**CURB STONES INSTALLED
BY CITY OF CAMBRIDGE**

Work to Be Completed Before
Commencement

At the request of the Executive Committee the City of Cambridge is installing the edgestones along the edge of the campus fronting the Charles. The cost will be between \$1500 and \$1800, including the amount necessary for planting grass in the space between the stones and the sidewalk.

Major A. S. Smith hopes to have the work completed and the grass well grown by the time of the Commencement exercises. He did hope to transplant some trees but the order for the work did not go through in time to permit it.

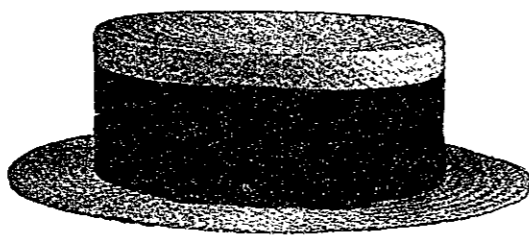

ALUMNI NOTES

J. PAUL GARDNER '17

J. Paul Gardner '17, has opened a dancing studio in Washington D. C. He is more widely known as Paul Tschernikoff, the ballet master formerly with Fokine and Adolf Bohm. He was the director of the ballet and the premier danseur of the Washington Opera Company which gave the recent performances of "Samson and Delilah" in Washington and Baltimore. He is a graduate of Course IV, and was chairman of the costume committee in the 1917 Tech Show. During the war Mr. Gardner was a Captain in the Coast Artillery Corps and received the Croix de Guerre, with a palm. In his studio he teaches the Washington debutantes the steps of the Russian dances.

HARRY H. CUTLER '81

Harry Henderson Cutler '81, a graduate of Course II, has begun the manufacture of his famous Cutler automotive products in Boston. Over five years ago he gave up his interests in the Cutler-Hammer Manufacturing Company of Milwaukee, with which he was associated as vice-president and chief engineer, to devote more of his time to automotive inventions. Mr.

Cutler is an inventor of note, having been granted 76 patents. Among his inventions is the Cutler piston, and the Cutler tappet for Fords which was exhibited for the first time at the Automobile Show. His present location is at Northampton Street, where he specializes in pistons.

HENRY MARION HOWE '71

Henry Marion Howe '71, A. M., LL. D., one of the leading metallurgists in the United States, and professor of metallurgy at Columbia since 1897, died in his home in Bedford Hills, N. Y. Born in Boston 74 years ago, he graduated from Course III in 1871. He was the son of Julia Ward Howe, author of "The Battle Hymn of the Republic."

His work in metallurgy and his many books on the subject won honors in several countries, including the Bessemer medal of the British Iron and Steel Institute, and the Elliott Cresson gold medal of the Franklin Institute of Philadelphia.

Mr. Howe was president of the Jury of Mines and Mining at the Chicago Exposition in 1903; a member of the jury at the Paris Expositions of 1889 and 1900; president of the American Institute of Mining Engineers in 1893; president for three terms of the Alumni Association of the Institute; honorary member of the Russian Imperial Technical Society, the Swedish Royal Academy of Science, the British Institution of Mining and Metallurgy and other organizations.

He held the degrees of A. M. from Harvard and LL. D. from Harvard and Lafayette.

**FORMER INSTITUTE MAN
INJURED IN EXPLOSION**

The tragedy enacted last Friday afternoon at the Jefferson Physical Laboratory when a large tank of liquid air exploded in the basement, wrecking the building, killing two, and injuring many others, comes pretty close to home even at the Institute. B. F. Dodge '17, a graduate of Technology, doing work at Harvard, was caught in the explosion, and is numbered among the injured of one of the greatest calamities of college life in years. While at the Institute Dodge was advertising manager of THE TECH, Vol. XXXV, and captain of the Cross Country Track Team. Upon leaving Technology he became connected with Harvard and was working in the Physics department when the building blew up. The exact extent of his injuries is not known, though he was hurled many feet across the room by the force of the concussion, and was lacerated by flying glass.

**FACULTY TO ELECT
OFFICERS TOMORROW**

Illustrated Talk by Desmond
Fitzgerald Follows
Meeting

WILL BE LADIES' NIGHT

The Faculty Club will hold its final meeting of the year tomorrow evening in the Faculty and Alumni room, Walker, at 6 o'clock. This is to be the annual business meeting at which the officers for the following year will be elected.

Following this business meeting, there will be a meeting of a more social nature, to which the ladies are invited. It is set for 8 o'clock. The speaker at this latter meeting is to be Mr. Desmond Fitzgerald, who will talk on the "National Parks."

Colored Slides Illustrate Talk
Mr. Fitzgerald is a member of the Corporation, and is said to be very well fitted to talk on the subject he has chosen, having traveled extensively throughout the west. Many of his trips have been with officials of the National Parks.

During these trips, Mr. Fitzgerald has collected many very beautiful colored views, and he will use them tomorrow evening to illustrate his talk.

**TECH SHOW SCENARIOS
DUE NEXT SATURDAY**

Preliminary Outlines Must Be
Turned in at Show Office
June 3

The 1923 Tech Show Scenario Competition will close on Saturday, June 3, as was announced at the meeting of scenario writers held a week ago last Monday. All preliminary scenarios must be presented at the Show office prior to this date. Professor R. E. Rogers is going to judge as to the relative merits of these outlines.

It is requested that each writer present his manuscript in typewritten form with some three figure number written thereon, and also that the writer turn in at the same time a sealed envelope containing his name and summer address. The outside of the envelope should not bear any other marks than the same three figure number that identifies the manuscript. The Show management feels that only in this manner may a truly impartial judgment be obtained.

It is considered most desirable that the scenarios be presented as soon before the closing date as is possible in order that the work of judging may be brought to an early close.

Training for Leadership

BUSINESS LEADERSHIP is a matter of mental training and ability plus a knowledge of business principles and their practical application to business life. In addition to your undergraduate work, which should serve as solid foundation, it will be well to consider the advisability of special training which will cut off years of apprenticeship in the business world.

The Babson Institute offers an intensive training course of one or two years—which teaches the fundamental principles of business and how to apply them in the conduct of commercial affairs. By laboratory methods the student is shown and taught the principles of Executive Management which have built many of America's leading concerns. Babson Institute is conducted for the purpose of aiding young men, who are to occupy positions of responsibility and trust to fill such positions ably and with credit to themselves.

Write for Booklet

If you are seriously ambitious for leadership send for booklet. You will learn of the unusual methods peculiar to this institution by which men are fitted without loss of time for executive positions. Merely send your name and address to

Babson Institute

**A Scott Specialty
In Student Suits**

A SERGE for service for a serge suit will stand up and wear and wear when an ordinary Tweed or Cheviot would be hopelessly done-up.

And, indeed, apart from its service point of view, it's the greatest of all utility suits. What other business suit has its semi-social value?

Fine worsted Serges, various weights, Priced \$50 to \$65. Direct from our own work rooms.

Ready-to-Wear

Scott & Company
LIMITED

340 Washington St., Boston
