**TECHNOLOGY TRACK MEN
TIE BOSTON COLLEGE**
(Continued from Page 2)

tratz of Middlebury, Ferris of Holy Cross, and Jones of Brown completed the roll.

**Poole Pulls Tendon
in Furlong Finals**

The 220 yard dash semi finals saw Dodge and Driscoll cut out Porter while Bill Smith trailed Miller and Sullivan. Johnny Poole came through nicely however and broke the tape only a stride behind Seiberling of Wesleyan. Then the six men qualified came down the lanes for the final. Poole was fighting Driscoll on even terms for fourth when he pulled a tendon and barely escaping a fall was at once out of the contest. The sprinters sped on down the stretch but Driscoll did not come up as he had been expected. Fourth was his best achievement for both Dodge and Miller of Williams and Seiberling of Wesleyan lead him over the line.

Nevertheless the point he scored put B. C. in a 24 to 17 lead over Technology. And to make a bad matter worse Brown had crept up to 19 while

Bates also lead Kanaly's men by one point. With no entry in the pole vault finals everything depended on the showing the Engineers would make in the low hurdles. From five times champions to fourth place was a terrible comedown and the Technology team's fighting spirit was aroused.

It seemed as though the jinx which had so far put all the breaks against the Beavers, now shifted over, for in the first heat of the semi finals, Merrick, the sole B. C. qualifier, fell at the first hurdle and Coach Ryder had no chance of scoring in this event. Both teams were out of the pole vault which was being fought out by Darling of Amherst and Bishop of Bowdoin, finally going to the former. First and second places would win the meet for Technology first and third would tie it.

**Cardinal and Gray
Hurdlers Tie Score**

Cook of Wesleyan and Russ Ambach qualified in the second heat, Hershey and Phillips of Wesleyan in the third and Chittick and Wing of Amherst in the fourth. Eight men qualified necessitated more elimination heats. These were run with Hershey trimming Wing and Chittick leading Cook over the barriers. Four men were to settle it in the final and Technology had Chittick and Bob Hershey to count on.

All four started even with the gun but clearing the first hurdle Bob Hershey stumbled and nearly fell. Captain Yard was out in front now running like a nice machine but every

Technology roofer felt lost when Bob seemed gone. Yard alone couldn't get but five points. In a flash however Hershey recovered and came on, trying with every barrier to overtake Wing and Cook. Just before the finish line was reached he did flash by the latter but Wing was too far ahead. Yard won handily but Wing trailed him and the seven points were only enough to tie B. C.

The 36th annual N. E. I. C. A. A. championship ended in a deadlock, but after the gloomy moments of Saturday afternoon, when Technology was seemingly hopelessly lost, to Institute men it seemed like a victory and to the athletes who worked so gamely it was one.

100 Yard Dash—Final Heat—Won by Carter, Brown; second, Miller, Williams; third, Dodge, Williams; fourth, Carroll, Holy Cross. Time—10 4-5 secs.

220 Yard Dash—Final Heat—Won by Dodge, Williams; second, Miller, Williams; third, Seiberling, Wesleyan; fourth, Driscoll, Boston College. Time 23 2-5 secs.

440 Yard Run—Final Heat—Won by James W. Driscoll, Boston College; second, Clarence Archibald, Bates; third, A. D. Smith, Technology; fourth, William B. Gurney, Technology. Time—2m. 1-5 s.

880 Yard Run—Final Heat—Won by Arthur T. Kirley, Boston College; second, E. A. Hunt, Bowdoin; third, Joseph Nutter, Brown; fourth, Stewart Richmond, Williams. Time—2m. 1-5 secs.

FOR PURE WATER

DU PONT

CONCENTRATED FILTER ALUM

Our 22% Al₂O₃—73% Aluminum Sulphate—because of its strength—renders a complete solution of the most difficult filtration problems, at a particularly nominal cost.

It is especially made for use where conditions of low alkalinity and high turbidity prevail.

It removes all vegetable matter and diminishes bacteria.

We also make 17% alum. for use in mechanical filter plants.

**A Scott Specialty
In Student Suits**

A SERGE for service for a serge suit will stand up and wear and wear when an ordinary Tweed or Cheviot would be hopelessly done-up.

And, indeed, apart from its service point of view, it's the greatest of all utility suits. What other business suit has its semi-social value?

Fine worsted Serges, various weights, Priced \$50 to \$65. Direct from our own work rooms.

Ready-to-Wear

340 Washington St., Boston
