

Tremaine and Hobbs Score Only Win in Harvard Tennis Tournament Yesterday

Harvard Courtmen Defeat Technology Team by 5-1 Score Institute Almost Shut Out in Matches on Divinity Courts Yesterday

Yesterday afternoon the crimson squad all but shut out the Engineer tennis combination on the Divinity courts at the University grounds. The score was 5 to 1. The lone tally was not won until the final match played between the second doubles pairs.

K. S. Pfaffman, ranking second in the singles, met Captain Scott of the Institute winning the set handily by 6-1, 6-4. The crimson leader, M. Duane, faced Dick Carver in the first match of the afternoon and easily outdid Carver's best efforts. Dick could manage to win only one game in two sets. The score went to Captain Dune 6-0, 6-1.

Captain Scott and Carver also paired in the first doubles of the afternoon, but again their singles opponents were easy victors. Stuart Gourley, playing on the Institute team for the first time, also turned in a card giving him the short end of a 6-4, 6-2 score. The Harvard player matched against him was R. Bradley.

The second doubles match proved a long drawn out affair with P. Holmes

and J. H. Farnham opposing the Beaver pair, Tremaine and Hobbs. The first set of this doubles went to the Farnham-Holmes combination which went into the fray fresh from the class rooms. After Hobbs got settled down to steady playing he and Tremaine won the last two sets of the three played. Their win was the only one counting for the Institute.

Just previous to this Tremaine had a long grind with G. Guild, Harvard's third best bet. The first set went to duce several times with Tremaine finally emerging a 9-7 winner. However he overworked himself in the first set and gave the match to Guild by losing the last two sets 6-3, 6-2. Tremaine has improved considerably lately. His back hand stroke is working beautifully while his forward stroke is speedy, accurate, and works with apparent ease.

Will Meet Again

Arrangements have been made to play the crimson squad again, next Tuesday. This time the Cardinal and Gray team will have the advantage of playing on familiar courts since the University meets the Beaver squad at Chestnut Hill. The Engineers promise to make it more exciting and interesting than yesterday.

Tomorrow the Engineer squad will also fight it out with the Harvard Business School. This match will also be at Chestnut Hill.

The summaries:

Singles
 Captain M. Duane (H.) defeated Roger Carver (T.), 6-0, 6-1.
 K. S. Pfaffman (H.) defeated W. R. B. Scott (T.), 6-1, 6-4.
 G. Guild (H.) defeated L. L. Tremaine (T.), 7-9, 6-3, 6-2.
 R. Bradley (H.) defeated Stuart Gourley (T.), 6-4, 6-2.

Doubles
 Captain M. Duane and K. S. Pfaffman (H.) defeated Captain W. R. B. Scott and Roger Carver (T.), 6-1, 6-4.
 L. H. Hobbs and L. L. Tremaine (T.) defeated P. Holmes and J. H. Farnham (H.), 4-6, 6-4, 7-5.

NAVY TRACK TEAM NEXT OPPONENT OF INSTITUTE RUNNERS

Technology Faces Annapolis Outfit Which Doubled Harvard's Score

CURTIS EXCELS IN BOTH 880 AND MILE FOR NAVY

Bob Hendrie and John Poole Have Chance to Break Engineer Records

By Captain H. C. Pierce '20

Although Harvard was swamped by the Navy track team, in the dual meet at Annapolis, I believe Technology's runners will do better than they expect to against the Academy. The Annapolis men have shown only average performance so far. Harvard was admittedly below par in its contest with the Midshipmen, just beginning to reach its real strength last Saturday.

In the 100 yard dash, Stryker, Marshall and Gibbons rank as well as Heap, Poole and Hayes, of the Cardinal and Gray. All six are good for 10 2-5 or better. With the Technology century entrants fighting all the way two places may go to them.

With a good day, a dry track, and fight, Poole ought to tie the Technology record in the 220. If W. L. Smith's leg is in condition he will battle Stryker and Marshall, of the Navy, for second.

Gurney should win the quarter for the Engineers' unless he breaks a leg, which is hardly liable to happen. Captain Yard Chittick, W. L. Smith and A. D. Smith will scrap Foss for the follow up positions and we ought to secure first and third in the event. The 440 has been considered one of our best points.

