**ELECTORAL COMMITTEE HOLDS FINAL BANQUET**

**Unanimously Vote in Favor of Some Form of Freshman Discipline**

The last informal gathering of the members of the Technique Electoral Committee 1924 was a banquet held Friday evening at the Louis Cafe. The function was in celebration of the completion of the work of electing the managing board for the next volume of Technique and 20 of the committee of 25 were present.

Each man received a whiskey glass with his name and "T. E. C. 1924" etched upon it as a memento of the occasion. No outside speakers were present but every man was called upon for a short speech at the conclusion of the dinner. D. B. Jennings '24, presided.

**Advocate Freshman Discipline**

W. G. Pierce '24, discussed the proposed disciplinary measures with regard to freshman conduct, and suggested that the first-year men be forbidden to use the porch in front of the main lobby. While no special form of regulation was favored, the committee unanimously voted its approval of some type of discipline.

The committee in charge of the banquet consisted of: H. C. Benedict, Jr. '24, F. G. Hamner '24, and W. H. Robinson, Jr. '24.

**DR. SWAN TALKS ON HYGIENIC PROBLEMS**

**Many Attend Yesterday's Address in Room 10-250**

Dr. E. L. Swan of the American Social Hygiene Association has been giving a series of lectures to Institute men on the subject of "Science and Sex." The first of these was given yesterday at 1:30 o'clock in the west lounge of Walker. At 4 o'clock he again spoke to an audience of about 275 men in room 10-250. Dean H. P. Talbot '86, made the introductory speech in which he outlined the difficult nature of the subject Dr. Swan was treating.

The first part of Dr. Swan's speech dealt with the sex problem in the army and the way in which it was handled. He then talked of recent developments in the practice of transferring vital human glands and its application to the correction of subnormal conditions.

The final lecture of the series will be given today in room 10-250 at 4 o'clock. The scheduled talk in the west lounge at 12:30 o'clock today will not be given because of another engagement.

**QUESTIONNAIRES DUE THURSDAY EVENING**

**Committee Expect Full Answers from Men Going to Class Functions**

All answers to the Senior questionnaire should be in today if possible. It is necessary that the questionnaire of every Senior be turned in as it will enable the committees to better plan for the events. It should be understood by the men answering the questionnaires that they are not under obligation to attend, even though they answer "yes." Full answers are also needed by the committee in order that proper plans of sufficient scope can be made to prevent crowding.

**Many Buy Blanket Ticket**

The Senior dinner will be held in the main hall of Walker on the evening of June 8. Over 60 percent of the men who have turned in the questionnaires have bought blanket tickets. All Seniors who do not turn in questionnaires will not receive the engraved commencement announcements, as the number made up will depend on the number applied for through the questionnaire. According to the present plans only those holding these blanket tickets will be admitted to the Prom unless a sufficient-large number of men call for separate tickets. Answers may be dropped in any of the Institute's mail boxes or left at the Information Office. Any Senior who did not receive a questionnaire may receive the same by applying at the Information Office today. The latest possible time at which these may be returned will be tomorrow night at 5 o'clock.

**Threaten Long-Haired Frosh with Immersion**

Members of section 20 of the class of 1925 discovered Monday that Bowman McKenna '25, lately of Tech Show, had permitted a super abundant growth of his glossy locks. They immediately collected a fund of 40 cents to be used by him for tonsorial treatment. He was compelled to sign a receipt for the amount in the presence of witnesses and also to agree to have the operation completed by today at 3 o'clock under penalty of a forced bath in the Charles river. The thrifty frosh not only accepted the commission but also hinted that his wearing apparel was sadly in need of renewal. Silence!

**ALUMNI NOTES**

**CLARK ROBINSON '17**

Clark Robinson '17, has been engaged by S. L. Rothafel of the Capitol Theater of New York City, the largest motion picture theater in the United States, to design stage settings. Mr. Robinson since his graduation from Course IV has had much experience along similar lines. He began as architectural director for "Way Down East," and then had charge of the designing of sets for Famous Players productions. Later he served as art director in "The Ruling Passion" and other productions of George Arliss. He has also been the designer of the stage settings for the Music Box Review.

Mr. Robinson is considered one of the most promising of the younger scenic artists of the stage. His theory of stage settings and the execution of his designs have few equals. As a Senior at the Institute, he contributed

part of his skill to the Tech Show as member of the Scenery Committee. He was also a member of the Architectural Society and Masque.

**NORMAN L. SNOW '04**

Norman Leslie Snow '04, recently assumed his duties as President and Treasurer of the Diamond Power Specialty Corporation of Detroit. This firm has taken over the business and plant of the older firm of that name, the members of which are retiring from the soot blower business in the western hemisphere. Mr. Snow was connected with the Terry Steam Turbine Company of Hartford, Conn., for 13 years. He resigned his position as vice-president of that organization to take over his new duties. He is also a graduate of the Yale Scientific School and has been in the power plant field since graduation from the Institute.

