

HOLIDAY PRACTICE WILL BE HELD FOR GYM TEAM MEMBERS

Annapolis Meet Date Being Changed—Yale Conflict Called Off

ONLY HALF SQUAD WORKING

Coach Tischoff of the Gym team announces that practice will be held during the Christmas holidays for those who wish to receive private instruction and as far as he now knows will be held at the same hours as at present. If a sufficient number show up who are willing to train during the entire vacation, Tischoff will try to make it possible for the men to use the Boston "Y" gymnasium.

Annapolis is endeavoring to have the date of its meet with the Institute changed to a more convenient time for both teams. The contest pending with Yale has been definitely called off due to the inability to arrange a suitable date.

The men who are showing up consistently for practice are rounding in to form. To date, the following are doing exceptionally good work: George Anderson and Sam Caldwell on the mats. Bill Vicinus and Lloyd Littlefield on the horse, John McCoy and Max Ulbrich on the parallel bars, Way Bailey on the high horizontal, Nesmith Thompson and Hen Shea on the rings, and Joe Keenan with the Indian clubs. At the present time there are about 45 men in the squad and barely 50 per cent of this number appear for practice.

INSTITUTE EQUIPMENT PREPARED FOR WINTER

The Superintendent of Buildings and Power has announced several changes in the Institute equipment. The coal conveying apparatus recently installed at the Power House has been tested and approved. Installation was made by Steven Adams of Chicago. A continuous bucket-line with an apron feeder transfers the coal from the crusher room at the rate of twenty-five tons per hour.

King Winter will find the Institute prepared for snow. Two tractors, five and ten tons respectively, have been overhauled to drag plows. The latter is capable of drawing a ten-foot plow, V shape; the former will handle the sidewalk plow.

The railroad siding in back of the Power House has been repaired. Four hundred new ties were laid and the four-inch rails were replaced by five-inch ones in order to accommodate heavier cars.

BOXERS TO BATTLE MCGILL UNIVERSITY

Tentative Date Made—Matches with Army, Yale and Navy

TEAM NEEDS HEAVYWEIGHTS

For the first time in the history of boxing at the Institute the Beavers have scheduled a game with a team from outside the United States. Following the example set by hockey, Manager J. C. Nowell '23, has included on the boxing schedule a tentative date with McGill University from Montreal, Canada.

Beavers' Schedule Hard

The meet will take place here on January 28, coming the week before the clash with Army at West Point. Army has not been on the Engineers' list of opponents for several years. On February 10 there will be a home meet with Boston University, which should be interesting. The week after that the team will journey to New Haven to meet the Yale squad. Eli handed us a drubbing last year while the Beavers outclassed the Yale wrestling outfit the same evening. The Bulldog's best man, Eddie Eagan, will not box this year. He was Intercollegiate champion last year in the 175-pound class.

Want More Big Men

Last year the Engineers did not gain a single decision against the Naval Academy but with the material at Coach Boutellier's command he should be able to make the date of March 4 interesting if not memorable to readers of the Annapolis obituary column. Coach Boutellier has an abundance of material as far as the lighter weights are concerned, but the team is weak in exactly the same place as it was last year, the heavyweight division. The other classes are unusually well supplied but men are needed in the 175-pound and unlimited classes in order that an evenly balanced team can be turned out.

MATHEW BRUSH SPEAKS TO FACULTY ON MEN

Other Eminent Men in Discussion on Technology Education

M. C. Brush '01, was the principle speaker at the meeting of the Faculty held in 4-270 last Friday evening to discuss the question of widening the education given at Technology. Mr. Brush was in charge of the Hog Island shipyards during the war, where a ship was turned out every 26½ hours for one year.

"The biggest thing in the engineering world," said Mr. Brush, "is the handling of men. The technically trained student learns to think clearly and to stay with the task until it is finished, but he does not usually know how to handle men." To illustrate the relative importance of mechanical and human engineering, Mr. Brush said that he had not touched a slide rule, a log book, nor worked a calculus problem since leaving for Institute, but had been constantly in contact with men.

The duty of an engineer is to render service. There is now a greater demand for men of ability than ever before. Mr. Brush stated that for over a week that he has been looking in vain for a man who can fill a \$40,000 a year job.

According to Mr. Brush, the principle of success are physical and mental development, knowledge of men, squareness, and the qualities of a gentleman. It is also necessary to be a salesman, for each day one must sell himself to his inferiors, his superiors and to all his associates.

FEMININE EDITORS RULE BEAVER HUMOR
(Continued from Page 1.)

partments will be a Woopgaroo Society charm and a certificate of honorary membership to the organization. All successful contributors will receive a subscription for the coming year.

