

FRESHMAN BALL TEAM WINS FINAL GAME OF INTERCLASS SERIES

Sophomores Held Scoreless
While Frosh Drive
in 12 Runs

VICTORY IN FIFTH MATCH GIVES '25 CHAMPIONSHIP

Strenuous First and Eighth
Innings Account for
Nine Tallies

After driving home four runs in the first inning, the frosh had the title game all to themselves Wednesday afternoon, piling up 12 tallies while Bill Wheeler shut out the Sophs without a run.

Frosh Score Early

In the last of the first inning, the frosh started to make things hot in the field. Cook, who headed the batting list, singled and went to second on Walterskirchen's error, took third on Carrier's single, which was muffed by Earle Bates, and came home with the first run of the game when Earle plugged a wild one over Stoup Clark's head. Walt Kennett handed Dave Peene a pass, Peene slid into second and followed Carrier home when Balcom singled. Ed Eger drove Balcom in with another run, and Wheeler was blanketed at first after every man on the frosh team had had a chance at Walt Kennett's delivery in the first inning.

Kennett Tightens Up In Second

In the second inning Walt Kennett put the lid on the head of the frosh batting list when he retired the first three men up with two strikeouts and a foul tip that Mich handled easily. The Sophs fared slightly better then in the first inning; Earle Bates singled and advanced two more bases on Stoup Clark's double, but both were left on base when Walters, Chappin, and Robertson were clipped at first.

Frosh Score Again In Fourth

Ed Eger made second in the fourth inning when Walt Kennett picked up a roller and heaved it over Walterskirchen. (Continued on Page 3)

ANNOUNCE BOARD OF CONTRIBUTING EDITORS

Heads of Activities Are Now on
Advisory Board of
THE TECH

Following the precedent set by Volume XLI of THE TECH the present managing board has elected the following men as members of the Board of Contributing Editors.

- C. A. Brantingham, 400 Charles River Rd.
- M. N. Waterman, 28 The Fenway
- F. G. Harmon, 9 Russell St., Camb.
- W. D. Schofield, 393 Marlborough St.
- D. B. Jennings, 106 Sewall Ave., Brookline
- C. C. Taylor, 1783 Mass. Ave., Camb.
- H. L. Bond, Technology Dormitory
- R. P. Shaw, 95 Newbury St.
- G. F. Nesbitt, 106 Sewall Ave., Brookline
- R. H. Frazier, Technology Dormitory
- K. C. Kingsley, 512 Commonwealth Ave.

The board is selected by THE TECH from the undergraduate body and includes those men who are the leaders of their classes in activities together with men whose opinions are representative of the student body.

The first meeting of the board was held Wednesday at 5:00 in the Faculty and Alumni room at which time E. E. Kattwinkel '23, General Manager of THE TECH, outlined the plan and purposes of the board. Volume XLI saw the necessity of obtaining a consensus of opinion of the heads of the activities at the Institute and formed this board in order to have a medium of expression of the policies of these activities, and the present volume deemed it advisable to continue this excellent plan.

The board will meet on an average of twice a month. New men will be added from time to time as the managing board of THE TECH considers it advisable.

COAST ARTILLERY GOES TO FT. MONROE

Many Interesting Trips on
Program for Students
This Year

18 COLLEGES REPRESENTED

Men taking Coast Artillery work in the R. O. T. C. this summer will spend their six weeks at Fort Monroe, Virginia, at Old Point Comfort. The camp begins on June 15, and ends July 27. Colonel A. A. Maybach, who was Professor of Military Science and Tactics at the Institute in 1919, will be the Camp Commander. He has taken full advantage of the excellent surrounding country in preparing a very desirable program of pleasure and instruction. The camp is situated within a short distance of the best summer resorts in Virginia, and the men have frequent opportunities to visit them.

Course of Instruction Outlined

The course of instruction given at the camp is entirely of a practical nature and is arranged so as to give applications of the theory taught during the school year; rifle and pistol practice with some automatic rifle and machine gun firing will be the major subject for one week. Students will fire regulation army courses and will be eligible for regular army marksmanship badges. In addition to the required firing, college teams will be organized for competitive work. The winning college team will be sent to Camp Perry, Ohio, to compete in the National Rifle matches. At last year's camp the University of Michigan team won at Fort Monroe, and at the National matches they repeated their victory over the teams from the other R. O. T. C. camps representing the infantry, cavalry, and engineer units.

New Features Offered

One week will be devoted to tractor artillery work. Every student will be instructed in driving trucks and tractors, and in the maneuvering of 155 mm. G. P. Filloux guns. Motor conveyer experience is given to all the advanced students in the form of a 40 mile drive to Camp Eustis, with about 35 trucks taking part in the movement. Anti-aircraft, artillery, and searchlight operation are new features of the camp which will be offered to the students. The regular anti-aircraft battalion at Fort Monroe conducts its target practice by firing at targets towed through the air by airplanes from Langley Field.

