

Both Crimson and Engineer Track Teams Have Lost Dependable Men

Varsity Crews Go To Naval Academy

(Continued from Page 1.)

Yearlings are expected to be a little slow, due to several of the men in the boat breaking training. The freshmen have the following boating: Bow, McKennan; 2, Prentis; 3, Buttler; 4, Harriman; 5, Harney; 6, Leonard; 7, Campbell, Capt.; stroke, Blair; cox, Thorndyke. The crew averages around 157 or 158 pounds which is light, but good for a freshman crew.

150 Pound Crew Being Organized
For the first time in the history of crew at Technology the Engineers are going to have a light-weight crew. There is enough good material for one 150 pound crew and possible two. If a fast enough crew can be organized Technology will compete with the Yale, Harvard and Princeton 150 pound crews on May 20. 155 pounds is the upper limit for men rowing on the crew. As for under limit, there is none. At present the first crew has the following temporary boating: Bow, Richards; 2, Taylor; 3, Freeman; 4, Nesmitt; 5, Hochstetler; 6, Keay; 7, P. C. Smith; stroke, Rouseau; cox, Reed or Young.

Expects Close and Possibly Tie Meet When Technology Runners Battle Harvard Team on May 6

By Captain Henry C. Pierce '20

Gourdin, Harwood, Krogness, O'Connell and Tolbert are gone from the Harvard track team roster. No team can lose a group of stars like these and be the same. We, too, have lost valuable men, Dandrow, MacMahon, Bawden, Bardes, Spitz and Bossert being unavailable. On both teams the dependables, the veterans of three or more years, are gone. Neither college had a very strong freshman team. The question is did Harvard lose more strength than Technology? I believe they did. I believe the meet coming on May 6 will be very close, possibly a tie.

Harvard has Wansker, Evans, Chapin and Chase to offer in the dash. All are good, Wansker possibly being best at the century, and Chase at the 220. If Chapin's leg recovers he will be as good as Chase. Heap, Hayes and Howlett in the 100 are our best bets. Last year Howlett was second, beating all of Harvard's men except Gourdin. He is as fast this year. Heap and Hayes will be as speedy as Howlett if not speedier. It is an even break here in this event. Poole, Howlett, and W. L. Smith can offset any of the University men at present in the 220. Chapin and Chase may sneak in with luck.

In the 440 Technology should clean all the places. Gurney, Poole, Chittick, and W. L. Smith are all 51 second men or better. Merrill and Chute cannot carry the crimson at this gait. Wharton would have been Harvard's best man if he had stayed in school.

Colt, McCarthy, and Burke seem to be better than any of the Engineers in the 880 now. All three take the half in two minutes or better. Snow and Gill of the Institute will have a very hard job placing in this event. Burke may not be at his best since the mile, in which he also enters, will be run first. If he does not answer the 880 gun we should get one place.

Sanborn will give Burke a run for his money in the mile. The crimson flyer will win, but good conditions will have to beat 4 minutes and 25 seconds. He will not be in condition for the half as such a race. Third place will be fought for by Lund and Eaton of Harvard and Poor of Technology, with Lund looking the best.

Two Milers Unmatched

The university has no two milers to match Hendrie and Flanders. These two runners should have no trouble taking the first two places while Harvard will cop third, mainly because we have no one to act as third string man.

Hauers and Whitney are sure of the high hurdles. Ambach and Captain Chittick, of the Institute, will battle Thayer for the third position, with our men, I believe, just getting in.

Last year Fitts won the low hurdles, Chittick was second and Whitney third. At present Fitts is ineligible. If he regains his eligibility the same order will hold this year. If not, Chittick will win over Whitney with King or Hershey beating Thayer for the lone point.

Harvard Jumpers Variable

Morse is the only jumper of ability at present. He is very erratic going 5 feet 10 inches and 5 feet 6 inches the next. Roscoe Fitts is a good steady performer at 5 feet 10 inches when in condition and eligible. Merrille is our most consistent entrant. He can always be counted on to do 5 feet 8 inches and usually higher. Greenough and Stanley are men who leap in streaks. Technology should secure two of the three places.

We can be thankful that Ned Gourdin is not in the broad jump. Harvard has nobody that can come within 3 1-2 feet of his 25 feet 3 inch flight.

'24 NINE AIMS TO HAMMER EXETER'S BASEBALL TODAY

Sophomores Trip to Academy for Second Game—Guy Canfield in Shape

The Sophomore baseball men go to Exeter this afternoon determined to bring home a victory. Their defeat of the fast Dean Academy nine last Saturday has served as a stimulus to the team, and yesterday's practice session showed a decided improvement in the work. The approach of the Sophomore-freshman series of five games, the first of which will be played a week from today, has also put some spirit into the work, and Exeter should be given a run for her honors today. Guy Canfield, whose arm was not in condition for the Dean game, has come up to form again, and he and Walt Kennet, with Michelena behind the bat, make up an effective combination.

Exeter Has Fast Team

Exeter Academy has put a fast team on the diamond this season. Coach Clarence Parker, who has had charge of the workouts, says that Exeter is represented by a much better team than last year, and predicts trouble for anyone who runs up against them. The Sophs are not making any boasts as to their ability but do not expect to let the prep school nine get away with much.

The Boston College track meet with Amherst on Saturday afternoon will be the first chance for Institute track followers to size up the Heights speedsters. General opinion seems to be that Coach Hedlunds' B. C. team will be by far the toughest combination that the Engineers will bump against at the New Englands.

Coach Jack Barry, the smoothest working shortstop in the major leagues in the days when the Philadelphia Athletics nestled as regularly in the world's championship bunting as they now do in the cellar, will manage his Holy Cross nine against Princeton this afternoon.

Coach Rice Smooths Rough Edges Tennis Team Showed at Brown

After handily disposing of Brown University Saturday the varsity tennis squad has settled down to a long session of practice. Coach Larry Rice who, it is rumored, will not go to California with Tilden to participate in the East vs West tournament, will now devote some of his time and talent to rounding out the imperfections of individual players and improving the double teams. The doubles need practice more than anything else, and Larry promises that is what they shall have if the weather remains as ideal as it has been during the last few days.

The Longwood courts are a daily scene of practice matches. Lyman Tremaine and Louis Hobbs, who both came through so successfully at Providence, are anxious to retain their places on the team and if diligence and conscientiousness mean anything they may count on continuing to be regular varsity players.

Second Round Ends Today

All games for the second round of the varsity and freshman elimination tournaments must be played by this evening. The opponents in the varsity eliminations are: M. L. Tressel vs J. Reigal; W. L. Barclay, Jr. vs J. J. Taylor; H. F. Hayden vs George Clifford; C. L. Dunn vs M. M. Delugach; Stuart Gourley vs E. L. Winslow; Edwin Schoeffel vs G. T. Storb. B. P. Lane has already turned in a card recording the defeat by him of Sperman White, Jr., 6-3, 6-3.

The freshman list for the second round is: C. E. Keniston vs G. H. Fuller; E. R. Harris vs P. Glasson; E. McKibben vs M. L. Radoslovitch; D. R. Taber vs J. K. Peck; H. Browning vs C. H. Bowles; J. W. Bird vs Shedd Vandenberg. R. L. Miller has already defeated R. G. King, 6-4, 6-4.
