

SHOW APPLICATIONS DUE FRIDAY MORNING TO BE ACCEPTED

Tickets Will Be Distributed
in Same Order They
Are Received

FOUR PERFORMANCES ARE SCHEDULED FOR BOSTON

Applications for Northamp-
ton Performance Due
Tonight

Student applications for tickets to
Tech Show will be filled in the order
in which they are received in the
main lobby starting Friday morning
at 8 o'clock. Application blanks have
been mailed to all students and Alumi-
ni, but those who have not received
them may get duplicates at the Show
office after 5 o'clock today and tomor-
row. Personally filed blanks will
take precedence over those which are
sent in by mail.

Tickets will be sold in the main lob-
by Monday from 12 to 3 o'clock for
the student performance only. All
seats will be on sale Tuesday from
12 to 3, and Wednesday from 12 to
2 o'clock.

Applications for additional tickets,
changes, and corrections close at 5
o'clock Wednesday, April 12. All re-
maining tickets will be placed on sale
at the Opera House.

Men who want seats for the North-
ampton performances must apply for
tickets at the office before 6 o'clock
tonight.

Simmons Performance to be April 15

The scheduled Boston performan-
ces are: Saturday evening, April 15,
in Jordan Hall, for Simmons College.
All tickets are in the hands of Sim-
mons students. Monday evening, for
the general public, at the Opera
House. Tuesday afternoon, for under-
graduates, at the Opera House. Tues-
day evening for the alumni. Prefer-
ence will be given the alumni in the
distribution of tickets for this per-
formance.

PHI BETA EPSILON HOUSE BURGLARIZED

Kind Thief Relieves Men of
Over 200 Dollars and
Watches

The Phi Beta Epsilon House, 400
Charles River Road, was entered and
robbed early yesterday morning be-
tween the hours of 3:30 and 6 o'clock.
There were 12 watches and about \$200
missing when everything was checked
immediately after the discovery.

The work was apparently that of an
experienced house thief as no clue
was left except the presence of many
burned matches all over the house.
This gave the impression that the
thief used matches to find his way
around as the low glow of a match
would not be as noticeable as a flash-
light. There were no windows left
open on the first floor and all doors
were locked in the morning. Every-
thing was left in good order.

Besides watches and money, the
robber took only charms and watch-
chains which were attached to watch-
es. He opened no drawers or cabinets
and left various sums of money that
were in wallets and took only one ar-
ticle from each man except in case of
watches. The men of the house first
thought it was a joke played on them
when they tried to find the time and
found that their watches were
missing.

The matter has been placed in the
hands of the Cambridge police and
with the Burns Detective Agency.

NOMINATIONS FOR AERO SOCIETY DUE SATURDAY

The Aero Society announces that
the nominations for the officers of the
coming year must be submitted to
the Secretary of the Society in
room 3-312 before Saturday noon,
April 8, 1922. The offices open for
nomination are those of president,
vice president, secretary and treas-
urer.

The nomination paper must be
signed by ten members of the Society.
The nominee's signature must also
appear on the paper to signify his
willingness to accept the nomination.

ARCHITECTURAL SOCIETY HOLDS SMOKER FRIDAY

Course IV Sophomores Will Give
the Evening's Entertainment

The Architectural Society will hold a
smoker this Friday night in the Com-
mon's room of the Rogers building.
The smoker will be of the same type
as the ones which have been held fre-
quently by the Society during the year.
Admission is free to all members of
Course IV.

An entertainment, to be put on by
the Sophomores in the Society, will
provide something new in the way of
amusement. Professor Kelhan, of
the Harvard Architectural School will
be the speaker of the evening. Smokes
and refreshments will be served as usual.

POPS NIGHT PROMISES TO BE LIVELY EVENT

Expect to Fill Symphony Hall
with Seniors and Alumni
—Many Novelties

PLAN SPECIAL NUMBERS

Pops Night, the third event of Se-
nior week, is scheduled for Wednes-
day evening, June 7, at Symphony
Hall. Two or three of the usual 11
numbers of the Pops program will be
replaced by typical Technology fea-
tures. One of these will probably be
the newly written Alma Mater song,
and Frank Gage '22, has promised to
run off a hit or two from Tech Show.

