

CALIFORNIA REPEATS I.C.A.A.A. WIN

Exceptional Strength in Field Gives Second Straight Victory to Bears

CLASS DAY TICKETS WILL BE GIVEN OUT DURING THIS WEEK

Gold Pencils Are Prizes for
Winners of All Contests
on Senior Outing

CLASS DAY EXERCISES TO BE HELD IN GREAT COURT

Will Take Pictures of Entire
Class Both on Picnic
and at Class Day

Tickets for the Class Day Exercises of Senior Week will be given out at the main lobby Wednesday and Thursday from 12 until 1:30 o'clock. Only two of these tickets will be issued to each man. At the same time, Commencement announcements will be issued, each man being able to secure as many of them as he desires. A small charge will be made for the latter. During this same period Wednesday and Thursday tickets will be on sale for the picnic, the dinner, Pops Night, and the tea dance.

At a meeting of the Senior Week Committee last Friday night, it was decided that gold pencils would be the prizes offered for winners of the picnic events. Pencils were being considered as suitable, and J. E. Sallaway '22, chairman of the picnic sub-committee, discovered during his search, that a gold pencil could be purchased at just half the cost of a silver one. Any man going on the picnic will be eligible to compete for one of these prizes.

No Picture of Prom

A baseball game of exceptional interest will be staged at Pemberton during the picnic. Two famous organizations, the "Dirty 30" and the "Nasty 9," have promised to meet each other in a five inning game which is expected to rival the major leagues for clever work. Up to the present time 375 men have bought tickets but there is room for more and any men who wish to may still obtain reservations.

The Prom will be the first major formal event for some time at which no picture has been taken. The committee decided that the confusion and discomfort which a flashlight occasioned were not worth the bother and consequently voted down a proposal to have one taken. Pictures of the entire class will be taken at the picnic and on class day. Punch has been ordered in addition to the regular refreshments for the Prom and

HEXALPHA SOCIETY HOLDS LAST SMOKER

Entertained by Speakers and
Music at Meeting in
North Hall

Under the direction of its newly elected officers, the Hexalpha Society held its last smoker of the year Friday night in the north hall of the Walker Memorial. H. E. Koch '22, president of the society, was in charge of the smoker, and acted as chairman during the evening. Professor W. H. Timbie, of the Electrical Engineering Department, gave a speech in which he commented upon the success of Course VI-A, and suggested that the idea on which it was founded might be applied to other branches of the electrical industry, namely to the Electric Railway field.

Plan to Publish Paper

Additional entertainment was provided by F. D. Gage '22, and other members of the course. The new officers gave short talks. A large amount of Course and Professional spirit was shown at the meeting.

One of the ideas which was brought up at the meeting was the publishing of a paper by Course VI men. None of the details of the undertaking have yet been given out, but the officers feel that it would be very successful, and would help to unite the course, which is somewhat broken up by the unusual distribution of its work between the Institute and the factory.

GOAL FOR SILVER BAY NOW RAISED TO 30 MEN

The quota of 20 delegates to the Silver Bay conference was exceeded last Friday by four men, and the goal is now 30. Those who have signified their intention of going since the names of the first 19 delegates were announced are as follows: D. W. Lowry '24, Kaare Aass '24, P. H. Carrier '25, T. B. Drew '23, Hugh Elliott G., and G. W. Potter '22.

Of the total 24 men who have so far pledged themselves to go, the classes are represented by the following number of delegates:—Graduate, 4; 1922, 5; 1923, 9; 1924, 5; 1925, 1.

The colleges are unusually active this year in securing delegates, and those who have attended previous conferences are doing all they can to help make it a success. Technology sent ten men last year. This year it is expected that even the increased quota of 30 men may be exceeded, which is in itself an indication of the increased popularity of the Lake George get-together.

NEW HAMMER MARK AND 13 POINTS GO TO JACK MERCHANT

Alfred Leconey, Lafayette
Sprint Star, Takes Both
100 and 220 Dashes

GLENN HARTRANFT WINS SHOT PUT AND DISCUS

Technology Athletes Shut
Out in National
Classic

The University of Southern California track team scored its second win in two years in the I. C. A. A. A. track and field championship meet in the Stadium Saturday afternoon totalling 40 1/2 points. This time it was nine points instead of a scant one-half that separated the Bears from their nearest rivals for the national collegiate title.

