Subscription \$2.50 for the college year in advance. Single copies five cents. Business Office 302 Walker Memorial, Charles River Road, Cambridge, Mass.; business phone University 7415. News Room, 3 Walker Memorial; news phone, University 7029. After 1 o'clock on Sunday and 6 o'clock on Tuesday and Thursday, the night editor may be reached at Congress 4523.

All material for publication must be received by noon of the day previous to issue. The Editor is always responsible for the opinions expressed in the editorial columns, and the Managing Editor for the matter which appears in the news columns.

Although communications may be unsigned, if so requested, the name of the writer must, in every case, be submitted to the Editor-in-Chief. THE TECH reserves the right, however, to reject unsigned communications.

IN CHARGE OF THIS ISSUE
J. P. Ramsey, Jr.....D. A. Sherman

Wednesday, September 27, 1922

The Editor says:
We don't notice many people shouting for joy over the prospect of school opening; but cheer up, the first hundred years are the hardest.

OUR PURPOSE

WITH the start of a new year comes the opportunity of setting new plans and resolutions in operation. Volume XLII of THE TECH is planning to make no radical changes in the paper but it is hoping to be of a larger usefulness and service to Technology and the undergraduate body in particular than ever before.

The true purpose of a college paper is service. It belongs to the student body and therefore must give the undergraduate what he desires. Though mistakes are often made, small stories given undue prominence, editorials making too drastic statements, the general appearance of the college sheet typifies this spirit of service. Student notices are printed, activities given publicity for their campaigns, calendars of the week's happenings are run, and every student is given the power of addressing the student body through the communication column.

THE TECH incorporates to a great degree these small services to the undergraduate. This year the circulation department has made it possible for every student to receive his paper when he arrives at the Institute. Deliveries are being made to the

dormitories and fraternity houses by seven o'clock in the morning.

Because, as we have said, the college publication belongs to the students so must it look to the students for support. In the matter of supporting THE TECH the undergraduate is asked to subscribe to the paper and patronize its advertisers. That our usefulness may compensate this support we hope, we know that the greatest criterion of our success will be the service that we render.

OUR GOOD SAMARITAN

THE Technology Christian Association is opening another year at the Institute in the role of the Good Samaritan, and on the basis of the work already accomplished it is aspiring to an even greater record of helpfulness and unselfish endeavor than previously.

It has spared no time or energy in finding sufficient and desirable rooms for the students, and has weeded out for that purpose the entire Metropolitan district. It might be mentioned that in the process, all rooms that were to be rented, were examined personally by a student member of the Association and those places having serious defects that made them less habitable were not listed. The work of finding lodgings for the students is thus being reduced to a scientific basis with the man as the beneficiary.

To men desirous of financial assistance the T. C. A. has acted as a medium of finding jobs outside of school hours, and so are responsible for keeping many of these needy men at the Institute.

The heavy cost of books is now being reduced through the book exchange maintained by the Association. Many standard texts are bought and sold second-hand, and the buyer and seller both reap the profits of T. C. A. service.

We could run on and tell of the providing of advisers for freshmen, of the helpful advice by which entering men find their way made easier and of the glad hand that makes one feel at home during the critical days of getting settled.

We could cite statistics of all this work but it is sufficient to say that the work has been, as far as it could be, all-embracing. We feel confident that a deep impression is being made on those who are cognizant of the work and if a call for help, whether financial or otherwise, were to be made, a response that comes from an appreciation of a job well done and for a desire for its continuance, would be the result.

INTERCOLLEGIATE NEWS

Dartmouth Tennis Shows Up Well

Two of Dartmouth's tennis stars took part in the Swiss National Tennis Championship Tournament at St. Moritz, Switzerland, in August. In the doubles, in which they worked together, they were runners-up and in the singles, both players made their way up to the fourth round, but were defeated there. In the mixed doubles, W. E. Howe, this year's Varsity captain and Miss Brokaw of New York City reached the finals, but were beaten there. J. P. Carleton, the other man, who is starting as Rhodes Scholarship man at Oxford this year, plans to return to St. Moritz this winter to take part in the famous ski-jumping events at the popular winter resort.