A special attempt will be made to
bring out a large proportion of the
alumni, since it is felt that a general
meeting of graduates and Seniors will
result in more interest in the Alumni
Association. A circular letter will be
sent out soon to get some idea of the
probable attendance, and if sufficient
interest is shown a block of 250 or
more tickets will be placed in the
hands of the Association for distribu-
tion.

Novelties to Be Provided
Present plans call for the reserva-
tion of the entire floor for Seniors and
Alumni. Four or five may sit at one
table. A slight increase over the reg-
ular price of one dollar a chair will
be made to cover the expense of fancy
table covers, paper hats and other
novelties, but the final cost is certain
to be quite low.

There is considerable sentiment in
favor of a student vaudeville act dur-
ing one of the intermissions but, un-
less the house is All-Technology, it
will probably be impossible to do this.
If the general public is permitted to
be present such a radical variation of
the program could not be allowed by
the Symphony management.

The program is not as yet complete,
but it will be made up and announced
shortly after Junior Week. Tickets
are to be placed on sale about the
middle of May. The Pops Night com-
mittee consists of W. T. Ferguson '22,
and J. W. Strieder '22.

ELECTORAL COMMITTEE'S WORK ALMOST COMPLETE

Editors of Sports, Portfolio, and
Grinds, and Treasurer
Recently Chosen

The work of the Technique Electoral
Committee of the Class of 1924 is near-
ing completion. During the past few
meetings the offices of Treasurer, Port-
folio Editor, Athletic Editor, and
Grinds Editor have been filled.

P. H. Scott '24, was elected to the
position of Treasurer. Scott won the
competition for the treasury depart-
ment conducted by this year's Board,
and was recommended by the Board
for Treasurer.

Portfolio Editor is F. G. Hamner '24,
who has been one of the Sophomore
assistant boxing managers. He is also
on the Bulletin Board Committee; he
comes from San Antonio, Texas.

Athletics will be handled by J. R.
Teuch '24, who has won his numerals
on the Class relay team and on Class
crew. He is from White Plains, New
York.

A. W. K. Billings '24, who has
charge of the humorous department,
has had previous experience in pub-
lication work. He has been Publicity
Manager of VooDoo this year.

Faculty Editor, Statistics Editor,
Associate Editor, and Photographic
Editor are yet to be elected.

COMBINED MUSICALS FACE BUSY WEEK END

Program Includes Dinner at
Mt. Holyoke and Over
Night Trip

The Combined Musical Clubs are
facing one of the busiest week-ends
of the season with three concerts
scheduled for successive nights. West-
on is their destination tomorrow
night, where an entertainment is to
be staged in the Town Hall under the
auspices of the Men's Club of the
First Parish Church. The party will
leave the South Station on the 6:25
o'clock train for Riverside, where they
take a bus for Weston. No dance
will be held.

Friday evening the clubs journey
to Salem for a concert and dance at
the Normal School. Men will leave
the North Station at 6:07 o'clock. A
special trolley will meet them at Sale-
m depot and take them to the School.

Sophomores Will Give Dinner

A capacity crowd is expected at the
concert to be given in Mt. Holyoke
College Hall by the Class of 1924 on
Saturday evening. The college girls
have made generous plans for the ac-
commodation of the musicians, and all
indications point to one of the most
enjoyable trips of the year. Leaving
the South Terminal at 1 o'clock for
Springfield, the party will go via trol-
ley from Springfield to South Hadley
where it will be taken in hand by a
committee of students. The entire
group will be dinner guests of the Mt.
Holyoke class. Plans are being made
to stay over night at a hotel in South
Hadley, the return trip to be made
Sunday at the time most convenient
to the majority.

The Clubs will have a prominent
part in the Annual Banquet of the As-
sociated Railway Men of New Eng-
land to be held at the Copley Plaza,
Tuesday at 7:30 o'clock. Several other
college organizations will furnish mu-
sic on this occasion, and a vaudeville
sketch from Keith's will be staged.

A capacity crowd of 600 filled the
hall at the Edison Auditorium last
Monday evening for the concert under
the auspices of the Edison Employ-
ee's Club.