**ROBERT LORING '94**

Robert Loring '94, recently passed away at Asheville, N. C., where he had been visiting for several months. His health had been failing him for several years, having retired from active business three years ago to spend his time at his winter home in Montreal, and at his summer home in St. Andrews, N. B. He was a native of Boston and a graduate of Course X. For nearly 15 years he represented the Robert Hoe & Company in London, England.

**LEAVES FOR ALASKA ON GOVERNMENT SURVEY TRIP**

Arthur Watts Skilling '21, recently left his home in Lawrence for Seattle, Washington, where he will leave for Ketchikan, Alaska, on a surveying trip. Since his graduation from Course I he entered the government service and made rapid progress. As junior deck officer in the U. S. Geodetic Survey Service he will take a great part in the survey of Government lands in Alaska for several months.

He entered the Institute in his freshman year and became Sports Editor of THE TECH in his junior and Managing Editor of THE TECH in his Senior year. He was a member of the Tech Show Ballet and the Stylus and the Pi Delta Epsilon fraternity.

**SEEKS NOMINATION FOR GOVERNOR OF VERMONT**

Redfield Proctor '02, State Senator from Vermont, has announced his candidacy for the Republican nomination for Governor of that State. In doing so he is following the family tradition, his father having been elected Governor in 1878 and his brother in 1906. He has been associated with the Vermont Marble Company for many years and now is Vice-President of that firm. Senator Proctor served as a Captain of Engineers during the World War. He received his degree in Course II.

**OPENS ENGINEERING OFFICE IN CHELSEA**

Sumner Schein '21, recently opened an architects' and engineers' office in Chelsea in conjunction with Phillip Levine, a graduate of the Northeastern College of Engineering. Mr. Schein entered the Institute in his sophomore year from Harvard College and graduated from Course I. He spent one year with the Market Forge Company of Everett estimating on the designing of light structural steel work. He was a member of the Civil Engineering Society.

**AEROS WILL FEATURE BANQUET AND FLIGHTS (Continued from Page 1.)**

O. C. Koppen '23, and built by the members of the Aeronautical Society under the supervision of the designers, will be shown to the public for the first time. It is not far from being finished now, and the tests on one of the neighboring hills will take place as soon as it is finished.

The Lounger has found it necessary to abandon for once his usual austere wit and laquered humor for the purpose of administering a profoundly cynical criticism. The Junior Prom was without doubt a complete success. But numerous complaints have been

**MURRAY TAXI** All Hours  
UN VERSITY Tel 250-W

forthcoming from those individuals who were so unfortunate as to have been forced by circumstances to arrive at the Copley two or three hours late, that there were no favors for them or the young ladies they brought with them. Such was the fate which befell many of the members of the Tech Show. As the Alumni performance took place Tuesday night, the delegation from the Show didn't arrive till about midnight, and only a few succeeded in captivating one of the much coveted favors. Accordingly there is much speculation afoot as to who favored themselves with extra favors, or where did all the squads of six dollars take shelter? At least if there were not enough favors to go around, the money should have been remitted. Evidently no such move has been anticipated. The Lounger is a firm proponent of justice and fair play. The Junior Prom Committee had better offer an explanation of its negligence satisfactory to those concerned.

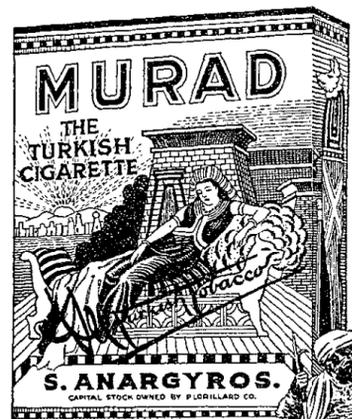

To accomplish one's end "honesty is the best policy," and foul means should not be resorted to. Yet there are numerous ingenious devices which may be employed which still fall under the realm of legitimacy. As an example, the Lounger will cite the case of the shrewd cunning and exceptionally clever machinations of one of the instructors in the English Department. Altho Prof. Pearson says the Sophomores have developed intellectually, Mr. Crosby is apparently afraid they

will fall asleep if he reads them one of Aesop's Fables. The problem was to get the Sophs to understand a poem called the "Passing Strange." And Mr. Crosby, always equal to the occasion, went down to the English and History Headquarters armed with a bouquet of dandelions and circumvented with a delicious aroma of garlic, his vocabulary primed to perfection. After mustering up all his mesmeric abilities he proceeded to "whisper some honeyed words to Prof. Pearson's secretary." Presto!—The Sophs got their poem all typewritten. There you have it! After this article Mr. Crosby will probably make the Soph's passing strange, for giving away the secret of his success. The Lounger assures his protection and wishes him happiness.
