A LONG ROAD TO CLIMB

BEQUEATHED a most satisfactory and creditable past by its predecessors, and with nought but the future to trouble it, Volume XLII comes into existence.

What the future will hold in store for THE TECH it is impossible to say. However, as the official news organ of Technology, we hope to play our part in the coming year in helping to build up an even greater Technology and an even greater spirit of co-operation and co-ordination between the activities and the students themselves. In the columns of THE TECH we will attempt to depict all Institute news in its true light. Our editorials will deal for the most part with those questions of special importance to college men, and particularly to Technology men. In them we will endeavor to take a firm but unbiased stand.

We hope that the communication column will be of greater significance and importance to the undergraduates than it has hitherto been. In it lies a potential power for every student of being able to place his opinions before the Institute. It is a column that will not hesitate to print contributions which have a sincere purpose behind them.

THE TECH belongs to the undergraduates in the strictest sense of the word, and on their support depends its success or failure. That Volume XLII may be worthy of this support is our fervent wish, for we believe that with the co-operation of the student body we may modestly predict a year of great progress for both Technology and THE TECH.

ELEVEN O'CLOCK AND REGISTRATION

AN excellent bit of foresight on the part of the Administrative Committee was brought into evidence when classes started at eleven o'clock on Monday, the first day of the third term. Heretofore at the beginning of a term classes have been scheduled to start at nine o'clock promptly. Many and diverse have been the causes which delayed students and kept them from attending classes until eleven o'clock or later.

There have been the long lines in front of the Registrar's and Bursar's offices which have kept many waiting. Crowded conditions in the Information Office, and changes in hours and schedules have held up others. Many students have had to cut classes in order to look up heads of departments to approve their registration or to make necessary changes.

Still others have spent the week at home or with relatives and friends in other cities and have arrived in Boston on early morning trains, dead tired and in no condition for rushing to classes at nine o'clock. The extra two hour respite which the committee allowed Monday helped a great deal to relieve these conditions. Registration went on smoothly, interdepartmental business was greatly facilitated, enough time was granted for lateness of trains and weariness of soul, and best of all, both Faculty and students were highly satisfied with the innovation.

Feminine VooDoo Shows Versatility

BY C. W. PIPKIN
Department of English

The most tragic thing in the humor of woman is its infinite variety. Where this dominant quality is lacking in her versatile efforts toward the sensuous and felicitous field of humor she must acknowledge failure.

It is a matter of real concern to us that any man should attempt to estimate and who have most fully interpreted her have said nothing about the way in which a woman's happier grace of saying nothing tenderly—her supreme effort at humor—has affected other men. It is a sad story, pity 'tis, tis true, that the mind of the more dangerous of the species does not allow her moods of lighter vein to be impersonal. And I must be cruel only to be kind.

That is the outstanding defect in any role that woman dares follow, and it is not surprising that the Girls Number of Voo Doo should not be exempt from this curse of femininity. I may be cursed by Vassar, scorned by Bryn Mawr and denied admittance at Wellesley, but I must believe that the present issue of VooDoo confirms the wicked belief of the male that Man is the glory and wonder of this universe to woman, at least to those who wrote for the de-sexed VooDoo.

Cleo who burns incense to "disguise a multitude of cigarette smoke" tells us that in "The Seven Wonders of Wellesley." And my friend Cleo—when shall we meet?—proclaims in "Protestation" that the chief claim of woman's impertinent immorality is that "she's good enough for you." We admit it. I am thoroughly convinced that with her incense, her gin-pur-fumed hankies and hangovers, her potent necking and her Back Bay capacity for cocktails, the audacious Flapper is a better man than I am with her Gin. But I hereby challenge Cleo and "Miss C. S." to a hot game of craps, which might be "intriguing," especially if they bring along all the gin that our superior sex insinuates the girls know all about. Let's see things in their proper light, girls.

Should we object to the chief end and glory of woman's humor being her love for man and his company? Even the sustained and pure passion of the sonnets of "Miss R. B." are subtly convincing that we are necessary evils in—why, say, in their poetic enjoyment. But we shall leave the "Love Love for all its swift intensity, its fire and fragrance"—we leave that sadly with "Miss R. B." "Inviolate."