Princeton was second with 31, followed by Leland Stanford, the second representative of the Pacific Coast in the competition, with 26 1/2. Stanford topped Cornell by five points. Technology failed to score, though Bob Hendrie ran a wonderful race in the two mile, leading the field for seven laps and Elmer Sanborn was right in the fight in the mile.

Jack Merchant was the individual high scorer of the classic, his total being 13 points. A first in the hammer, in which he broke the I. C. A. A. A. record by six feet, a second in the shot put, and fourths in both the broad jump and the javelin were his contributions to the Californian margin of victory. He was a track team in himself, scoring more points himself than well over half the teams were able to accumulate.

Leconey Lowers Record

Leconey of Lafayette came through in the sprints as was expected, though his triumph in the 220 was by no means as certain as his five points in the century. He was clocked in 9 7-10, as the new intercollegiate times are announced and this is lower than the present record. Whether his mark will stand is rather a question since the runners had the breeze on their backs.

Woodring pulled a tendon in the fight at the tape in his last race in the 100 yard dash and was unable to compete in the furlong. The chances are that he would have grabbed first for Syracuse, since his heat on Friday was the fastest. McKim, Princeton's hope had the same sort of accident in a 220 heat, stopping dead in his tracks.

Leroy Brown, who holds the indoor collegiate high jumping record, added the outdoor championship to his crown Saturday, tacking an eighth of an inch on to the former mark. He tried to go over an even 6 feet 5

CALENDAR

Monday, May 29
7:00—Latin-American Club dinner, Buckminster Hotel.
Wednesday, June 7
3:00—Senior Class Day Committee, Tea Dance, main hall, Walker.
Thursday, June 8
6:30—Class of 1922 Banquet, main hall, Walker.
Saturday, June 10
12:00—Senior Class Day Exercises, Walker.

TECH SHOW 1922 SUBMITS REPORT

Six Performances Given in
Two Cities Attended
by 6500 People

REPORT ON FINANCES

The management of the Tech Show 1922 having completed its affairs has submitted the report of the performances and financial side of the Show to the Advisory Council and to the Institute Committee. Six performances were given and attended by approximately 6,500 people, 108 of these being admitted by complimentary tickets. The performances were given on the evening of April 15 in Jordan Hall; evening of April 17, afternoon and evening of April 18 in the Boston Opera House; and on the afternoon and evening of April 19 in the Academy of Music, Northampton. The gross income amounted to \$15,698.94, and

T. A. C. REPORTS ON YEAR'S ACTIVITIES

Has Given Many Teams Support
and Financial Backing
During Season

In order that those who contributed to the T. A. C. last fall may know where their money has gone, W. A. Metcalf '23, the president of the club, wishes to make an informal report of what has been done towards helping Institute athletics this year. The T. A. C. took charge of selling tickets for a great many of the meets and games, among which were: all hockey, track, and basketball; Field Day; and tickets at the Institute for the I. C. A. A. A. track meet at the stadium.

Presented Cup for Class Track
They gave financial backing to several of the teams whose appropriations from the M. I. T. A. A. were not large enough to cover their schedules. In this way they made possible larger schedules for a number of the important teams. Among the numerous instances of the above are listed donations of \$200 towards the basketball team's expenses, and \$300 for freshman baseball. They also furnished balls and bats for the Sophomore baseball team. The Club sent the Institute Fencing Team to the Intercollegiate Fencing Meet, at a cost of about \$55, and presented a cup for the Interclass track meet.

The T. A. C. plans to make some radical changes in their organization and policy next year, due to the re-appointment of the Student Tax. These changes have not been definitely announced yet.

E. E. SOCIETY GIVES LAST DANCE OF YEAR

Affair Held in Main Hall of
Walker Memorial

The Electrical Engineering Society held its final social gathering of the year last Friday evening in the main hall of Walker. The dance started at 8 o'clock and lasted until 12. It was not strictly a Society affair, but was given for the purpose of getting all the men of Course VI better acquainted with each other, and was attended by members from all classes. A large number of the instructors and professors in the Electrical Engineering Department were also present, including Professor W. H. Timbie, Professor T. H. Dillon, and Professor F. S. Dellenbaugh.
