival, John Henninger, that he was an old hand at the plunging game. Tubby Boyce, one of the old plungers, was on hand, too, but did not take any active part in the practice, due to the question there is over his being eligible for the team.

### Secure Candidate's Schedules

Every man present was asked to fill out a schedule card so that the management might have his address and telephone number if it was ever necessary. The men also filled in the classes that they had after 4 o'clock, and some system for practices will be worked out in co-operation with these schedules.

A permanent record card is being made up now, and will be put into use as soon as the men's times are being taken. The system is to record the times that the men make at the different practices on these cards, so that the progress of a candidate can be seen at a glance.

## DISAPPOINT BROWN BAGGERS BY NEW HONOR MARK RULING

The customary reports on the five weeks' work will be mailed out to first and second year students, Professor Walter Humphreys, the registrar, said today.

The reestablished mark of "H," for averages of 90 and above, will not be in vogue until the end of the first term. This is believed to be a sad blow to the Brown Baggers' Club as it is understood to be ready to announce its honor members for the mid-term.

## ANNUAL STAMP MILL TEST STARTS TODAY

### Regular Commercial Tests on Gold Ore from Canada

The annual stamp mill run for the senior class, Course 3, starts at 8 A. M. today and ends 2 A. M. tomorrow. This test is a regular commercial test on gold ore from Canada. The gold ore will first be stamped and amalgamated. The amalgam will then be retorted and the fine gold recovered. The ore is further concentrated to remove auriferous sulphides.

The class will be divided into three groups and each group will work six hours, thus making eighteen hours total shift. Each man shifts position every thirty minutes so that at the end of six hours he has occupied all twelve positions and has become familiar with all the machinery and operations.

### Actual Run Ends Thursday A. M.

The actual run will end Thursday at 2 A. M., but cleaning up, drying, weighing, and assaying for calculation of final report will be done by students individually so that this report will not be available for a week or ten days.

This test conforms to actual practical gold milling and past experience demonstrates that the Technology stamp mill gives results equal to those obtainable in regular mill processes.

### BEAUTY BEFORE SAFETY

Two hundred Haddonfield girls have been vaccinated on their legs just above the knee in connection with a campaign of smallpox prevention. Because of scars by vaccination, these New Jersey girls objected to being scratched on the arm, and the oldest doctor in the village was chosen to perform the operation.

## CANDIDATES RESPOND TO CALL FOR BOXING

(Continued from Page 1.)

should be done immediately as the entries for the tournaments close this Friday, and the preliminary bouts will begin Wednesday, November 16th. Men who have represented Technology in any extra-mural boxing bout will be ineligible for these tournaments thus giving all new candidates a chance to show their ability. All men interested in Boxing should sign up for these tournaments and all candidates for the teams who are eligible for the tournaments are expected to sign up unless they present some written excuse to Coach Boutelier of the management.

The work during the fall term will consist of the tournaments and training for the meets which will all be held during the winter term. Attractive schedules are being arranged for varsity and freshmen teams. The tentative schedule for the varsity is as follows: January 2, Boston University at home; Jan. 28th, Yale at New Haven; Feb. 11, Springfield at home; Feb. 18, U. of Penn. at home; Feb. 25, Navy at Annapolis. The freshmen will probably meet Andover and Yale freshmen at home and make a trip to meet St. Johns Military Academy at Syracuse, New York.

Any men wishing to compete for the three freshman manager's positions should report to Manager Nowell at the A. A. office at the above hours. The competition for managers has been running two weeks but men really interested should have no difficulty in making up any slight handicap.

## TECHNOLOGY MATRONS MEET

"The date of the first tea has been changed to Thursday, November 17. "ESTHER S. SCHELL, "Secretary-Treasurer."

## HOCKEY SEASON TO OPEN FIRST PART OF DECEMBER

### Five of Last Year's Team Return to Institute—H. D. Nickle '23 to Captain Squad

As yet the season's schedule for the hockey team is unsettled. Most of the Beaver games are played at the Arena so the winter schedule will be closely connected with the dates obtainable there. In all probability Harvard and Boston College will again have games with the Institute puck chasers, while negotiations are being carried on to arrange a match with one of the Canadian colleges.

This year's team, while weakened by the loss of Dan MacNeil '21, at center, will nevertheless present a formidable front. Captain H. D. Nickle '23, who played a stellar game at goal last year, will have four other regulars with which to form a nucleus Flint Taylor '23, and Charles Grant '23, will probably again cover the wing positions, while John DeVernet '22, and Neil MacNeil, two of last year's strong defence men, will again report for hockey.

The Arena rink will be opened after Thanksgiving, so team practice will be started by December 1. The first scheduled game will occur about the 10th of December although none has been definitely arranged for that date.