Every Saturday morning, instruction visits are made to points of interest in the neighboring country. The Portsmouth Navy Yard, the Naval Operating Base, Newport News Shipbuilding Corporation, Langley Field Air Service Schools and Laboratories, and the Yorktown battlefields are all on the schedule of visits. On Saturday afternoons, many students make boat trips or interurban railway trips to points of historical interest such as the Jamestown Colony which was settled in 1607, and to the numerous battlefields of the Revolution and Civil War around Richmond, Virginia. Drill is held regularly at the camp. Last year the battery of Technology students, H. L. Pearson '22, Cadet Captain, won the silver cup for excellence in infantry drill.

Many Recreations Afforded

About 550 students from 18 colleges in the eastern half of the United States will attend the camp this summer so that it is possible to arrange for many social and competitive recreations during the course. There is good salt water swimming at Fort Monroe and men preferring fresh water may go in the James River at Camp Eustis. A Red Cross Life Guard (Continued on Page 3)

It is expected that all students graduating at this time will attend the graduation exercises. Any who are unable to do so should petition for excuse from attendance, and should also notify the Secretary of the address to which their diploma should be sent.

It is hoped that those who expect to complete the requirements for their graduation by work during the coming summer will also attend these exercises.

A. L. MERRILL,
Secretary.

CREW MEN CHOOSE LEADER AT FINAL BANQUET OF YEAR

H. R. Greatwood '24 Elected
to Succeed Retiring
Captain McCurdy

RESULTS OF MANAGERIAL COMPETITIONS ANNOUNCED

Over 50 crew enthusiasts were present last Wednesday night at the banquet held in the Riverbank Court, celebrating the closing of the rowing season. R. H. Greatwood '24, who rowed at 5 throughout the past season, was chosen captain for next year. The heaviest man on the first shell, he was the guts of the boat, competing in every varsity race this spring. Last fall he rowed on the Sophomore Field Day crew. In his freshman year he was on his first class crew.

In addition to the election of the captain, announcement was made of the managers for next year. F. S. Hungerford '24, will succeed R. H. Smith '23, as manager of crew. C. S. Hoffman '25, and A. H. Stanton '25, were chosen Sophomore assistants.

Rowing Association Discussed

The banquet was presided over by Manager Smith. Dr. Rowe talked at length on the probability of the formation of a Rowing Association at Technology within the next few years. This association would be separate from the crews, its purpose being to interest the student body at large in rowing.

The possibility of a challenge cup to be awarded at an interclass regatta in the spring was brought out by Dr. Rowe, as well as the securing of straight "T's" for members of the varsity boat.

Crews Need Weight

Coach Stevens pointed out the chief trouble with the Technology crews this season—lack of weight. In some races the Engineers were outweighed by their opponents by as much as 20 pounds per man. There are enough big men at the Institute to supply crew material of the necessary size. All that is needed is a method of interesting the men and getting them out.

Mr. Everett Morss, the donor of the launch Wolf, congratulated the crews on the way they had come out in the earlier part of the season when without a coach and without a launch. In spite of the fact that victories were few and far between the season was successful, in that it firmly established rowing and paved the way for still more successful seasons.

TOMORROW LAST DAY FOR SHOW SCENARIOS

Manuscripts to Be Returned for
Revision During Summer
Vacation

The Management of Tech Show wishes to remind all men who are writing scenarios for next year's show that in order to take advantage of Professor Rogers' and the management's advice and criticism on the scenarios, they must be turned in at the Show office before one o'clock on Saturday, June 3.

By doing this, the writers may avail themselves of valuable suggestions before writing up the final book next fall. The scenarios must be in typewritten form and must bear a number of at least three figures by the writer. An envelope bearing the same number as is on the scenario and containing the writer's name and summer address must accompany the scenario. In this way, the ultimate selection will be arrived at by means of the number rather than the writer's name, thus insuring a truly impartial decision. The manuscripts will be returned during the summer to the writers for revision.

If any one chooses to present his scenario during the fall, he may do so. However, he will not have the advantage of criticism and suggestion by Prof. Rogers and the Show management as will those who present their preliminary outlines at this time. The office will be open from 4 to 5 o'clock today and from 11 to 1 o'clock on Saturday to receive scenarios.

