otherwise occur if more than one party is to be accommodated. Any individuals or organizations who desire to sit together, need thus only have a man in line to obtain tables for themselves, no preliminary arrangements being necessary.

The tables will be assigned in the order in which the sign-ups are redeemed. The remaining \$6 for the ticket is to be paid with the presentation of a sign-up and to obtain an engraved invitation. Tickets for chaparrones will be on sale at the time the sign-ups are redeemed, and they will cost \$5 apiece.

All men who find that they are unable to redeem their sign-ups are requested to communicate with any member of the committee, in order that the committee may arrange for the disposal of these to men on the waiting list.

MUCH NEED OF MORE ROOM FOR PUBLICATIONS
 (Continued from Page 1)

publications. At present in Walker, according to the report, there is little in common between the men on the various publications. The combined staffs of the various organizations in view of farther growth would easily total over 200 men.

Committee Rooms Planned
 Another of the considerations of the report is the committee rooms proposed on the second floor. Now the committees of the organizations have no regular place of meeting and the meeting places of the societies connected with the publications are scattered and are never in the same place twice in succession. Besides these, the offices themselves are greatly needed, as the art, advertising, business and editorial departments are now in the same room and sometimes at the same desks. The mailing is at present done separately by the publications and in the new building would be combined.

The report has been prepared by members of Mr. Prescott's third year report writing class. The final report was submitted by Charles H. Toll '23, and M. E. Beattie '23, who were assisted by Mr. H. E. Lobdell, Assistant Dean, and by D. B. Coleman '23 and L. M. Nelson, B. S. '23, on the design and location, and by S. F. Gordon '23, and J. H. Zane '23, on the financing and maintenance.

LARGE ATTENDANCE AT FACULTY DINNER
 (Continued from page 1.)

suits of these tests and the marks of the students. Experimentation with such tests was taken up in order to find some means of fairly limiting the number of students, for the growth of the School has been such that many difficulties of instruction have arisen.

These talks were followed by a general discussion during which many interesting examples were brought out by members present, Professor Chamberlain of Boston spoke of the results he has obtained with students under him. The closing talk was a short one by Dr. A. D. Little '85, the President of the Alumni Council, in which he expressed the hope that many more such interesting and enjoyable meetings might be had.

THEATRES
 (Continued from Page 2.)

Clarissa breaks the engagement and discovers she never really did love that stern character. Rather she is infatuated with Cordway's secretary, once an object of her flirtations.

Lady Clarissa, if one should question oneself, is not the kind who would settle down, even with Cordway's secretary, as the author would have us believe. She suffers, we think, from not knowing what she does want. The Jewett Players did themselves credit last evening by an excellent piece of acting, thereby deserving well the repeated applause and recalls.

BESSIE BARRISCALE HEADS BILL AT KEITH'S

Bessie Barriscale, well-known in the movies, appears in a light sketch at Keith's this week. Miss Barriscale is seen as a telephone girl, a Mexican vamp, and a modern girl.

Bert Lowe's society orchestra, remembered from dorm dances, furnishes the music for a novelty dancing act by Danny Duggan and Anna Pierce. Bert Lowe's society jazzers also hit it up on their own. George Jessel, comedian, is one of the hits of the evening. The remaining acts please in a bill of uncommon merit.

STARS AT THE MAJESTIC

"Rip Van Winkle's Dream," as headliner, is not as good as was expected. The whistling was well done but did not take well. The Klein brothers, recently with the "Passing Show," put over a clever line of patter. "Toot your horn" is an exceedingly well given line of conceit.

GORDON'S CENTRAL SQUARE

The vaudeville this week is of good quality. There is a revue that is above the usual vaudeville type. The movie is "Foot's Paradise." The plot: a maid loved a man but he wouldn't have her, for he loved a dancer who didn't love him so when he found this out he went back to the first one.

TRAINING FOR TRACK TEAM IN FULL SWING
 (Continued from Page 1.)

carnival is not a test for the team as only the relay and one or two individual stars will compete for Technology. The I. C. A. A. A. is often won by star performers rather than by actual team work, the college with a few brilliant athletes can win over the well-balanced but not phenomenal combination of its competitor.

Fight Crimson on Home Track

"The clash with Harvard will show what the team has in it better than any other on our schedule. Having the contest on Tech Field should help some as the men are familiar with the track and conditions there. Then, too, Harvard has lost some of her best men this year in Harwood, Denny O'Connell, Krogness, and Gourdin, though Burke is more than replacing O'Connell. We should prove strongest in the running events, with the exception of the mile, which is conceded to Burke.

"In the field the crimson is more formidable with Fiske Brown in the hammer and a man who has been clearing 12 feet in the pole vault. The loss of Gourdin will be felt in the broad jump but there are still some good men to be accounted for. Harvard is noted for the fighting spirit with which it inevitably goes into a meet no matter how badly things may look beforehand. Technology's best chance in beating her lies in the spirit with which the team goes into the contest, and I think every man among the veterans may be counted on in this respect. We know we are pitted against a real foe and intend to give everything we've got to put across the victory that will add so much to Technology's track laurels."

"On your Mark—Get set—UP!"

One of the crouching sprinters has made a false start.

"You there, back a yard." The penalty probably costs that man his chance for victory.

So it often is in business if you choose your field of endeavor hastily and make a false start.

Judge a business by its past, its present and its probable future. Forty-six years ago there were no telephones. Today almost any part of this great country is within the reach of your voice by telephone.

The telephone business is a young man's business. It has many opportunities for young men of almost any bent who can think straight, keep their feet on the ground and their eyes to the stars of sound progress.

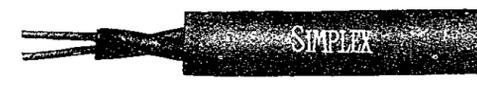

*Research — invention — manufacturing
 buying — selling — operation — maintenance.*

Talk with the Bell telephone men who will be at Technology, April 3rd, 4th and 5th.

 CLEANLINESS, QUALITY and SERVICE

TIREX (ALL RUBBER) PORTABLE CORD

A large proportion of portable tool troubles are cord failures. TIREX wears longer than other cords and keeps the tools in operation. It always comes back from one job ready for the next and stays in service, without repairs, more than four times as long as fibrous covered cords.

NEW MUSICAL FEATURES OFFERED WALKER PATRONS

The musical program every noon in Walker dining hall which has proved so popular will be continued through the present term. In addition to the regular program a specialty feature, such as a xylophone solo, will be offered twice a week, probably at noon on Wednesday and Friday. No definite days can be set at present since the musicians must conform to their class schedules. The continuance of these features is largely dependent upon the attitude of the students so suggestions or favorable comment will be appreciated by the management.

One indication of the approval of the student body is the increasing patronage of the dining hall for all meals. Unlike the beginning of last term, when there was a noticeable drop in the number served, the present semester has started with an increase.
