**FRESHMAN TRACK TEAM CALLS OFF HUNTINGTON MEET**

**Cannot Arrange Satisfactory Date So Schedule Cut to Three Contests**

Freshman tracksters are disappointed to hear that a full schedule for the spring could not be arranged, as the tentative meet with Huntington School has been called off. A date agreeable to both parties could not be decided upon and for this reason the yearlings now can concentrate their efforts solely on the meets with the three academies, Worcester, Andover, and Exeter.

Besides these meets they are also looking to Monday's interclass affair where the strength and ability of the cubs will first have a chance to show itself.

**Captain Leness Undecided on Event**

George Leness, the frosh captain, is doing all the middle distances, being unable to decide which of them to pick as his own in the spring meets. George says that this is the best plan for the present since at this date it is hard to tell just where the yearlings will be weak. In order not to engage Andover unprepared on April 22 in the 440, 880, or mile run, George will be ready to do any one of the three.

There is a chance that he will decide on the mile as Eddie Sandberg, last winter's crack miler, is out of the running definitely. Eddie has brought an avalanche upon his head by being too interested in track and not enough in his studies. Every man on the yearling squad will miss his support which has been one of the mainstays of the cub outfit heretofore. No doubt, however, Eddie will grace the varsity team next year when he has caught up in his class work.

**Freshman Nines Engage in First Practice Game**

Coach Metcalf has divided the freshman baseball candidates into two squads though making no attempt to put the better players in one of the groups. Yesterday afternoon the frosh A and B teams played four innings for the first regularly organized contest of the season, and just to show that the names didn't stand for anything the B combination had the edge all the way through.

The losing nine lined up as follows: Lumb, catcher; Cornelius Flynn, and Bel Bartlett, pitchers; Dave Peene, first base; Phil Carrier, second base; Brown, short stop; Sam Meadows, third base; Austin Cole, left field; Ed Eager, center field; Ed Johnson, right field.

**Winners Use Three Hurlers**

The victorious B team consisted of Hanover, catcher; Bill Wheeler, Ewan Hayes, and Bill Cook, pitchers; Wiggs, first base; Gilbert Fletcher, second base; Woodbury Howard, short stop; Jerry Harrington, third base; O'Brien, left field; Harrison Browning, center field; Henry Bodell, right field.

Yesterday afternoon Wheeler and Flynn seemed to have the most stuff in the box. Dave Peene, who captained the '25 hockey team displayed lots of action around first though his performance had little on the work of Wiggs, the B nine's initial sacker. Walt Metcalf and his assistants, while reporting lots of rough edges to be removed in the next two weeks' drill seemed quite well satisfied with the ambition shown by their charges and are of the opinion that the material for a fast freshman ball team is available.

Another practice conflict is scheduled for this afternoon and in fact the daily game is expected to feature the afternoon sessions from now on. In-field practice, aimed to speed up the action of the inner cordons of both teams, is also on the program.

The Northeastern nine suffered its second defeat of the season last Monday, losing to the Harvard ball tossers by a score of 16 to 1. When the Crimson players added 6 runs to their score in the seventh the umpire called the game. Northeastern had batted in the eighth.

**150 Men to Compete for Rival Classes Monday**

**RIFLE TEAM NOW IN TENTH PLACE**

**Pennsylvania Leading at End of Fourth Stage**

The fourth stage of the National Intercollegiate Rifle Championship match shows Technology in tenth place in a field of 32. The University of Pennsylvania is leading, followed by Norwich, Oregon Aggies, and Georgetown, in the order named. The University of Pennsylvania, Norwich and Georgetown were the only teams to defeat the Engineers during the past season. Other teams whose positions were reported include Carnegie Tech, 12, Yale, 14, and Johns Hopkins, 15.

The Beaver Frosh are in the twenty-second place, crowding the Princeton varsity, which is just above, and Columbia, one notch further up. The only other freshman team entered in the match is the University of Pennsylvania freshman team, which is at present reposing snugly in thirtieth place. There are two more stages before the match closes.

Manager Lund states that the Technology marksmen are handicapped by the fact that the match calls for firing in sitting, kneeling, and standing positions, because the team members have not the time necessary to practice these positions. Nearly all their time is taken up in practicing prone shooting, which is the mainstay in dual matches. He expects the team's standing to improve in the last two stages of the match.

**FIRST ROUND OF TENNIS TRIALS STILL UNPLAYED**

**Elimination Matches Due to Be Contested During Rest of Week**

To date none of the tennis matches for the first round have been played due to the bad condition of the courts. However, those at Jarvis Field are now ready to take care of any matches that have been arranged. Because of the great number scheduled to be played the management hopes to secure other courts in the city. Failure to play the matches before Saturday will be considered a default. All arrangements for games must be made by the opponents in each match. The M. I. T. A. A. office has posted a list of the entries.