T. E. N. Reviewed by Prof. Rogers

"The Tech Engineering News makes
its first appearance under the new
Board with a marked change in looks,"
said Professor R. E. Rogers yester-
day, reviewing the issue for THE
TECH. "Certain details in the make-
up, and a new front page with the
masthead and a picture of the Insti-
tute buildings are a decided improve-
ment, and a new and attractive head-
ing for the editorial page appears,
which would look better if the type
matter were not so closely crowded
up to the heading.

"The new Board is to be praised
for keeping the nice balance between
the technical articles, and those of a
more popular nature. There are two
articles of value to every Technology
man, one of which is a discussion, by
Professor H. W. Tyler '24, of the de-
velopment of research, which brings
before the undergraduate a most im-
portant side of Institute activity
which he is only too liable to be ig-
norant of or to misunderstand. The
other purely technical article is by
Leonard Metcalf '22, last year's presi-
dent of the Alumni Association, in the
form of a reprint of an address deliv-
ered this spring to seniors in the
Mechanical Engineering Department,
a compact, forcible, practical, presen-
tation of the questions and problems
that face a Technology graduate go-
ing out into industry.

"In rather lighter vein is the story
of the 'Cruise of the Yakaboo,' by F.
A. Fenger '09, a simple account of
coastwise cruising with a sailing can-
oe in Caribbean waters.

"The leading article of the number
and the one which will be of great-
est interest is one by Commander G.
C. Westervelt '08, a clearly written
and fairly non-technical account of
the new airplane launching catapult.
The other chief articles in the issue
are those on 'Train Control,' by Char-
les W. Burrows; 'The Colorado River
Irrigation Project,' by Ralph I. Meek-
er; and 'Factory Fires,' by F. H.
Hoxie. These, with the usual month-
ly departments and a score of adver-
tising pages which rival in interest
those of the Saturday Evening Post,
make a very full and well balanced
(Continued on Page 3.)

VOO DOO TO PRINT 5000 COPIES OF PROM NUMBER

Circulation Will be Extended to
Fashionable Resorts

In anticipation of an unprecedented
demand, the Managing Board of Voo
Doo has made plans for the publica-
tion of at least 5000 copies of the
coming Prom Number. Newsdealers
at Atlantic City, who exhausted their
supplies of the Girls' Number within
a few hours, and were unable to se-
cure additional copies, have sent in
larger orders for the Prom Number.
The Circulation Department states
that this introduction of the magazine
into well known resorts will be con-
tinued, Palm Beach probably being
the next objective.

The issue will be placed on sale a
short time before the Technique Rush.
It is to be much larger than usual.
The cover was drawn by W. B. Elmer
'22, and is a design relating to the
Prom.

STEAM LABORATORY OPEN FOR PUBLIC

President Kimball of A.S.M.E.
Will Speak at Meeting
Saturday Night

BOSTON ENGINEERS GUESTS

Next Saturday evening the entire
Steam and Compressed Air Laborator-
ies and Machine Tool Laboratory will
be open to the students and their
friends under the auspices of the Me-
chanical Engineering Society. The
machines will be in full operation, and
it is practically the only time when
the whole laboratory can be seen in
operation at once. In conjunction
with the exhibition will be a meeting
of the Society at 7:30 o'clock in room
5-330.

President Dexter S. Kimball of the
American Society of Mechanical En-
gineers will deliver an address to the
members of the Institute Society and
to the Boston section of the A. S. M.
E. The student sections of Tufts,
Northeastern and Harvard have been
invited.

Will Show Movies

The program includes a short busi-
ness meeting of the Boston section,
followed by several moving picture
reels produced by the Stanford Riley
Stoker Company showing the burning
coal on an underfed stoker grate.
These will be followed by President
Kimball's address. The meeting will
then adjourn to the Machine Tool,
Steam, and Compressed Air Labora-
tories, where the greater part of the
apparatus will be in operation. The
Seniors of Course II are to act as
guides.

PROM SIGNUPS WILL BE REDEEMED TODAY

Tickets and Tables Will Be
Assigned Until 2 in
Main Lobby

All signups for the Junior Prom
will be void after 2 o'clock today. The
redemption of these and the table
assignments stop at that time. There
are to be no flowers worn by the
girls at the Prom this year, according
to an action taken by the committee
in making this rule. The committee
has arranged for the decoration of all
tables.