The next issue of Voo Doo will be the Newspaper number. This issue will lampoon several of the Boston daily journals. Material for this number must be in the hands of the Voo Doo editors by January 3, 1922. The Voo Doo board says that contributions should consist of burlesques on the more prominent of the columns and departments of these papers. A list of the papers which will be used is posted in the Voo Doo office, room 309, Walker.

BASKETBALL SCHEDULE

Dec. 22—Worcester Tech at Worcester.
Jan. 6—Clark University at Worcester.

Jan. 7—Massachusetts Agricultural College at Amherst.
Jan. 12—Tufts at M. I. T.
Jan. 14—Boston University at M. I. T.
Jan. 17—Harvard at Harvard.
Jan. 19—Brown at Providence.
Jan. 21—Yale at New Haven.
Jan. 26—Massachusetts Agricultural College at M. I. T.

Jan. 28—Open Date.
Feb. 1—N. H. State at M. I. T.
Feb. 3—Amherst at M. I. T.
Feb. 15—Williams at M. I. T.
Feb. 18—Brown at M. I. T.
Feb. 22—Open Date.
Feb. 25—Amherst at Amherst.
Mar. 1—Open Date.
Mar. 3—Harvard at M. I. T.

BASKETBALL OUTFIT FACES WORCESTER FIVE NEXT WEEK

Since Saturday is an open date the basketball team is having a clear week of practice in preparation for the game at Worcester a week from Thursday. Coach Allen was well pleased with the work of the varsity during its determined attack in the first quarter of the Northeastern game. The rest of the contest was not as encouraging. A good deal remains to be done, he says, before Cub Hubbard's quintet will be in shape to meet its opponents of next term and the Worcester game will give a good idea of the progress made during this week's workouts.

RECODIFY ATHLETIC ELIGIBILITY RULES
(Continued from Page 1)

amateur as defined in the current By-Laws of the I. C. A. A. A. A.

IV
No student shall represent the Institute who receives from any source whatever a pecuniary gain or emolument or a position of profit, direct or indirect, in order to render it possible for him to participate in Institute athletics.

V
No student shall be allowed to represent the Institute on any team participating in an activity in which an intercollegiate association exists and of which M. I. T. is a member, if he has violated the regulations of such association.

VI
No student shall represent the Institute in athletic sports for more than three years.
a. Competition on a freshman team in intercollegiate competition with other freshman teams shall not be counted in this total.
b. No student shall participate in competition as a freshman for more than one year.

VII
No student shall represent the Institute in any department of athletics who has previously represented any college or colleges for three years in any athletic department or departments.
a. If a student has competed for less than three years at another college as a member of one or more collegiate teams, the period of his eligibility at M. I. T. shall be correspondingly decreased, so that his total collegiate athletic activity shall cover a period of but three years.

VIII
No student shall take part in any athletic contest who has not received the formal permission of the Medical Department of M. I. T.
a. No student shall participate in any form of aquatic exercise until his ability to swim has been certified by the Medical Department of M. I. T.

IX
No student participating in Institute athletics shall represent any athletic club or association during the college year except under sanction of the Advisory Council.
X
No student shall represent M. I. T. in any extramural competition who has not completed at least one full academic year at the Institute as a student in good and regular standing.
Note: This rule shall not be interpreted to bar students from membership on freshman teams unless they have been matriculated previously as students in other institutions of collegiate rank.

XI
The basis for designating the class to which any man belongs during any term shall be determined by the total number of hours for that term according to the courses of study.

Special Rules
I
Organizations whose activities are limited entirely to intramural exhibitions or contests (Group II) shall be subject to no eligibility restrictions. They shall, however, conform to the foregoing rules regarding the submission of schedules and of the names of participants and of those concerning amateur status and medical examinations.

II
Organizations falling in Group III shall be governed rigidly by the General Rules with the following exception:
The freshman and Sophomore Field Day Teams shall not be required to observe the residence rule as applied to

migrant students, the extramural competitions being solely for the purpose of practice. After Field Day, all class organizations shall be subject to the General Rules.

III
The following special cases are defined by the Advisory Council:
(a) Special students shall be ineligible unless they are registered for three-fourths of the total number of hours for any given term and are to be in residence under the above minimum condition for a full academic year.
(b) Any student who is a candidate for the baccalaureate degree in science or architecture shall be governed by the General Rules. Adopted by a vote of six to one, the Secretary dissenting.
Note: For purposes of this classification, holders of the baccalaureate degree from M. I. T. shall be regarded ineligible.
(c) Candidates for advanced degrees shall be ineligible.
