

## MUCH NEED OF MORE ROOM FOR PUBLICATIONS

Hope to Commence Building  
in Four or Five Years  
From Now

LOCATION HAS NOT  
YET BEEN DECIDED

Will Be Two-Story Structure  
Containing Offices and  
Large Lounge

Although the Publications Building project has been discussed for several years, the first report as to the actual possibilities of such a building has just been submitted. This report considers all phases and desirabilities as to location, design, and financing. The scattered and cramped quarters of the four publications now in Walker Memorial is a distinct hindrance to the efficiency, economy and morale of the men on the organizations. This has a decided influence on the products of these organizations and thus upon the student body as a whole, states the report of the investigators.

### Three Locations Possible

The exact details of the building have not been arranged as the location is indefinite. However, the building is to consist of two stories and a basement. In the basement it is planned to have THE TECH news room, a receiving and mailing room and a press room. The first floor will hold the business and editorial offices of THE TECH, offices of the Voo Doo and those of the T. E. N. Upon the second floor will be the Technique office, which is used only part of the year to a great extent, and the lounge and committee rooms. There were three locations which the report states as feasible positions for the building, two of which were outside of Institute property, the third being on the extreme end of the campus.

### Have Large Common Room

Included in the plans of the building is a large common room on the front of the second floor. It is planned that here will center the social life of the publications. In this room will be kept their records and trophies. The room itself will be high studded and well decorated. The furnishings are to be of the best.

The report states that this room and its meaning will go far towards promoting the spirit of co-operation that is now almost unknown. The spirit of unity would naturally grow among the organizations and this would have a marked influence on the

## SELL 25 MORE SIGNUPS FOR THE JUNIOR PROM

All Arrangements Will Be Made  
April 4 and 5 in  
the Lobby

The number of Junior Prom sign-ups which have been sold to date amount to 500. There will be 25 more put on sale for the benefit of the men who are in such a position that it is absolutely necessary for them to go to the prom. This applies especially to those men who have engagements to go, and have been unable to obtain a sign-up. There are some names on the waiting list which will be filled in this manner.

The sign-ups will be redeemed on April 4 and 5 from 12 until 2 o'clock in the main lobby. Seating arrangements will be made at this time. There are engraved invitations for those who hold sign-ups, these will be given the men at the redemption of the latter. The tables hold five couples, and all parties of two or more couples desiring seats together will be arranged  
(Continued on Page 3.)

## PROFESSOR DELLENBAUGH WILL TALK TO RADIOS

The Radio Society is to hold a smoker tomorrow night at 8 o'clock in north hall. Professor F. S. Dellenbaugh of the Electrical Engineering Department will give a talk on "Filters." Radio Society members will be admitted free. Refreshments will be served.

### BE AN OWL

THE OWL still has room for a few more candidates for publicity work on THE TECH. Successful completion of ten posters will make any man eligible for election to the staff. Report to Cage No. 3, Walker, at once.

## TELEPHONE COMPANY TO EMPLOY 700 GRADUATES

Prof. Wickenden Will Give  
Illustrated Lecture  
This Friday

The American Telephone and Telegraph Company expects to arrange for the services of about 700 college men of the class of 1922, and among these are wanted a large percentage of men from the Institute. Professor W. E. Wickenden of the Company who is in charge of the recruiting program is interested in men from the following courses in the order given: VI, XIV, VII, II, XV, IX-B, I, XIII.

### Conferences in Room 10-200

Professor Wickenden and six of his associates, executives of the American Telephone and Telegraph and allied companies, are to be at the Institute April 3, 4 and 5, and also the following two days if necessary. Room 10-200 will be their headquarters, and more space will also be provided if necessary.

There will be an illustrated talk by Professor Wickenden on the opportunities offered in telephone work. Room 10-250 is being reserved for Friday, March 31, for this lecture.

Ample opportunities for conference will be given to all students who wish information on this branch of work, and who wish to meet Professor Wickenden.

## LARGE ATTENDANCE AT FACULTY DINNER

Interesting Speeches at First  
Meeting of Faculty and  
Alumni Council

### TESTS GIVEN GUESTS

The Faculty Club and the Alumni Council held a joint meeting on Monday evening, following a dinner at which most of the members were present. There were also members of the faculty of several other colleges so that altogether there were about 100 in attendance.

Shortly after the dinner the Chairman, Professor Tyler, introduced the subject, "The Use of Psychological Tests," and the first speaker, Mr. Henry T. Moore, Professor of Psychology at Dartmouth College. Professor Moore began by outlining briefly the history of the use of such tests, and then spoke at length about their present uses and future outlook. Throughout his speech, Professor Moore gave many examples taken from the experiments made at Dartmouth with remarkable success. The Dartmouth freshmen are classified by the use of these "mental alertness tests" and it is found that many things in connection with their marks are thus explained.

