Training for Leadership

BUSINESS LEADERSHIP is a matter of mental training and ability given a knowledge of business principles and their practical application to business life. In return to your undergraduate work, which itself is a solid foundation, it will be well to consider the advisability of special training which will cut off years of apprenticeship in the business world.

The Babson Institute offers an intensive training course of one or two years—which teaches the fundamental principles of business and how to apply them in the conduct of commercial affairs. By laboratory methods the student is shown and taught the principles of Executive Management which have built many of America's leading concerns. Babson Institute is conducted for the purpose of aiding young men, who are to occupy positions of responsibility and work to fill such positions ably and with credit to themselves.
