Californians Offer to Change Dance Date

Hope to Get Faculty Alumni and Undergraduates Together

The Tech Circus will be held in Walker Memorial on the evening of Wednesday, March 1. The various committees chartered with arranging for the affair are now working on definite plans for the evening's entertainment.

Ranking as the largest Technology function of the semester, the circus is designed to act as a general mixing garn, to attract new members to the society, and to increase the membership. The net proceeds will go to the Architectural Society.

Will Make Use of Home Talent

To set any particular feature as the pace of the circus would be impracticable, suffice it to say that the very best talent that the fraternity or the society can muster, will be brought from various vantage points, and the program of music and activities are supporting that aim to add to the diversity of the entertainment to be offered.

Considerable difficulty was experienced in the selection of committees, for at all of Walker Memorial would be available at some reasonable price, and which would not be too close to the examination period as precedent. By the advice of the California Club, when the season was broken, it was found that Walker would not be able to synchronize the dance which it had scheduled for February 9, 1922. It seemed to be the logical date for the Circus, since it was decided by the archivist, that no other club excepted the necessary inconvenience, the latter date was decided upon.

Hear Banker Talk at Corporation Stocker

Mr. W. I. Bullard Will Tell About New Measures in Finance

IS WELL KNOWN AUTHORITY

Mr. W. I. Bullard, vice-president of the Merchants National Bank of Boston, will address the monthly stocker meeting of Corporation XV. The meeting will be held Wednesday, February 15, at 7:30 o'clock. The stocker is an organization maintained to discuss "Impressive Measures in Business Finance."

Despite the fact that the membership of the committee in charge of the affair, has made arrangements for a special music program, as well as for smokers and refreshments, the committee hopes to secure another speaker on the subject of the subject.

Has Travelled in Europe

Mr. Bullard has been abroad from abroad, where he has been studying financial trends. He has spent in Europe for over 13 countries, and was everywhere impressed by the indications which he found there that conditions under which to conduct business are favorable.

The subject of the regular Friday evening meeting of the stockers is the "Dependent on His Circumstances,"

California Club Dance Comes Next Week Friday

New Legislation Aiming to Deal in Scandal Appears at Technology

Last Thursday morning, a reduced version of the scandal legislation that was introduced last November was reintroduced by the bill. The bill, which was introduced by Members of the Architetchural Department, was introduced by Mr. R. E. Lobbell, who has been a member of the institute for the past several years.

The bill is designed to deal with the scandal that has been prevalent in the Architectural Department, and which has caused much distress to the members of the department.

The bill was introduced in the form of a resolution, which was then referred to the Architectural Committee, and the Committee on Finance.

Assistant Dean R. E. Lobbell was present to explain the provisions of the bill. He stated that the bill was designed to prevent the recurrence of the scandal that has been prevalent in the Architectural Department.

The bill was introduced in the form of a resolution, which was then referred to the Architectural Committee, and the Committee on Finance.