### Tests Made During Talk

During this talk, a test similar to the one used at Dartmouth was given to those present, and the papers given to Professor Moore. Late in the evening he announced the astonishing fact that all the papers he had been able to look over were better than the average made by the usual freshmen at Dartmouth. The latter part of his talk was taken up with the uses of such tests in industry and as a test for fitness for position. He expressed the belief that a general "alertness" test was better than one more specialized, regardless of the subject.

### Results at Harvard

The next speaker was Dean Wallace B. Donham, of the Harvard School of Business Administration. His talk was concerned mainly with the results obtained from the use of these tests among the students under him. Pamphlets were distributed which contained charts made from these results, and showed the remarkable correlation which exists between the re-

## TICKETS FOR SPRING CONCERT MONDAY

Seats and Preliminary Dance  
Orders Will Be Issued  
—No Signups

### JAZZ BAND WILL PLAY

Tickets for the Spring Concert of the Musical Clubs will go on sale in the main lobby, Monday, at 12 o'clock. There will be no signups, the tickets for actual admission, including the seat reservations and preliminary dance orders, being sold at this time. The price of the tickets will be \$6 per couple. They will be sold in groups, and any number may be obtained by anyone. However, the total number sold will be limited so as to avoid overcrowding the hall. The concert will be held at the Somerset on the evening of Monday, April 17.

### Intermission After Fifth Dance

There will be a short concert of about an hour, and it will be followed by dancing until 3 o'clock. There will be 15 numbers on the dance order, and the intermission for supper will follow the fifth dance. The dancing will be broken up by many novelty features, and the management is making plans to stage the entire affair in a unique way. A new system of looking up partners will be incorporated.

The music for the dancing will be furnished by the Technology Musical Clubs Jazz Band. This band played at many of the concerts on the Winter Trip, and everywhere received a hearty ovation. Since the trip the Jazz Band has played at a number of local concerts and dances. Last Saturday it played at the Dorm Dance in competition with Bert Lowe, and indeed made a very creditable showing, as was evidenced by the reception it received.

## SOPHOMORE DANCERS TO HEAR TED LEWIS

The committee for the Sophomore dance says that Walter Johnson himself will be there to keep his men going during the 15 dances scheduled. There will be two saxophones, a cornet, a trombone, a violin and traps by way of music. Intermission is to come after the seventh dance.

Ted Lewis is expected to appear about 10:30 o'clock accompanied by Joe Brown who is not going to perform but who is coming to watch Ted, who will give some of the regular Follies entertainment.

The chaperones for the dance will be Mrs. H. P. Talbot, Mrs. R. C. MacLaurin, Mrs. E. F. Miller, Mrs. L. M. Passano, and Mrs. E. W. Rollins. Tickets are going on sale today and tomorrow from 12 to 2 o'clock in the main lobby.

## PRESS ASSOCIATION STARTS COMPETITION

Plans to Supply News to Home  
Papers of Men at  
Institute

An outline of the organization and methods of the new Technology Press Association was given by K. R. Sutherland '22, to some 40 men interested in the work, in the West Lounge yesterday evening.

The competition, which will start Monday, will be open to all men of the three lower classes, and will last for seven weeks. A temporary staff has been appointed to take care of the departments for this time.

### Write News Letter

The work of the association will include the notification of the home papers when any Technology man receives distinction of any kind, the issuing of News Letters to the various papers, writing of special articles of interest, and the supplying of college papers with detailed writeups regarding the Institute teams.

The actual work of the candidates will consist in obtaining information and writing stories and will be very similar to that of a newsman on THE TECH. It was pointed out that the Publicity Manager of the Institute would continue to take care of all major news stories, but that the Press Association would be able to secure newspaper space for minor articles which would not otherwise appear.

### T. C. A. ELECTION DATE POSTPONED

The elections of the Technology Christian Association which had been scheduled for tomorrow have been postponed until Friday of this week. A complete new cabinet will be named.

## VOO DOO STARTS TRUST FUND FOR PUBLICATIONS

Newsdealers Still Calling for  
Copies of Girls'  
Number

At the last meeting of the managing board of Voo Doo a trust fund was established, to be deposited with the Advisory Council on Publications. This is the first fund ever established by Voo Doo, and is the result of the most successful financial year in the history of the publication, which now actively enters the fight for a publications building.

The fund will be at the disposal of the Advisory Council on Publications, subject to the approval of Voo Doo. A part of the fund will probably be used to refurbish the Voo Doo office in the near future.

The Prom Number is now well under way. The cover will carry a striking design by W. B. Elmer who, with the rest of the staff, has fully recovered from the rout at the hands of the feminine jesters.

Calls for the Girls' Number are still coming in, but cannot be filled. When the Institute comic was first introduced at Atlantic City last month, the newsdealers were cleaned out at the end of the first day. Orders for a new supply were sent in but, unfortunately, could not be filled. It is estimated by the staff that an additional 1500 copies could have been sold if they had been available.

