TECHNOLOGY BRANCH

THE STORY OF THE TECHNOLOGY BRANCH

WE ARE GIVING BELOW A REPRINT OF AN ARTICLE BY MAJOR EDWIN T. COLE, WHO WAS THE FIRST TECH DIRECTOR ON THE BOARD OF DIRECTORS OF HARVARD CO-OPERATIVE SOCIETY. THE ARTICLE SHOWS HOW THE TECH BRANCH WAS CALLED INTO EXISTENCE AND THE ARTICLE IS NOW AN INTERESTING HISTORICAL SKETCH.

IT MIGHT BE WELL TO MENTION HERE THAT TECHNOLOGY'S REPRESENTATION IN THE MANAGEMENT OF THE BUSINESS HAS BEEN GREATLY INCREASED IN THE PAST FIVE YEARS. PROFESSOR DAVIS R. DEWEY IS NOW A STOCKHOLDER. THE FOLLOWING MEN FROM TECHNOLOGY HAVE BEEN NOMINATED AS DIRECTORS FOR THE COMING YEAR: M. WALTER HUMPHREYS, MR. H. S. FORD, JASPER WHITING AND ROSCOE H. SMITH FROM THE STUDENT BODY. MR. HUMPHREYS IS ALSO NOMINATED FOR THE OFFICE OF SECRETARY OF THE CORPORATION.

Here is Major Cole's letter as it appeared in THE TECH on April 3, 1916.

TECHNOLOGY BRANCH

HARVARD CO-OPERATIVE SOCIETY

Last year the Institute Committee, having gone into the subject of the Technology Co-operative Society, particularly with a view to establishing co-operative service at the new Technology, asked the Alumni Council to appoint a committee to investigate the matter and to make recommendations. This action was taken and the Committee after a very thorough investigation, nation-wide in its scope, suggested that the Harvard Co-operative Society, one of the most successful in the country, be invited to establish a branch as close to the new Technology as possible. This recommendation having been approved by the Institute Committee and accepted by the Harvard Co-operative Society, arrangements are now in progress for carrying out the plan.

One of the suggestions have been that a member of the Technology Faculty be elected to membership in the Board of Directors to represent the Institute in carrying out the plan, the undersigned on nomination of the President was duly elected and has secured this space in THE TECH for telling you all the details of the plan and its advantages to Technology.

In this first it is desirable to make a statement which will be repeated and argued about right along until everyone is convinced. Your branch is to be part of a real co-operative effort. The cost of any article to you will be the wholesale price procurable by a very large buying power, plus the cost of selling minimized to the utmost degree by scientific business management. Any charge over these two costs will be returned in dividends. But to make the scheme a success Technology must back it to the limit. This matter will be changed in each issue. Be sure to read it.

EDWIN T. COLE,
Major, U. S. Army.

INSTITUTE LIBRARY MUST CLOSE SHELVES

(Continued from Page 1)

placement and loss of valuable books as seriously to impair the efficiency of the Library.

During the summer a large part of the book stack in the Central Library has been enclosed. In this space the books have been rearranged in two series. On the main floor are the bound volumes of the most important periodicals that are used for reference and research. The other books,—with the exception of a large part of the books in Travel, History, and Literature,—have been arranged in another series on the second tier of the stack.

All Students May Draw Books
 Books on the last named subjects have been placed in the open shelves on the main floor of the East Stack and here, also, are shelves available for designated books selected for reference in special courses. This part of the stack is readily accessible from the Reading Room. In the Reading Room are also open shelves in the book cases. One of these cases has been assigned to the Latin American Club, and another to the Chinese Club. In this room also will be found the latest issues of a large number of current periodicals.

All students registered in the Institute are entitled to draw books from the Library, either to be used in the Reading Room or to be taken out, and all have free access to the open shelves.

Admission to the book stack will be only by card, but this restriction is not as severe as it seems at first sight. Stack cards will be issued, of course, to members of the teaching staff, and they will be issued also upon application to graduate students and seniors who are doing research work in connection with their theses. The Librarian will be glad to consider applications for stack cards from other students whose work requires access to the book shelves, especially when they are recommended by instructors under whom they are doing special work.

