COL. CHRISTIAN TAKES AIR SERVICE EXAMINATION

The new Technology Bridge was one of the advanced students discussed at the meeting of the Alumni Council in the Faculty Dining Room. Many plans were worked out by them, particularly the 25th of November, 1876, on the subject of the first Tuesday in September, 1876, on the subject of the 25th anniversary of the Institute. Col. Christian was one of the new bridge technicians who had been working on this bridge for some time. He was responsible for the design of the bridge, which is expected to be completed by the end of March. Col. Christian is an experienced engineer and has worked on several similar projects in the past. He is looking forward to see the bridge in operation.

O. D. STANTON, SWIMMING WITH TIGERS

Andover, Dec. 21, New York City, a wrestling match was held between Harvard and Columbia. The match was attended by a large number of students and faculty members. The match was marred by a number of controversies, including a dispute over the weight categories. The final score was 15-0 in favor of Columbia. The Columbia team was led by four All-Americans, including the captain of the varsity wrestling team.

H. W. BISHER REPRESENTS THE INSTITUTE AT BOSTON

Boston, Jan. 17, 1921, Miss Jessie Adams, a representative of the Institute, presented a paper on the subject of the history and development of the Institute to the National Educational Association in Boston. The presentation was well received and the audience was impressed by Miss Adams' knowledge and expertise on the topic. The presentation was part of the Institute's efforts to promote its research and educational programs. The Institute is proud to have Miss Adams representing it at this important event.

THE TECH Wishes Its Readers A Merry Christmas

The TECH, established in 1876, is a student-run newspaper that covers news and events at the Institute. It is published every Wednesday during the academic year. The newspaper provides a platform for students to express their views and opinions on various topics. The TECH is an important part of the Institute's academic and cultural life.