Two-thirds of the signups for the
Prom were redeemed yesterday. To-
day is the last time which the booth
in the main lobby will be open for
men to exchange their signups for
reserved tables at the Prom. The
engraved invitations are being given
out with the tickets. All men who
have not presented their signups by
2 o'clock will have to take their
chances that the committee has not
already sold their space to the men
on the waiting list. No provision is
being made for the return of money
on unused signups after the time for
redemption.

The consensus of opinion of the
men on the committee was that the
presentation of flowers to girls to
wear at the Prom was a custom not
to be encouraged, and hence their
action with regards the prohibition
of them.

ADVISORY COUNCIL GETS HARVARD MAN TO COACH CREW

A. W. Stevens Accepts Posi-
tion Monday Noon and
Starts Tuesday

SEVEN CREWS TAKE RIVER WORK YESTERDAY

Coach Directs from Single
Shell for Want of
Launch

A. W. Stevens, Harvard '97, will
direct the Technology oarsmen as
head coach, according to the an-
nouncement of Dr. A. W. Rowe '03,
of the Alumni Council, made Monday.
Mr. Stevens visited the boathouse
Monday afternoon and looked over
the grounds, and yesterday afternoon
took active charge of the men as
coach. He has been in touch with
the Athletic Association for some
time but the final arrangements were
not concluded till noon Monday, when
Mr. Stevens definitely accepted the
position with Pat Manning, last sea-
son's coach, under him as superin-
tendent of equipment.

Since his graduation from Harvard,
Mr. Stevens has been identified with
amateur rowing in and around Boston.
He has done some informal coaching
at Harvard and for several years be-
fore the war directed rowing at the
Institute when it was on a basis of
interclass competition. He is the au-
thor of a book on the subject of row-
ing, and is himself an enthusiastic
oarsman, well fitted to direct the
Technology crews during a period
when it is hoped by those in charge
to make rowing a possibility for as
many men as are interested in the
sport.

New Coach Speeds Training

An excellent schedule has been ar-
ranged for the crews this spring and,
although the development and per-
fection of the varsity eights will of
course be the primary aim, it is sought
to establish rowing as a general sport
to be participated in by a large num-
ber of students besides those in pos-
session of regular berths.

Ever since the crews have been
able to take the river, they have been
directed by Captain McCurdy and
Manager Smith. With Coach Stevens
on the job the training will be great-
ly accelerated, and it will be a busy
month for the crew men before the
first meet with the Navy on April 29.

Yesterday afternoon seven crews
put out from the boathouse. Coach
Stevens, being shy a coaching launch
did what he could from the deck of a
single, and accompanied the first var-
sity down to the dam below the Cam-
bridge bridge. The long anticipated
coaching launch is at last on its way
and it is expected that it will be ready
for use this afternoon or tomorrow.

Move Dunleavy to Stroke

Dunleavy, Captain of the victorious
Sophomore field day crew, has been
moved up to stroke on the first var-
sity. The first boat put out yesterday
afternoon as follows: Bow, Driscoll;
two, Prouty; three, Nowell; four,
Molinar; five, Scholtz; six, Valentine;
seven, Captain McCurdy; stroke, Dun-
leavy; cox, Follinsbee.

The junior varsity is more than half
composed of members of the Sopho-
more crew, two more Sophomores,
Prouty and Dunleavy, at present hold-
ing positions on the first shell. At
present the men on the junior varsity
are: Bow, Evans; two, DuPont; three,
Murdock; four, Sayre; five, Eaton;
six, Greatwood; seven, Blood; stroke,
Brill; cox, Reed.

CALENDAR

- Wednesday, April 5
- 7:30—Chemical Society smoker, north hall, Walker.
- Thursday, April 6
- 7:30—British Empire Club meeting, Faculty and Alumni room, Walker.
- Friday, April 7
- 8:00—R. O. T. C. Engineers dance, north hall, Walker.
- 8:00—Architectural Society smoker, Rogers Building.
- Wednesday, April 12
- 7:30—Naval Architecture Society smoker, Faculty dining room, Walker.
- Thursday, April 13
- 8:00—Math Club, room 4-231, main build-
ing.
- Saturday, April 15
- 8:00—Dorm dance, north hall, Walker.