STUDENTS EXCEED CONFERENCE QUOTA

Thirty-Two Men Have Signed
Up as Delegates at
Silver Bay

MANY ACTIVITIES PROVIDED

The Technology Christian Association announced yesterday that the quota of 30 delegates to the Student Conference at Silver Bay, Lake George, has been exceeded by two men. The goal of 30 men was set when the trip seemed to hold such popularity among the students that the original quota of 20 was reached and passed. Last year the Technology delegation

SHERWOOD EDDY

consisted of ten members, and as reports from other colleges correspond with the increase of this year's number, the 1922 conference promises to be the largest and most active in its history.

Since the last announcement of the men who were going was published, the following have signified their intention of attending the conference: R. D. Tabor '25, F. Schlarb '25, and F. B. Kent '22.

Delegates Leave Here June 15.

All men who are going to Silver Bay direct from Boston will leave North Station on the morning of Thursday, June 15, at 7:45 Eastern Standard Time. The route is by way of Rutland, Vermont, and the train arrives at Montcalm Landing, Lake George, at 3:40 in the afternoon of the same day. The delegation will be met by automobiles which will take them to Silver Bay, a ride of about twelve miles.

The railroads have co-operated with the New England Field Council in the matter of transportation, and have reduced the fare to Silver Bay for the delegation to fare-and-a-half for the round trip. The Technology Christian Association is giving financial aid to the men who are going, paying half the expenses of those who so request. In the case of foreign students, the T. C. A. and the Committee on Friendly Relations Among Foreign Students of New York unite in paying half the expenses incurred.

Many Prominent Speakers

There will be a number of well known men who will address the (Continued on Page 4.)

H. G. BORDEN '14 GETS \$5500 STATE POSITION

Recently Gained Recognition as
Winner in Edison Test
Questionnaire

Howard Granville Borden '14, of Hollywood avenue, East Orange, has been appointed Director of Labor, Industry, and Administration of the State Department of Institutions and Agencies, upon the recommendation of B. G. Lewis the present Commissioner. His appointment is temporary, pending a civil service examination. He was selected from 700 trained and experienced executives and will probably receive the salary of his predecessor, which was \$5,500.

Mr. Borden is a graduate of Course I and was once in the employ of John A. Stevens as power plant engineer. Several months ago he obtained employment at the Edison plant in Orange by answering the Edison questionnaire.

SENIORS TO HAVE POLICE GUIDANCE THROUGH CITY

Class Picnic at Pemberton
Next Tuesday First Event
of Busy Week

TO PARADE THROUGH BUSINESS DISTRICT

Class Day Invitations to Serve
as Admission Tickets
to Exercises

The Seniors have finally secured a parade permit for the day of the picnic and the class will march down Washington street from Kneeland to Summer and Hawley streets. It is understood that a detail of police will be provided to guide the men through the streets in case they are unable to find their way.

It will be necessary to start from Charles River Road at 9 o'clock sharp in order to allow time for this parade and those men who are late must take the subway to Rowes Wharf where the boat leaves at 10. The return trip will be made at 5:10 o'clock. In case of rain the picnic will be postponed from June 6 to June 8 and all contracts have been made with this possible change in mind.

No Bathing in Ocean

Due to dangerous currents men are forbidden to swim in the ocean. The cross currents near Pemberton are very dangerous to even experienced swimmers, this point being one of the most difficult in the long swim to Boston light. The pool will be available at all times that no aquatic sports are being staged. Men planning to play baseball must bring gloves; other equipment will be supplied.

For music the committee has arranged for bag pipes and drums. These will be in action during the parade, on the boat, and at dinner. During the dinner from 1 to 1:30 o'clock a banner raffle will be held, prizes will be awarded, and there will be singing and cheering by the class as a whole. Just before the dinner a picture will be taken and proofs will (Continued on Page 2)

ANNOUNCE COMPETITION OF COMBINED MUSICALS

Winning Poster Will Be Used
for Publicity During
Next Season

The Combined Musical Clubs announce the opening of their annual poster competition. The competition is opened at this date in order to give the competitors the opportunity of working up their posters during the summer. The winning poster will be used for publicity purposes during the season of 1922-1923.

The posters should be of the standard bulletin board size approximately 10 1/2 x 17 inches, and should be black and one other color preferably. Black and two other colors are however permissible.

All posters must be in on or before Wednesday, October 11, 1922, when they will be judged, and the winning contestant will receive a complimentary ticket to both the Fall and Winter concerts.

ATTENTION SENIORS!

Although no statement to that effect was made on the cards Class Day invitations are expected to serve as tickets of admission and must be presented at the entrance.

CALENDAR

- Wednesday, June 7
3:00—Senior Class Day Committee, Tea Dance, main hall, Walker.
- Thursday, June 8
6:30—Class of 1922 Banquet, main hall Walker.
- Saturday, June 10
12:00—Senior Class Day Exercises, Walker.