May Score in Half

There is no Navy half-miler who has run as fast as Snow did in the Harvard meet. Curtis, however, is capable of beating two minutes flat and is a real threat. Tammany of Navy will follow Snow to the tape if Curtis does not run Tommy Gill stands a good chance for third.

Curtis will win the mile with Elmer Sanborn second. The tussle will be for third place. Here, Poole, of Technology, will face Hurd, with the fates slightly favoring Hurd.

The two mile will go to Hendrie of Coach Kanaly's squad. With good conditions the Technology record will disappear. Curtis will probably run here; if so, he takes second with Sanborn third.

Hudson and Huckins seem to be too fast for Ambach and Blodgett, of the Institute, in the 120 yard timber event! We should pick up one point in the high hurdles however.

The low hurdles are different. Her shey was a grain ahead of, and Chittick even with, Fitts of Harvard in the contest last Saturday when the last barrier dumped one and slowed the other. One of the Engineer entrants ought to nip Hudson and the other take third.

High Jump a Toss Up

Pullen, Opie and Johnson, of the Navy, and Merrill of Technology, are all even in the high jump. The Sailors will probably get two places and seems headed for our column on the score. It is impossible to say who will win though one may count on a good performance by Merrill since he always does well in competition.

Taylor seems to be better than either Heap or Dippel in the broad jump. Sveeten and Richards will fight with our men for second and third with the odds favoring us.

McLean is too good for Sheldon in the pole vault. Sheldon can go 11 feet 6 inches but McLean cleared close to 12 feet Saturday. At the same time the pole vault is an erratic event and you never can tell. Stearns has a good chance against Wood and Huckins for third place.

Shot Put Goes to Navy

Carney seems slated to win the shot put with Nimick of Technology on the way to secure a second. Dodge should take the extra point for the Midshipmen. Big Nimick can always be counted on to do better in competition than he does in practice. The discus and the javelin are very likely to be swept by the Navy. Clapp, Adair and Leggett can throw the saucer 120 to 135 feet. Leggett, Birthwright and Clapp surpass 155 feet with the spear. Tonon may skin Clapp for third place since he is improving daily.

While the Navy will win Technology's showing depends on the

amount of really hard fighting the team does. They must not underestimate their opponents. They must not consider that the Navy men will ease up at any point of the race. The Annapolis runners will fight hard all the distance, no matter if they are first or last.

ALLEN MILITARY BALL TEAM PLAYS SOPH NINE TODAY

Academy Will Find '24 Team of Hitters Hard to Trim

The Soph baseball nine will go to Newton this afternoon with considerable confidence in its ability to leave Allen Military scalpless at the end of the scrap. The work done in the games already played seems to indicate that they may get away with it. The Sophs put up a good game at Dean two weeks ago, as is shown by a survey of the type of teams that Dean has met and trimmed.

In addition to its win over the Sophomores, Dean has had large margins over Tufts freshmen, Quincy

High, St. Anselm's, Yale frosh and other teams of equal worth, and is now rated as one of the fastest prep-school nines in New England. The Sophomore nine, working without an appropriation, without a coach, and without sufficient equipment, surely put up a game fight when it tackled Dean. The '24 men have pulled in victories over Milton, B. U. frosh and the home yearlings, all by large margins, and may find little difficulty in settling Allen.

Allen has developed a good battery this year. Briggs, who has been carrying the pitching burden, was credited with 12 strikeouts in the game with Moses Brown School at Providence last Saturday, and if it had not been for poor work behind the bat, Moses Brown would not have been able to get over its winning run in the twelfth inning.

In Walt Kennett and Michaelena the Sophs have a battery which is bound to cause trouble for anybody that has to face it.

The hitting of the whole team has also improved since the early part of the season as those fans who saw the frosh game know, and from the indications, this afternoon's game at Newton is going to be a pitcher's battle between Walt and whoever takes the mound for Allen, and quite likely that will be Briggs.

Maximum protection at lowest cost

THIS Art Metal Safe offers the highest rated protection at the lowest cost for a Class "A" Safe.

The Class "A" label of the Underwriters' Laboratories, the acknowledged authority on fire protection, means that this safe has met every one of the gruelling tests devised by this unbiased authority. A heat test of four hours at 2000 degrees, an explosion test, a drop of 30 feet while red hot must be passed before the label is granted.

Art Metal further guarantees each safe against damage of fire for twenty years. For that length of time you are protected against loss of the safe itself.

Let us analyze your fire hazards and record housing problems.
