### SOPHOMORES STORE IN TENTH WINNING GAME

(Continued from Page 3.)

follows: Canfield p. Michelina c. Walterskirchen 1st, Bates 2nd, Clark 3rd. Manning ss, Delehanty lf, Smith cf, Robinson rf. Runs were made as follows: Clark, Bates, Robinson 2; Canfield, Michelina, Manning, Delehanty, Smith.

Saturday the Sophs travel to Franklin for a game with Dean Academy, and a hard scrap is expected as Dean has a first class nine on the field this spring. In addition to the schedule already announced the Sophs have added two more games, one with Browne and Nichols on May 23, and one with the Boston University yearling team on April 29. The B. U. game will be the only one to be played on the home diamond and as such should create a good deal more spirit than the other contests of the season.

### INTENSIVE TRACK WORK DUE FOR NEXT TWO WEEKS

(Continued from Page 3)

scheduled to compete with Newton High School a week from Saturday on Tech Field. This meet is planned to give all those who would not otherwise get into interschool competition a chance to show their wares in a real meet. While it is not expected that any marvels will be uncovered in this way, it may bring to light one or two men whose merits might otherwise have been overlooked.

### Reliable Typewriters

First-Class Machines of all Standard Makes, \$20 up. Payments \$5 Monthly. Price List on Application  
**The Office Appliance Co.**  
191-195 DEVONSHIRE ST. BOSTON

George Caine, helping out in the shot on last winter's yearling outfit, is certainly all there in his new line this spring. He is fast learning to put the kibosh on the discus and he is not staggering when he does it either.

The idea of a novice meet is a new one here at the Institute but it looks like a good one. Such arrangements make it less drudgery for the men who must be substitutes for the squad and since subs are quite indispensable to a winning team some recognition of their value is surely worth while.

### A LIBERAL EDUCATION IN MACHINE SHOP PRACTICE ADVANCED MACHINE WORK

By Robert H. Smith

Massachusetts Institute of Technology  
Sixth Edition Revised and Enlarged

A BOOK that has revolutionized teaching and learning Machine Work.

It is used in Colleges, Technical, Apprentice and Vocational Schools, and Machine Shops.

WAR has taught, **INDIVIDUALS, SHOPS and SCHOOLS** the value of **TEXTBOOKS.**

# Everything for QUALITY— nothing for show

## THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigaretty aftertaste.

Camels are made for men who think for themselves.

## When H<sub>2</sub>O Isn't Water

"GENTLEMEN" said the Chem. Prof., at the end of the term, "You'll probably remember only one thing of all I've tried to teach you. And that is that Water is H<sub>2</sub>O—and then you'll be wrong."

Even shaving soap isn't always *shaving* soap. A *correct* shaving preparation like Williams' Shaving Cream must do a lot more than simply make a lather.

—It must be generous with its lather. It must be thick and creamy in cold water or hot.

—It must hold its moisture. Williams' will not "freeze" dry on your face.

—It must soften your beard right down to the very roots.

—It must prepare your face for quick, gentle shaving. Williams' is so pure and wholesome that it actually helps the most tender skin.

Try it—tomorrow before chapel.

# Williams' Shaving Cream

### TIREX (ALL RUBBER) PORTABLE CORD

A large proportion of portable tool troubles are cord failures. TIREX wears longer than other cords and keeps the tools in operation. It always comes back from one job ready for the next and stays in service, without repairs, more than four times as long as fibrous covered cords.