**Varsity Squad at Longwood**

About fifteen men of the varsity squad are now busying themselves with practice matches on the courts at the Longwood Cricket Club. Captain Bill Scott is going out today to meet Roger Carver in a practice set. Captain Scott is watching the elimination tournament for possibilities. He states that anyone who looks like he can be developed into a player suitable for this year's team will have an opportunity to make good. There is a chance that one of last year's freshman squad may be asked to prove his mettle under varsity tutelage, or that a transfer from another college may show up with a good style of game.

The call for freshman candidates for assistant tennis manager is still unheeded. For this reason the management has announced that applications will be received today at 5 o'clock at the office of the M. I. T. A. A. office.

It looks like a case of worse and more of it for the Engineers chances in the high hurdles. Russ Ambach, their one promising man in the tall timbers, pulled a bad sprain in his back going over the sticks in practice Saturday and the doctor's verdict is no more training for Russ for at least two weeks.

The interorganization relay is a new event in the spring interclass track meet, but from the efforts the entrants are putting into it, it ought to go big. Several of the fraternities had their men on the cinders yesterday taking time trials for positions on the respective quartets. The event is to be a novice one so the times were generally poor, but it should be the hardest fought on the program next Monday.

Coach Stevens is at last able to abandon his single in favor of the newly procured launch. Consequently the eights will get the first real coaching that they have had this season. Without a coaching launch, Art has been unable to keep up with the shells and form a real opinion of how the men were working.

**Interclass Meet Looms Big on Horizon for Track Team as Opening Event of Season**

**Outcome Will Determine Varsity Squad for Clash With Harvard—Relay for Penn Carnival to Be Picked in Trials Tomorrow**

The sudden heat wave didn't arrive opportunely for the track athletes who were trying to put on the finishing touches for Monday's inter-class meet. Stiff workouts were in order the first two days of the week, and the unexpected warm spell seemed far from pleasant to the sweating runners. A slight let down is on the cards for the last few practice sessions before the meet, however, so that the men will be in good condition for the real test even if the hot spell continues.

**Hold Trials for Relay**

Coach Kanaly is planning to use the results of the Interclass Meet to determine the varsity lineup for the season except for the relay which is to go to the Penn Carnival. Coach has scheduled time trials in the 440 for tomorrow night to settle the positions on the mile quartet representing the Institute in the big games and the best men on the squad will try to outshine each other then. In all probability the team will be the same as the one which had so successful a winter season. Yard Chittick is planning to temporarily desert the hurdles to run on the quartet and Bill Smith, Jack Poole, and Bill Gurney seem as fit as ever.

**Annapolis Settles Meet**

The track management has finally completed all arrangements for the dual meet with Navy May 13. There was considerable difficulty in deciding just what events should be run off; Annapolis wanted to cut out the hammer throw and the two mile run, while Technology, having good chances of winning these competitions, preferred to keep them on the list. It was agreed to cut out the hammer but keep the two mile event, and on this basis negotiations were concluded.

**223 Enter for Interclass Meet**

The completed list of entrants for the interclass meet numbers 223 names, but, as a number of men are entered in more than one event, the actual number of competitors is about 150. The sprints and the mile and the half mile have each over 20 due to compete, while the discus and the broad jump are the most popular among the field events with 18 and 16 competitors respectively. The two mile and the high hurdles have brought forth the least number of candidates in the running events, while none of the field competitions are crowded.

**Entry List Not Final**

Coach Kanaly announced yesterday that the entry list as now made up is not final and that he will be glad to accept any further competitors. The meet is in no way limited to members of the track squad and if any man desires to compete in an event he can enter up to the last minute. The list published below is simply the one which will be published in the program, but all Institute undergraduates are eligible to take part.

**Upper Classes On Even Terms**

Contrary to the usual situation the Seniors are strongly represented in many of the events, and are quite on even terms with the Sophomores and the Juniors. The frosh have the largest number of representatives, but it is hardly to be expected that they will do much damage. The three upper classes are quite evenly matched, however, and it is more or less of a toss-up which one will come through on top. The Juniors look like the strongest combination, but their edge on the other two is so slight that it can hardly be counted on.

**Tickets on Sale Now**

Tickets for the meet go on sale today, Thursday, and Friday from 12 to 2 o'clock in the main lobby. On Saturday they will be handed out from 12 to 1 o'clock. Reserved seats will cost \$1, while places in the south stand will be 50 cents. Prices for T. A. C. members will be half of the regular admission, or 50 cents and 25 cents.

**INTERCLASS MEET ENTRIES**
