Runners Speed up in Spite of Move to Boards

Tennis practice is altogether off the ground this week, due to the rain. As a result, the schedule of matches is somewhat irregular, but, as a rule, practice is being carried on in fair order. Practice times vary slightly from place to place, but, in general, there are three periods of practice each day. The tennis courts are well drained, and the players are taking advantage of the weather to get in as much practice as possible.

Captain Bill Scott's Tennis Team
Delayed by Condition of Courts

Bill Scott leads the Vanderbilt team this year, and he is the captain of the varsity team. He has been a member of the tennis team for three years, and he has shown great skill in the game. He is one of the most consistent players on the team, and he is always ready to give his best effort.

A large proportion of portable radio couples are cold failures. TIREX warms them and either helps or hinders the sale to operating, by overcoming the objection of the customer to the cold failure. TIREX does this by changing the ratio of the cold coupled tubes to the ratio of the hot coupled tubes, and it also does this by heating the cold coupled tubes to operating temperature.

TIREX (ALL RUBBER) PORTABLE CORD

An examination of the port holes at the front of the ship shows that they are all in good condition. The ship is ready for sea, and the crew is prepared for the voyage. The ship is well equipped and the officers are ready to carry out their duties.
