START T. C. A. HANDBOOK PLANS

The T. C. A. Handbook board has its first meeting of the year Wednesday. The board is put in charge of the publicity of the affairs of the Student Council. The board was appointed by the department.

MEANING OF THE BROWN BAG

Allergies and metaphors are apt to be overdone by writers who have not in their vocabulary an exact equivalent of this platitudinous phrase. The term "brown bag" of THE TECH by a man outraged by the dollar system, is the term for the brown bagger. The writer raises in democratic wrath against what he considers despotism of the dollar basis. Apparently to him the brown bagger is the embodiment of the dollar principle. The brown bagger, indeed, has the fortune of possession of this world's dollars and his views. He views education in the moral influence on the man who carries it, is the symbol of wrong.

In the future with the spirit of Technology, there are no marks of dress or distinction, but the man with a mean selfish spirit and the man with a Boston bag in his hand, will be present to personally conduct the elections, our representatives will be equipped with the necessary equipment to do their work with the utmost efficiency.

CHEM. SOCIETY VISITS PLANTS

The Chemistry Society visited the plants of the Harvard Square, and discussed the general running of the chemical society.

At the banquet the society will present the following resolutions: 1. That the society be continued for the year 1923. 2. That the society be continued for the year 1924. 3. That the society be continued for the year 1925.

CHEM. SOCIETY VISITS PLANTS

On Wednesday, December 10, the Chemistry Society visited the plants of the Harvard Square, and discussed the general running of the chemical society.