## TRAINING FOR TRACK TEAM IN FULL SWING

Varsity Working Hard with  
Harvard Meet as Goal  
of Season

### CAPT. CHITTICK HOPEFUL

With the second week of spring practice more than two hundred Beaver track candidates have settled down to a steady routine in preparation for the coming meets. Saturday's workouts last week were not particularly stiff, as the men had not been out long enough to permit it but this Saturday will see the first fast work of the season. The Saturday practice periods are by far the most important as they constitute the windup of the week's training.

### Inoculations Hinder Track Work

A number of the candidates who are going to the R. O. T. C. camps this summer are being inoculated against typhoid on Saturday afternoons at present and thus are unfitted for work. Coach Kanaly is making special arrangements for these men and will move up their assignments to Friday, which is the usual rest day for the squad. For the great majority of the men, however, Saturday continues the big day in the training schedule and attendance is required of them.

### Varsity Keeps Eye on Harvard

As Coach Kanaly said in the annual track meeting at the start of the season, the Harvard dual meet on May 6 is the goal of the training at present. The meet is to be held on the Engineers' home grounds at Tech Field so that there should be no danger of the "stage fright" which hurt some of the Institute athletes in their contests in the stadium last year. The veterans know that the crimson has lost some of its best men and there is a chance of coming through with a win this year and they are working hard to that end.

### Captain Chittick Is Hopeful

When asked what he thought about the Beaver chances this year, Captain Yard Chittick said: "The big thing this season is to beat Harvard. If we can do that—and we have at least a fighting chance—we should be able to come through in the New England Intercollegiate as well. The Penn  
(Continued on Page 3.)

## PLANS FOR SENIOR WEEK ARE OUTLINED BY THE COMMITTEE

Program Includes Picnic and  
All-Technology  
Pops Night

REPORTS MUST BE SUB-  
MITTED EACH FRIDAY

Baccalaureate Sermon Will  
Be June 11—Place Not  
Yet Decided

The final program for this year's Senior week has been drawn up. The standing committees have made their reports and the Class Day Executive Committee announces that the following dates have been definitely set:

Tuesday, June 6—Picnic at Pemberton.

Wednesday, June 7—Afternoon, Tea Dance. Evening—Pops Night.

Thursday, June 8—Senior Dinner.

Friday, June 9—Senior Prom.

Saturday, June 10—Class Day.

Sunday, June 11—Baccalaureate Sermon.

Monday, June 12—Commencement exercises.

Picnic Will Be Held at Pemberton

The week starts with the Senior picnic which will be held at Pemberton this year. On the afternoon of Wednesday, June 7, there will be a Tea Dance. Following this dance in the evening Pops Night will be held at Symphony Hall. In the latter event, the alumni are acting with the Senior Class in an endeavor to make this another All-Technology affair, and if present plans are carried out all the seats will be sold to Technology men.

The Senior Dinner will be held on the evening of Thursday, June 8, in Walker Memorial, and the committee plans to have a prominent speaker attend the function, along with the other speakers of the evening. The Senior Prom will be held the following evening. Saturday, June 10, will be Class Day and the annual frolic of the Senior Class.

Commencement on the Twelfth

The Baccalaureate Sermon will be given Sunday, June 11. No definite announcement has been made concerning the place in which the sermon will be given or the clergyman who will officiate. The week will end with Commencement exercises to be held Monday, June 12.

It is requested that all committees make a formal report every Friday. These reports are to be turned in at the Budget Committee office on the second floor of Walker.

## OPEN TENNIS SEASON WITH MEETING FRIDAY

Elimination Tournaments Will  
Settle Places on Varsity  
and Frosh Teams

A call for tennis candidates has been issued. The gathering at which this season's tennis prospects will be discussed will be held Friday at 5 o'clock in room 10-275. Candidates for both the varsity and freshman teams are welcomed to this meeting. Freshmen interested in the position of freshman assistant manager are also looked for and at this meeting those desiring to fill the vacancy will be given an opportunity to hand in their names.

Eliminations Due Soon  
Graduation of several members of last year's team has left vacancies  
(Continued on Page 4.)

## CALENDAR

Friday, March 31  
7:00—Intercollegiate Gymnasium Meet, gymnasium.  
7:30—Electrical Engineering Society smoker, north hall.  
8:00—Sophomore Hop, main hall.  
Saturday, April 1  
7:00—Tea dance, main hall.  
Thursday, April 6  
7:30—Chemical Society smoker, north hall.  
Friday, April 7  
8:00—R. O. T. C. Engineers dance, north hall.  
Saturday, April 29  
7:00—Chinese Club meeting, main hall.  
8:00—Lutheran Club dance, north hall.