I shall say nothing of morals. Our friend Daybert can see me personally. Humor has no sex, and should have no morality, at least none that should cause "Miss V. A. O." and "Miss R. B." any qualms of uneasiness for teaching us such naughty things. But all through life we shall go with the intimate possession of the secrets which the Girls Number of VooDoo gave to us. And we shall know that The Beautiful And The Dumb have more in their philosophy than we dreamed, Cleo.

But courage, Mates, all their keenness has been taught them by us,—by you, rather,—and we can only be surprised because they learned too wisely and not well. Let us here high-

ly resolve that all we have taught them shall not have been taught in vain.
This number is an exercise and meditation in diversion from the pious front cover by Peg to the last bit of sweet naughtiness of our frolicsome pals of the co-ed underworld, and with a heart o'er full of "pure and wholesome" (just like that famous flour from the middle west) masculine adoration I say, "God bless this year's crop of Sweet Girl Graduates." Selah!

MEDICAL DEPARTMENT HAS TAKEN CARE OF 5200

Since the opening of the second term, the Medical Department has been called upon to treat more than 5200 cases. This large number is due to a great extent to the unusual climatic conditions to which we have been subjected, and it is interesting to note that the majority of the cases have been of the type usually caused by inclement weather.

From January 1 to date, there have been 5218 cases treated. Of this number, about 1700 were diseases of the respiratory tract, such as colds, grippe and influenza. There have been about 30 accidents, 25 hospital cases, and 6 fractures.

NOTICES FOR UNDERGRADUATES

OFFICIAL

On the General Bulletin the room assignments for General Studies for a former term were accidentally reprinted. The present room assignments, which are correctly noted on the Tabular View, are printed below. This list contains the General Studies that have been added since the printing of the Tabular View.

- E57 Engineering Publicity, Prof. Robinson 2-282
- E53 American Literature, Prof. Rogers 2-282
- E54 Contemporary European Literature, Prof. Rogers 2-142
- H53 Industrial History of United States, Dr. Faulkner 2-278
- E59 Advanced English Composition, Mr. Copithorne 2-290
- E55 Committee Reports and Discussion, Prof. Pearson 1-146
- Ec62 Business and Patent Law, Mr. Hausermann 1-150
- Doten 4-370
- 1254 Organic Evolution, Prof. Shimer 4-231
- 756 Sanitary Science and Public Health, Prof. Prescott 4-420
- 805 Sound and Music, Dr. Barss 8-319
- 380 Metallurgy, Prof. Cavalier 2-390
- E71 Fine Arts in Modern Life, Prof. Seaver 2-190
- E66 Development of Music, Mr. Roberts 2-132
- 2-139
- 2-146

The subjects of the Course of Free Public Lectures in the Lowell Institute, founded by John Lowell, Jr., in 1836, and opened to the public in 1839, has been announced:
"Progress in Religion in the Greek World to the Christian Era," by T. R. Glover, Fellow of St. John's College and Public Orator in the University of Cambridge, England.

1. Early Man and His Environment. March 23 (Thursday).
2. Homer. March 25 (Saturday).
3. The Beginnings of Greek Criticism. March 27 (Monday).
4. The Great Century of Greece. March 30 (Thursday).
5. Plato. April 1 (Saturday).
6. After Alexander. April 3 (Monday).
7. The Stoics. April 6 (Thursday).
8. Gods of the Orient. April 8 (Saturday).

To be given in Huntington Hall, 491 Boylston Street. Doors opened at 7.30 o'clock, but closed at 8 o'clock, and throughout each lecture.
Tickets for the course may be secured, free of charge, by applying by mail to the curator of the Lowell Institute, 491 Boylston Street, Boston, and enclosing one stamped, addressed envelope for each ticket desired.

E54: European Literature (General Study): This course will be given, if enough men elect it, at hours to suit the students' schedules. Leave third term tabular view cards in 2-275 at once. Watch my door for notice of first meeting. R. E. Rogers.

UNDERGRADUATE

Night Editor in Charge of the next issue of THE TECH is E. S. Gray '24, tel. Saugus 1775-W. All matters pertaining to the issue should be referred to him.