Iowa Starts Football Work

Telling the 51 candidates who reported to him that the western football championship eleven, of which the University of Iowa boasted last year, is a nonentity, coach H. H. Jones drove the line aspirants through a two hour drill. Only ten men of the 61 invited to the initial practice were missing at its roll call, and part of the delinquents are expected in daily.

NOTICES FOR UNDERGRADUATES

The Night Editor in charge of the next issue of THE TECH is Ingram Lee '24. Telephone Back Bay 0449. All matters pertaining to the issue should be referred to him.

Meeting of all members and candidates of THE TECH in Faculty and Alumni Room, Walker, at 5 o'clock Tuesday.

not the first, football accident of the season took place on the team of the New Mexico Agricultural College, when their captain was put out of the game due to having run a thorn in his foot. The injury became infected, and may keep Captain Fairley out of practice till the opening game of the season.

Trying To Popularize College Polo
The New York Polo Association is doing its best to get the game of polo started in the American colleges. The chairman of the association urged the athletic authorities of the various Eastern colleges to have all of their students who are interested in polo attend the matches played at Philadelphia this last week. Princeton has joined the Polo Association as its first Collegiate member.

AT THE THEATRES

Boston Opera House: Two weeks of Shakespeare and classic plays with Robert B. Mantell and Genevieve Hamper. Wed. Eve. "Julius Caesar." Thurs. "King Lear."

COLONIAL: Last week of Ziegfeld's success "Sally."

SELWYN: The big colored revue "Shuffle Along."

ST. JAMES: Reviewed in this issue.

SHUBERT: Julia Sanderson in "Tangerine." Reviewed in this issue.

PLYMOUTH: Thurston, the famous magician in a spellbinding act.

FINE ARTS THEATRE: Henry Jewett presents Henry Jones' delightful comedy "Dolly Reforming Herself."

KEITHS: Sophie Tucker and her two syncopaters as headliners this week.

MAJESTIC: Specialties in a thrilling bill.

"TANGERINE" AT SHUBERT

"Tangerine," the musical comedy, talk of New York town has been with us a number of weeks and still going strong.

As far as the regular glare and display of musical comedies go, it has all the requisites. But more than that it is exceptional—that is in nuptial arrangements. An island in the South Seas, where three unfortunate married men betake themselves with their divorced wives away from the rest of the insane world, is the center of attraction. There it is that women work, not the men, for they remain at home. The "gimme" type of wives are thoroughly cured after the novel experience.

Julia Sanderson, the clever dancer and singer, displays much of her old self, who with Frank Crumit makes a decided hit. A great deal of praise is due the harmony police force of the Isle of Tangerine for their excellent renderings.

BOSTON STOCK COMPANY

The Boston Stock Company presenting at the St. James Theater has recently started what promises to be a very successful season. The management is to be congratulated in their policy of giving to the public the best type of play possible at the popular price.

"Nothing But the Truth," a few weeks ago, was met with much enthusiasm. This week we have the pleasure of the revival of Willard Mack's famous Crook Drama "Kick In." Mr. Gilbert and Miss Nundsen, a new acquirement, in the principle roles, can be relied on for an excellent presentation.

New Fall Suits at Scott's

WHILE we depend on our own tailors for skill and standard—we faithfully keep step with the guildsmen of Fashion in Bond Street and upper Fifth Avenue for authentic style.

We have a tradition, however, to live up to for substantial quality and conservative safety—so our standards always appeal to business and professional men as a finality. Impressive without ever being extreme.

Finest of imported and domestic fabrics developed in our own workrooms.

It will pay you to listen to this music

ALL over the country the whistle is blowing for the kick-off, the start of that great game—another college year.

Be on your toes when the whistle blows. A good start will carry you well on toward your goal.

Let the football candidate start by working away till his muscles ache from bucking the line.

Let the aspirant for manager put in careful study of his team's needs, always eager to help—arranging a trip or carrying a pail of water.

Let the publications man be alert for news and tireless in learning the details of editorial work.

Whatever activity you come out for, crowd a lot of energy into these early Fall days.

And if a good start helps win campus honors, it helps win class room honors, too. The sure way to be up in your work is to aim now for regularity at lectures, up-to-date note-books and particular attention to the early chapters of text-books, thus getting a grip on the basics.

This is best in the long run, and—selfishly—it is easiest in the long run. That is, if life after college is made easier by the things a bigger income can buy.
