**MISS LULU BETT**

Dr. Frank Crane—"Miss Lulu Bett" is simply an amazing performance.  
William Archer (Author of "The Green Goddess")—"I enjoyed every moment of it—characterizations are admirable throughout."

**ST. JAMES** Down Town Office, Howes, 56 Winter St. Beach 1897.  
Huntington & Mass. Aves. Back Bay 202. Best seats 2:15. Mats. One Dollar. Next Week—"THE BLUE PEARL"

**EINSTEIN HAS RIVAL**

In connection with recent earthquakes in Mexico and California, a negro preacher in Houston, Tex., has evolved an ingenious theory which, one must admit, fits very well existing circumstances. He addressed his flock as follows:

"Breddern an' sistern, we have received annuder warnin' not to go pestificatin' into the ways ob Providence. De earf, breddern, revolves on its axle, an' it takes a right sma't ob grease to keep it lubricated. So de good Lord put petroleum inside de earf to keep de axles greased.

"Den, bye an' bye, long come all dese hyah He companies, punchin' holes in de ground clear down into de hearin' and quensecently all de fle come squirtin' out. Fust thing we know dere's a hot box an' de earf squeaks an' rumbles an' grunts an' dat's de earthquake. If dey don't quit it purty soon dere won't be no moah grease left and de earf will stick tight on its axles an' won't go 'round no moah."—Wayside Tales

**MACDILL '22—JONES**

The engagement of Major L. MacDill '22, now taking a special course at the Institute for the degree of Doctor of Science, to Miss Marilla Augusta Jones, daughter of Mr. and Mrs. Richard Hamlen Jones of 40 Beacon Street, Chestnut Hill, was recently announced.

Major MacDill is the son of Rev. and Mrs. Edgar MacDill, D. D., of Cincinnati, Ohio. In his World War service Major MacDill built and commanded the aerial gunnery school at St. Jean de Montes, in France. At the time of his return to this country he was chief of operations for the Chief of Air Service in Washington, D. C. He is a member of the Chevy Chase Club, Washington, and of the Sigma Xi fraternity.

**ALUMNI NOTES**

**FRED B. WILDER '00**

Fred Blaisdell Wilder '00, is at present the so-called "Sewer Inspector" of the city of Long Beach, California. The job is not as bad as it sounds for he has complete charge of the entire sewerage system. Mr. Wilder is a graduate of Course III and was formerly a mining engineer in Joplin, Mo.

**THURSTON '21—MOORE**

Mrs. J. Herbert Moore of Brookline has announced the engagement of her daughter, Pauline, to Robert Ray Thurston '21, son of Mr. and Mrs. Henry W. Thurston of Montclair, N. J. Miss Moore is a graduate of Miss Wheelock's school. Mr. Thurston completed Course X and was a member of the Chemical Society for three years and on the Dormitory Committee in his freshman year.

**ALBERT C. ASHTON '89**

Albert Carter Ashton '89, recently died at his winter residence in Florida. Born in England, he was a resident of Somerville for many years. He graduated from the Chaucey Hall School and received his degree from Course II at the Institute. For over 20 years Mr. Ashton served as treasurer of the Ashton Valve Company of Cambridge.

**REED '18—WILKINS**

Miss Margaret Wilkins, daughter of Mr. and Mrs. Clarence H. Wilkins of Newton Centre was recently married to David Allen Reed, Jr. '18, son of Rev. and Mrs. David Allen Reed of Springfield. Miss Wilkins was a pupil of the Boston Museum of Fine Arts school. Mr. Reed after graduation from Course IV took up graduate work at the Institute. They will live at 6 Goodwin place, Beacon Hill, Boston, and will be at home after June 1.

**LEO. I. DANA '17 RECEIVES HARVARD FELLOWSHIP**

Among the 17 Harvard University students who have been awarded fellowships is Leo Isadore Dana '17. The men selected by the Corporation of Harvard University were chosen after being nominated by the fellowship committee. Mr. Dana who is a resident in Roxbury will be enabled to continue his advanced study of physics in Europe. He is a graduate of Course VIII and was formerly a resident of Washington, D. C.

**HENRY SIMONDS '75**

Henry Simonds '75, recently died at his home in Lexington, Mass. For many years he was a member of the firm of H. & P. P. Simonds, dealers in wool at Summer Street, Boston. After graduating from Course II he was employed as a clerk with George Dunbar & Co., dealers in railroad supplies. Before entering the wool business he was with the architect's office of the City of Boston, as a draughtsman. Although born in Belmont he was a resident of Lexington for about 40 years.

**APPOINTED STATISTICIAN TO HEALTH ASSOCIATION**

Gordon Maskew Fair '16, of Course XI, recently assumed his duties as director of the bureau of statistics and research of the Cuyahoga County Public Health Association. He was formerly instructor in sanitary engineering at Harvard University and in vital statistics at the Harvard Medical School, Harvard School of Public Health, and at the Institute.

During the war Mr. Fair served with the Canadian Army. Subsequently he conducted a health survey of the middle European countries in connection with the sanitation division of the Legion of Red Cross Societies. His

contributions to health and statistical publications are of recognized merit.

**LOUIS K. ROURKE '95**

Louis Keegan Rourke '95, an engineer of national fame was appointed by Mayor Curley as Transit Department Commissioner of Boston. He has had previous experience as a public servant, having been Public Works Commissioner under former Mayor Fitzgerald. He is well acquainted with Boston's transportation problem having been connected with the Boston Elevated and is thus well fitted for the position.

After graduation from Course I he became associated with the Panama Railroad and later became roadmaster of the Guayaquil and Quito Railroad in Ecuador. He held the position of superintendent of construction and other important posts in the building of the Panama Canal. In 1910 he returned to this country and became associated with the Public Works Department of this city. Mr. Rourke is a resident of Roxbury and is treasurer of the McCulloch Manufacturing Company.

"For the chemist it is of the very first importance to be able to discriminate between slight variations of hue or shade, to recognize minute differences in the macroscopic and microscopic structure of precipitates, to recognize trifling changes in bodies, and to recall them; he should have a delicate sense of touch and of smell"—Dr. R. E. Rose.

The present American Chemical Industry is the result of the labors of chemists trained along these lines.

Its future development rests with those who develop within themselves these same qualities.