Open Evenings as Usual
 In the Reading Room, Miss Smith at the Reference Desk and Mrs. Nickerson, the Vail Librarian in charge of Electrical Engineering Books, will, during office hours, be ready to help anyone to use the catalog or to look up subjects in any part of the Library. Miss Perry and Miss Woodman at the Delivery Desk will also be glad to answer questions and to help readers so far as their other duties permit.

The Library at the Institute is one of the great scientific and technical libraries of the world. All students should learn to use the Library and to enjoy the privileges that are theirs as members of the Institute.

The Central Library will be open as usual during term-time until 10 o'clock in the evening, except on Saturdays, when it closes at 4 P. M. All the libraries are closed on Sundays and holidays.

Statement of the Ownership, Management, Circulation, etc., Required by the Act of Congress of August 24, 1912, of THE TECH, published tri-weekly at Boston, Mass., for October 1, 1922, State of Massachusetts, County of Suffolk.

Before me, Notary Public in and for the State and county aforesaid, personally appeared Egon E. Kattwinkel, who, having been duly sworn according to law, deposes and says that he is the General Manager of THE TECH and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: General Manager, E. E. Kattwinkel; Editor, G. Peirce; Managing Editor, Ingram Lee; Advertising Manager, L. B. Leighton; all of Cambridge, Mass.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.) All equipment owned by THE TECH TRUST FUND, Cambridge, Mass., and rented by the current volume.

Officers: Mr. H. E. Lobdell, M. I. T., Cambridge, Mass.; Prof. A. T. Robinson, M. I. T., Cambridge, Mass.; Mr. Paul C. Leonard, 212 William St., East Orange, N. J.

3. That the above bondholders, mortgages, and other security holders, owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state). None.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is: (This information is required from the daily publications only.)

Egon Kattwinkel, General Manager. Sworn to and subscribed before me this 20th day of September, 1922.
 Emma G. Lunt (My commission expires March 24, 1927.)

FACULTY ANNOUNCEMENTS NEW APPOINTMENTS

(Continued from Page 1)

capacity of a consulting mining engineer.

Professor George B. Waterhouse was born in England and educated at Sheffield where he received the degree of Bachelor of Metallurgy. He came to the United States in 1900 and later studied at Columbia University where he received the degree of Doctor of Philosophy. Since 1908 he has been connected with the Lackawanna Steel Company of Buffalo first as metallurgist and then as metallurgical and inspecting engineer. He is the author of numerous original scientific papers and has translated a number of French and German works on metallurgy.

INSTITUTE GROUNDS SHOW IMPROVEMENT

(Continued from Page 1)

congested during the past year with parked cars.

Close Two Entrances at 6 O'clock
 A new rule regulating travel through the Institute grounds is going to be established in a short time. The automobile entrances at Building 2 and at Walker are to be closed to travel after 6 o'clock, the main entrance on Massachusetts Avenue being the only gate open at night to automobiles. It is hoped that this rule will offer more protection to automobiles parked at Walker at social events.

In the buildings a number of minor changes have been made, the greatest change being in the making of a suite of offices out of the old Refrigeration Laboratory on the first floor of building 3. Here are now located the Publications office and the Administration offices of the Faculty. A part of the Lounge in the basement of building 2 has been partitioned off as a locker room.

Jordan Marsh Company

The Topcoat's the thing!

RIGHT for every college or social activity are the smart new fall topcoats!

Swagger English raglan shoulder or regular fitted shoulder; silk trimmed, beautifully tailored—a coat you'll be proud to wear.

IN 3 SHADES OF
DONEGAL TWEED
25.00

Knitted Worsted Topcoats, the wrinkle-proof, feather weight, shower repellent fabric that's so popular; silk sleeve and yoke lining—in heather brown, heather green and **25.00** oxford gray

GABARDINE TOPCOATS
