The conference of meeting of professional societies proved popular on Friday night. Following short talks by the president of the Caribou Power Development, the members of the society on the campus were divided into groups, and the committee of the day was continued on an hour. The "Aero" was attended by a large crowd, and the discussion of the serious topic of the day was enjoyed by all.

The principal advantages of the various methods were illustrated by the genealogy of the railway system, enumerating the advantages of the electric railway, and the disadvantages of the electric trolley. The Aero Society plans to hold similar meetings every second Tuesday of the month.
